# AHCCCS OPERATIONAL REVIEW EXECUTIVE SUMMARY CYE 2016

## **INTRODUCTION**

The Arizona Health Care Cost Containment System (AHCCCS) has served Arizona's most needy since 1982. The Agency's vision is "Shaping tomorrow's managed care... from today's experience, quality and innovation." As a component of achieving this vision, AHCCCS regularly reviews its Contractors to ensure that their operations and performance are in compliance with Federal and State law; rules and regulations; and the AHCCCS Contract. The reviewers use a process approved by the Centers for Medicare and Medicaid Services (CMS) based upon the terms of the contract with AHCCCS.

The primary objectives of the Health Choice Arizona (HCA) CYE 2016 Operational Review are to:

- Determine if the Contractor satisfactorily meets AHCCCS' requirements as specified in Contract, AHCCCS policies, Arizona Revised Statute, the Arizona Administrative Code and 42 CFR Part 438, Managed Care,
- Increase AHCCCS knowledge of the Contractor's operational encounter processing procedures,
- Provide technical assistance and identify areas where improvements can be made; as well as identifying areas of noteworthy performance and accomplishments,
- Review progress in implementing recommendations made during prior reviews,
- Determine if the Contractor is in compliance with its own policies and to evaluate the effectiveness of those policies and procedures,
- Perform Contractor oversight as required by the CMS in accordance with AHCCCS' 1115 waiver, and
- Provide information to an External Quality Review Organization (EQRO) for its use as described in 42 CFR 438.364.

AHCCCS conducted an onsite review of HCA from April 24, 2017 through April 26, 2017.

A copy of the draft version of this report was provided to the Contractor on June 7, 2017. HCA was given a period of one week in which to file a challenge to any findings it did not feel were accurate based on the evidence available at the time of review. This final report represents any changes made as a result of this request.

**AHCCCS OPERATIONAL REVIEW  
EXECUTIVE SUMMARY  
CYE 2016**

Upon issuance of the report, the Contractor is required to maintain the confidentiality of the information, including the standard criteria and findings of the Review Team until such time as AHCCCS determines; in order to maintain the integrity of the process until all Contractors have been reviewed.

## **SCORING METHODOLOGY**

The CYE 2016 Operational Review is organized into Standard Areas. Depending on the program contracts awarded, the Contractor may be evaluated in up to twelve Standard Areas. For the CYE 2016 Operational Review, these Standard Areas are:

- Corporate Compliance (CC)
- Claims and Information Systems (CIS)
- Delivery Systems (DS)
- General Administration (GA)
- Grievance Systems (GS)
- Adult, EPSDT and Maternal Child Health (MCH)
- Medical Management (MM)
- Member Information (MI)
- Quality Management (QM)
- Reinsurance (RI)
- Third Party Liability (TPL)

Each Standard Area consists of several Standards designed to measure the Contractor's performance. A Contractor may receive up to a maximum possible score of 100 percent for each Standard measured in the CYE 2016 Operational Review. Within each Standard are specific scoring detail criteria worth a defined percentage of the total possible score. AHCCCS totals the percentages awarded for each scoring detail into the Standard's total score. Using the sum of all applicable Standard total scores, AHCCCS then developed an overall Standard Area Score.

In addition, a Standard may be scored Not Applicable (N/A) if it does not apply to the Contractor and/or there were no instances in which the requirement applied.

Contractors must complete a Corrective Action Plan (CAP) for any Standard where the total score is less than 95 percent.

Based on the findings of the review, one of three Required Corrective Action statements were made:
