

Subject Line: New Live-in Caregiver Report Available Friday

# AHCCCS E.V.V.

## ELECTRONIC VISIT VERIFICATION

This announcement is directed to Provider Agencies.

### **New Live-in Caregiver Report Available Friday, April 3<sup>rd</sup>**

AHCCCS is pleased to announce a new report will be available in the AHCCCS Aggregator this Friday, April 3, 2026. The Live-in Caregiver report will allow providers to see the live-in caregiver relationships their vendors send to the AHCCCS aggregator. This report can help track all active live-in caregiver arrangements for clients, including payer and vendor information, provider and client identifiers, caregiver details, and the procedure codes being billed. It shows whether the client is a minor, the employee's unique identifier and name, and the specific live-in service designation to ensure compliance with AHCCCS and payer requirements. The [EVV Aggregator Provider User Manual](#) is being updated to reflect the new report.

If you do not have access to the AHCCCS aggregator, you can find directions on how to gain access on the EVV website at [www.azahcccs.gov/evv](http://www.azahcccs.gov/evv) under AHCCCS Aggregator.
