

AHCCCS Section 1115 Waiver Renewal Public Forums

The Arizona Health Care Cost Containment System (AHCCCS) is seeking to renew its Section 1115 Medicaid Demonstration Waiver. Through this renewal, AHCCCS is seeking the Centers for Medicare and Medicaid Services (CMS) approval to continue the success of Arizona's unique Medicaid program and statewide managed care model, extending authority for Arizona to continue programs including, but not limited to:

- Home and community-based services (HCBS) for individuals in the Arizona Long Term Care System (ALTCs)
- KidsCare (CHIP) expansion to increase the eligibility threshold to 225% of the FPL
- Housing and Health Opportunities (H2O)
- Tribal Dental Benefit for members served in IHS/Tribal 638 facilities
- Reentry Services

AHCCCS is hosting two public forums to engage with the public, stakeholders, providers, and Tribal stakeholders, in preparation for the full waiver renewal submission. These virtual sessions allow for an opportunity to provide feedback on and understand the state's existing waiver programs, learn about the waiver renewal process and timelines, learn about the expansion of existing programs, and share your experiences and/or questions.
