

24/7 Opioid Treatment Program Requirements

The Arizona Health Care Cost Containment System (AHCCCS) is hosting two community forums to solicit public feedback before implementing standards for 24/7 access points for treating opioid use disorders.

AHCCCS and its contracted health plans are implementing new standards and reporting requirements* for all Opioid Treatment Programs (OTPs) receiving AHCCCS reimbursement. These new standards and reporting requirements are in addition to all State or Federal licensing and registrations requirements.
