- 1. Ipratropium inhalation solution
- 2. Ipratropium/albuterol inhalation solution
- 3. Spiriva
- 4. Atrovent HFA
- 5. Combivent Respimat

Grandfather- NO

Long Acting Opioid Prior Authorization Exclusions Discussion- Sara Salek

- 1. AHCCCS received feedback from the oncology community stating prior authorization requirement on long acting opioids is a barrier to care for oncology patients with neoplasm related pain.
- 2. It was recommended to approach long acting opioids with the same exclusions currently in place for short acting opioids for the following conditions:
 - i. Active oncology diagnosis with neoplasm related pain (or)
 - ii. Hospice care (or)
 - iii. End of life care (other than hospice)
- 3. The Prescriber must notify the pharmacy that the long-acting opioid prescription is for G89.3 (Neoplasm related pain) by writing the ICD-10 code on the hard copy prescription or communicating it telephonically, electronically or via fax to the pharmacy. The pharmacy staff must enter the diagnostic code in the prescription claim's NCPDP field.
- 4. Committee members voted unanimously to remove pa requirements for the above conditions effective July 1, 2017. No committee members opposed or abstained.

Opioid 7-Day Quantity Limitation update- Sara Salek, AHCCCS

1. On October 24, 2016, Governor Doug Ducey issued [Executive Order 2016-06](#) which limits the *initial* opioid prescription for adults as well as the *initial and refill* opioid prescriptions for children through the Arizona Health Care Cost Containment System (AHCCCS) and the Arizona Department of Administration (ADOA).
2. AHCCCS issued a draft policy for a two-week public comment period in December 2016 and subsequently held a stakeholder session on January 11, 2017.

BIOSIMILAR UPDATE- Basalgar Insulin

1. Basalgar Insulin
 - a. Due to the cost differential, AHCCCS will continue to require the brand name, Lantus, to be the only and preferred glargine insulin product available on the AHCCCS Drug List.

NEW DRUG REVIEWS: NON-SUPPLEMENTAL REBATE CLASS: SUZI BERMAN

1. The following new drugs were reviewed for the Non-Supplemental Rebate Class
 - a. Eucrisa- Crisaborole
 1. Recommendation is to not add Eucrisa to the AHCCCS Drug Lists because we have many other products that are efficacious and less costly. Eucrisa is available through prior authorization based on medical necessity.
 - a. 11 committee members voted in favor of the recommendations.
 - b. No committee members voted against the recommendations.
 - c. No committee member abstained.
 - b. Vemlidy- Tenofovir Adefovir Dipivoxil
 1. Recommendation is to not add this drug to the AHCCCS Drug List, there are other first line agents available that are more cost-effective. Vemlidy is available through prior authorization based on medical necessity.
 - a. 11 committee members voted in favor of the recommendations.
 - b. No committee members voted against the recommendations.
 - c. No committee member abstained.

FLUORIDE, SUZI BERMAN, AHCCCS

1. Fluoride is not currently not listed on the AHCCCS Drug List
2. The AHCCCS Dental Director is requesting we add Fluoride oral tablets to the AHCCCS Drug List to ensure that it is provided when medically necessary.
3. Recommendation is to add Fluoride oral agents to the AHCCCS Drug list without prior authorization effective 7/1/2017.
 - a. 11 committee members voted in favor of the recommendations.
 - b. No committee members voted against the recommendations.
 - c. No committee member abstained.
