2. Hemophilia Factor Products
 - a. A majority of committee members voted in favor on the below recommendations. No committee members opposed. One committee member abstained.
 - i. Continue current management
 1. All factor available via prior authorization
 2. Form a Hemophilia subcommittee for further review and recommendation

3. Oral Atypical (Second Generation) Antipsychotics
 - a. The committee members voted unanimously on the below recommendations. No committee members opposed or abstained.
 - i. Aripiprazole ODT, solution & tablets
 - ii. Clozapine ODT & oral tablets
 - iii. Latuda
 - iv. Olanzapine ODT & oral tablets
 - v. Quetiapine tablets
 - vi. Risperidone ODT, solution & oral tablets
 - vii. Saphris
 - viii. Ziprasidone tablets

4. Long-Acting Injectable Agents
 - a. The committee members voted unanimously on the below recommendations. No committee members opposed or abstained.
 - i. Abilify Maintena
 - ii. Aristada
 - iii. Invega Sustenna

- iv. Invega Trinza
- v. Risperdal Consta

5. Stimulants and related agents

- a. The committee members voted unanimously on the below recommendations. No committee members opposed or abstained.
 - i. Adderall XR
 - ii. Amphetamine salt combination
 - iii. Aptensio XR (added)
 - iv. Daytrana
 - v. Dextroamphetamine capsule ER
 - vi. Dextroamphetamine tablet
 - vii. Focalin
 - viii. Focalin XR
 - ix. Guanfacine ER
 - x. Kapvay
 - xi. Methylphenidate Chewable Tablets & Solution
 - xii. Methylphenidate
 - xiii. Methylphenidate CD (added)
 - xiv. Methylphenidate ER (generic Concerta)
 - xv. Methylphenidate ER (generic Ritalin LA)
 - xvi. Quillichew ER
 - xvii. Quillivant XR
 - xviii. Ritalin LA 10mg capsule
 - xix. Strattera
 - xx. Vyvanse Capsule

6. Pancreatic Enzymes

- a. The committee members voted unanimously on the below recommendations. No committee members opposed or abstained.
 - i. Creon
 - ii. Zenpep

7. Anticoagulant- Oral

- a. The committee members voted unanimously on the below recommendations. No committee members opposed or abstained.
 - i. Eliquis
 - ii. Pradaxa

 - i. Enoxaparin Syringes and Vials – are preferred (added)
 - ii. Lovenox Syringes and/or Vials– as non preferred

AHCCCS Drug Lists Alignment for Behavioral health Drugs & Vote- Michelle Cavner, Pharmacy Director, MMIC

1. Proposed recommendation is to bring parity and alignment across both AHCCCS drug lists as well as across RBHA plans.
 - a. Prior Authorization requirements
 - b. Quantity Limits
 - c. Age
 - d. Addition of drugs not listed
 - e. This recommendation will be sent out to the committee members for vote via email.

BIOSIMILAR UPDATE

1. Inflectra (infliximab-dyyb)
2. Renflexis (Infliximab-abda)
3. The recommendation is to continue the use of Remicade as the preferred infliximab product because it is the most cost effective infliximab product to the State.

NEW DRUG REVIEWS: NON-SUPPLEMENTAL REBATE CLASS: SUZI BERMAN

1. The following new drugs were reviewed for the Non-Supplemental Rebate Class

- a) Austedo (Deutertrabenazine)
 - i) Recommendation is to not add Austedo to the AHCCCS drug list due to the lack of evidence to support the clinical efficacy.
 - (1) All committee members voted in favor of the recommendations.
 - (2) No committee members voted against the recommendations.
 - (3) No committee member abstained.

- b) Dupixent (Dupiluma)
 - i) Recommendation is to not add Dupixent to the AHCCCS Drug List because the use of Dupixent is indicated when the atopic dermatitis is not controlled by topical steroids. There are many steroids and other products available for the treatment of atopic dermatitis on the AHCCCS Drug List.
 - (1) All committee members voted in favor of the recommendations.
 - (2) No committee members voted against the recommendations.
 - (3) No committee member abstained.

- c) Rhofade (Oxymetazoline HCL 1% Cream)
 - i) Recommendation is to not add this medication to the AHCCCS Drug List because there are many other topical medications on the AHCCCS Drug List, which are efficacious and more cost effective.
 - (1) All committee members voted in favor of the recommendations.
 - (2) No committee members voted against the recommendations.
 - (3) No committee member abstained.

- d) Symproic (Naldemedine)
 - i) Recommendation is to not add Symproic to the AHCCCS Drug List because there are many alternatives available that are more cost effective to treat constipation.
 - (1) All committee members voted in favor of the recommendations.
 - (2) No committee members voted against the recommendations.
 - (3) No committee member abstained.

- e) Xadago (Safinamide)
 - i) Recommendation is to not add Xadago to the AHCCCS Drug List because the primary endpoint outcomes of Xadago were very similar to placebo.
 - (1) All committee members voted in favor of the recommendations.
 - (2) No committee members voted against the recommendations.

(3) No committee member abstained.

f) Ingrezza (Valbenazine)

i) Recommendation is to not add Ingrezza to the AHCCCS Behavioral Health Drug List because there is minimal benefit as evidenced by the endpoints of the study.

(1) All committee members voted in favor of the recommendations.

(2) No committee members voted against the recommendations.

(3) No committee member abstained.

g) Emflaza (Deflazacort)

i) Recommendation is to not add Emflaza to the AHCCCS Drug List.

(1) All committee members voted in favor of the recommendations.

(2) No committee members voted against the recommendations.

(3) No committee member abstained.
