

**ALTCS GEOGRAPHIC SERVICE AREA INFORMATION**

AHCCCS will award ALTCS contracts for the provision of covered services to eligible populations based on Geographic Service Areas (GSA). A GSA is a specific county or a defined group of counties. Currently members are served by Contractors in seven GSAs. The map included in the Bidder's Library defines each of the seven GSAs that will be awarded for contracts effective October 1, 2011, including current population statistics by county and GSA. Information regarding the number of awards per GSA is noted in Instructions to Offerors.
