

IT DEMONSTRATION SCORING PROCESS PROVISIONS

- Offerors must fill all applicable fields/segments; blanks are not considered a valid response unless the expected correct response was 0.
- Offerors must provide correct responses in the appropriate fields/segments; if a response is provided in an incorrect field/segment, it is not considered.
- Offerors responses to “Number of Claims Paid” and “Number of Claims Not Paid” related to the Claims data exchanges Groups 1, 2 and 3 will be unique to each Offeror depending on their processing of each provided scenario.
- Offerors responses to Claims Status Inquiries 1 and 2 as well as Encounter Processing 1 and 2 will be unique to each Offeror, but are expected to be consistent with related responses for each Claims Processing scenario.
- Late SFTP submissions are not considered and result in no points for related responses.
