

Targeted Investments Program- Justice Clinics Forum

July 30, 2018

Welcome

- Purpose and Intent of Today's Meeting
- Meeting Key Milestones and Year 2 Document Validation Criteria
- Attestation & Validation Process
- TI Milestone Changes
- Incentive Payment Determination
- Update on Forensic Peer & Family Training
- Registration Expectations & Contracting with AHCCCS Complete Care Plans
- Lessons Learned & Best Practices from Open Clinics
- Q & A
- Evaluation

Meeting Key Milestones

Reaching across Arizona to provide comprehensive
quality health care for those in need

CC#2 – Identify members who are at high risk...

Unique to Justice Concentration:

Adult members at high risk are determined by the practice, but must include members with or at risk for a behavioral health condition who are at high risk of a) near-term acute and behavioral health service utilization and b) decline in physical and/or behavioral health status and c) are at medium to high criminogenic risk as determined by probation/parole and the appropriate criminogenic screening tools listed below:

- 1) Offender Screening Tool (OST);
- 2) Field Reassessment Offender Screening Tool (FROST);
- 3) Criminal Thinking Scales;
- 4) Arizona Community Assessment Tool (ACAT);
- 5) Risk, Need, and Responsivity(RNR);
- 6) Women's Risk Need Assessment (WRNA); and
- 7) Sex Offender Treatment Intervention and Progress Scale (SOTIPS).

CC#3 - Utilize practice care managers...

Unique to Justice Concentration:

- Members on probation/parole will have a “case plan” as part of their conditions of release.
- Practice Case Managers should include elements of the probation/parole case plan where appropriate.

CC#10- Identify community-based resources...

At a minimum, if available, practices should establish relationships with:

- 1) Community-based social service agencies.
- 2) Self-help referral connections.
- 3) Substance misuse treatment support services.

 Important for relationships to be more than handouts/flyers/internet search

CC#11- Prioritize access to appointments...

- Prioritize access to appointments for all individuals listed in the high-risk registry. As applicable to the practice, specialized focus must be on:

- 1) Ensuring that adults transitioning from the Criminal Justice System have same-day access to appointments on the day of release and during visits to a probation or parole office.

CC#14-Outreach plan...

- What are your methods for doing this?
- Challenges?
- Opportunities?

OUTREACH

CC#17-Peer and family support plan...

- Peer Run Organizations are skilled in forensic support
- Recent changes to this CC to include dates that sections of training must be completed

CC#18-Targeted Investments program-offered learning collaborative

- In the future
- What would be most beneficial?

Attestation and Document Validation Process

Attestation & Validation Process

- Milestone achievement documented through attestation
- Milestone achievement validated through document upload and review
- Milestone achievement will also be validated through on-site reviews
- **AHCCCS Online access is necessary** to enter the Attestation & Validation Portal
- The Attestation & Validation Portal will be available to Justice Providers -Know your **SPN!**

Targeted Investments Year 2 Document Validation Criteria

<https://www.azahcccs.gov/PlansProviders/TargetedInvestments/AttestationPortal/>

AHCCCS Arizona Health Care Cost Containment System		Justice AHCCCS Targeted Investments Program	
Targeted Investments Year 2 Document Validation Criteria			
<i>Note: The intent is that NO protected health information [PHI] is uploaded through the TI attestation portal</i>			
Core Component	Milestone	Validation Method	Review Criteria
1	Utilize a BH integration toolkit and action plan and determine level of integration	IPAT score submitted through Survey Monkey to AHCCCS	N/A
2	Demonstrate a high-risk electronic registry with criteria established	Upload high risk registry criteria and de-identified sample through the TI attestation portal	Documentation must include: <ul style="list-style-type: none"> <input type="checkbox"/> A description of what criteria the practice uses to determine which members are at-risk for a behavioral health condition. <input type="checkbox"/> A description of what criteria the practice uses to determine which members are at high risk of a near-term acute and behavioral health service utilization. <input type="checkbox"/> A description of what criteria the practice uses to determine which members are at high risk for a decline in physical and / or behavioral health status. <input type="checkbox"/> The registry template.
3	Identify the assigned care manager; document the duties of the care manager including the maximum caseload and prioritizing members to receive practice care management, consistent with CC 2	Upload documentation describing the care manager's duties through the TI attestation portal	The care manager's documented duties must include: <ul style="list-style-type: none"> <input type="checkbox"/> Responsibility to assess and periodically reassess members. <input type="checkbox"/> Development and implementation of integrated care plan. <input type="checkbox"/> Working with members and their families to facilitate linkages to community organizations, including social service agencies.
4	Demonstrate that the practice has begun using an integrated care plan	Upload sample integrated care plan template through the TI attestation portal	Integrated care plan must include the following elements: <ul style="list-style-type: none"> <input type="checkbox"/> Patient goals for improved health <input type="checkbox"/> Problem identification <input type="checkbox"/> Risk drivers <input type="checkbox"/> Barriers to care <input type="checkbox"/> Action items for the clinical team, patient and / or family.

Recent Core Component & Milestone Revisions

Reaching across Arizona to provide comprehensive
quality health care for those in need

Recent Core Component & Milestone Revisions

- CC 5 (SDOH screen) Change to include “tool examples include but are not limited to”
- Use of the word “**AND**” in the milestone description.
- CC 17 (Peer & Family) Change lists dates that sections of training must be completed

Incentive Payment Determination

Reaching across Arizona to provide comprehensive
quality health care for those in need

Incentive Payment Determination

<https://www.azahcccs.gov/PlansProviders/TargetedInvestments/PaymentDeterminationProcess/JusticePDP.pdf>

Targeted Investments Year 2 Incentive Payment Determination Process (Justice Providers)

TI Year 2 Incentive Payment Determination-Justice by Site [SPN]

$$\begin{array}{|c|} \hline \text{1 Unique number of} \\ \text{projected adult} \\ \text{members} \\ \hline \end{array} \times \begin{array}{|c|} \hline \text{2 Milestones} \\ \text{Achieved} \\ \text{[Weighted]} \\ \hline \end{array} \times \begin{array}{|c|} \hline \text{3 Milestone} \\ \text{Rate} \\ \hline \end{array} = \begin{array}{|c|} \hline \text{Total TI Incentive} \\ \text{Payment} \\ \hline \end{array}$$

1. Projected annual number of unique adult members served by the clinic between 10/1/2018-9/30/2019 based on self-reported projection as of June 2018.
2. Milestones attested to and validated, each weighted to a relative value based level resources needed
3. Per Milestone/Per Unique Member per Year (PUMPY) is the per-member value determined by AHCCCS for each projected member served by the TI participating clinic as determined by AHCCCS.

Registration Requirements as a TI Justice Provider

Reaching across Arizona to provide comprehensive
quality health care for those in need

Registration Requirements as a Justice Provider

- Justice clinics must be registered as “IC”
- Justice clinics must contract with all ACC plans
- Challenges or barriers?

Targeted
Investments

Overview of the Targeted Investment (TI) Program Forensic Peer and Family Support Training

Vicki L. Staples, MEd, CPRP
Director of Outpatient Behavioral Health Services
Maricopa Integrated Health System
vicki.staples@mihs.org

Provider Type: Justice
Area of Concentration: Adults Transitioning from Criminal Justice System

Hold out hope to those they serve, partnering with them to envision and achieve.

Help those served to identify and build on strengths and empower them to choose for themselves, recognizing that there are multiple pathways to recovery.

Advocate and encourage the individual and family in having a voice.

Build bridges with other providers.

Encouraging and supporting individual's engagement and self-determination of their selected and agreed upon array of supports to achieve and maintain recovery and wellness.

Increasing an individual's and their family's ownership and achievement of their goals.

Educating and providing referrals for an array of services and supports to help the individuals and their families achieve and maintain recovery and wellness.

Provider Type: Justice
Area of Concentration: Adults Transitioning from Criminal Justice System

Forensic Peer & Family Support Specialists have a Key Role in Assisting Adults in Successfully Transitioning Back to the Community from CJ settings and Connecting them with IHC

- Core Component #4** Implement integrated care plan.
- Core Component #5** Screen using SDOH & procedures for intervention.
- Core Component #10** Identify community-based resources.
- Core Component #14** Develop outreach plan.
- Core Component #17** Create peer/family support plan.
- Core Component #18** Participate in relevant TI program-offered training.

Provider Type: Justice
Area of Concentration: Adults Transitioning from Criminal Justice System

17.	<p>Create a peer and family support plan using evidence-based approaches that incorporates AHCCCS identified & approved training & credentialing for peer and family support specialists. Peer and family support specialists will have lived experience in the public behavioral health system and Criminal Justice System and be available to the co-located staff to assist formerly incarcerated individuals and their families with, including but not limited to:</p> <ol style="list-style-type: none"> 1) Eligibility and enrollment applications; 2) Health care education/system navigation; 3) Finding transportation; and 4) Information on other support resources, including health literacy and financial literacy training.

	<p>Practice Reporting Requirement to State</p>	<p>Practice Reporting Requirement to State</p>
<p>Wave 1: By September 30, 2018, document that the practice has created a peer and family support plan, which incorporates peer and family specialists as part of the co-located staff and specifically articulates their role. Attest that peers and family support specialists have been trained using AHCCCS identified & approved Forensic Peer and Family Training Section 1.</p>	<p>Wave 2 (By March 31, 2019): Documents that the practice has created a peer and family support plan, which incorporates peer and family specialists as part of the co-located staff and specifically articulates their role, AND</p> <p>Wave 2 (By March 31, 2019): Attest that peers and family support specialists have been trained using AHCCCS identified & approved Forensic Peer and Family Training Section 1, AND</p> <p>Waves 1 and 2 (By March 31, 2019): Attest that peers and family support specialists have been trained using AHCCCS identified & approved Forensic Peer and Family Training Section 2, AND</p> <p>Waves 1 and 2 (By September 30, 2019): Document the number of FTEs that have been hired or contracted to fill the peer and family support role and the training they have undergone to be effective peer and family support specialists, AND</p> <p>Waves 1 and 2 (By September 30, 2019): Attest that peers and family support specialists have been trained using AHCCCS identified & approved Forensic Peer and Family Training Section 3.</p>	

Course Purpose

The Forensic Peer and Family Support Training Course is for **credentialed** Peer and Family Support Specialists who are working in the Targeted Investment (TI) Program Adult Ambulatory Projects that have a criminal justice focus.

It is anticipated that there would **be at least 60 participants** who need this new training statewide **serving approximately 5,500 members.**

Training Foundations

Forensic Peer and Family Support Course

- Created in collaboration with the community by partnering with local, and international national experts
- Incorporates blended learning approach to increase awareness and build skills
- Three Sections for TI Program Attestation
 - **Section I:** Modules 1-3 to be completed no later than 9/30/18
 - **Section II:** Modules 4-15 to be completed no later than 3/31/19
 - **Section III:** Modules 16-20 (including two workshops) to be completed no later than 9/30/19

Modules in the Course

Module 1

Overview of TI Program

Modules 2-3

Understanding the Role of
FPSS/FFSS

Module 4

Overview of the CJ System

Module 5

In-Reach, Reentry and Community
Reintegration Activities

Modules 7-8

Recidivism Reduction/RNR

Module 9

Trauma-Informed Care

Modules 10-16

10-16 Intro. To Core Correctional
Practices

Modules 17-18

Workshops/Classroom

Modules 19

Self-Care and Compassion Fatigue

Module 20

Supporting Peer and Family Voice

Next Steps & Questions

Lessons learned & Best Practices by Spectrum Healthcare- Verde Valley Guidance Clinic

Reaching across Arizona to provide comprehensive quality health care for those in need

Lessons Learned by Spectrum Healthcare

Administrative

- Make sure the contract expectations and payment structure are clear
- Internal communication with the team
 - Take time to educate the entire team about TIP (including billing staff, front desk, call center, providers)
 - Establish who to go to for questions and trouble shooting
 - Establish a liaison between staff delivering services and administration
 - Establish a data person to maintain program data elements for reporting
 - Establish a way to track justice participants in the EMR
- Ask partners to educate their internal teams so they know who the behavioral health people are and what the program does

Lessons Learned by Spectrum Healthcare

Programmatic

- When a jail announces it will release a person, it can be a 2-6 hour wait for the client to be ready for transport/assessment.
- Most individuals being released from jail are from out of the area and need transportation home
- Establish a plan for individuals who are from out of the area and need transport late in the day
- Establish a plan for individuals who are homeless
- Jails do not have access to internet/wifi
- Due to safety concerns and space limitations it can be difficult to find space inside the jail for privacy and assessments
- People getting out of jail often have a dead phone and no transportation. The parking lot is a great place to engage them. Providing transport, a plug, water, and a snack can be a great opportunity to engage people using motivational interviewing
- Many individuals are not trusting of jail staff so they don't answer screenings conducted by jail staff honestly. They may be in dire need of services, but do not show up on jail screenings

Best Practices from Spectrum Healthcare

- Establish contact persons with each agency in the service area, for coordination of care with clients
- Hold regular stakeholder meetings to trouble shoot

Reaching across Arizona to provide comprehensive quality health care for those in need

Best Practices from Community Health Associates

- Progress to date
- Lessons learned
- Best practices

Resources

Reaching across Arizona to provide comprehensive
quality health care for those in need

Resources to help complete Milestones

- Core Component Education Modules
