Subject: Update 1/8 - RE: Corrected Unique Population Indicators File
Importance: High

The members incorrectly identified as SED (Seriously Emotionally Disturbed) have been corrected and an updated off cycle run of the Unique Population File is now available reflecting these updates. The updated file is available in the XXX/PROD/OUT folder (where XXX is your ACC plan's folder on the AHCCCS SFTP server). The file is named 201901.HPXXXXXX_MTHLY_UNIQUE_ELG_POP.TXT (where XXXXX is your health plan ID).

Ongoing files will run on a monthly basis as previously noted.

Thank you for your patience and please let us know if you have any questions. Thanks!

Subject: Update 11/29 - RE: Initial Unique Population Indicators File
Importance: High

It has come to our attention that there are adult members on the Unique Population file that have been incorrectly identified as SED (~~Seriously Emotionally Disturbed~~).

This occurred due the initial identification process not process not taking into consideration the age of the member identified when looking at the applicable SED diagnoses.

We are currently working to correct this issue by removing this identifier for those members included in error, and will issue a replacement file as soon as this cleanup is completed.

We apologize for the inconvenience. Please let us know if you have any additional questions. Thanks!

Subject: Initial Unique Population Indicators File
Importance: High

The initial run of members' records being updated with unique population indicators (such as SED, Autism, SCIDS, etc) based on claims and ~~encounter data has been completed.~~

To facilitate passing on this information prior to next month's normal monthly file, a special run of the Unique Population file has been run and is available in the XXX/PROD/OUT (where XXX is the ACC plan's folder on the AHCCCS SFTP server). The file is named 201811.HPXXXXXX_MTHLY_UNIQUE_ELG_POP.TXT (where XXXXXX is your health plan ID).

Ongoing this file will be run monthly approximately the 5th of each month. Please refer to previous communications on this topic or the Technical Interface Guidelines (TIG) for specifics of the ongoing monthly file.

Please let us know if you have any questions. Thanks!
