To support the continued progress of the EVV Project and business rules/requirements with our EVV vendor, we need the following information from each MCO by no later than COB Friday 8/2.

Thank you in advance and let us know if you have questions.

A. EVV Services to Authorization requirements: Please provide for each of the EVV Services listed below:

1. Indication of whether or not the service is current authorized in your systems
2. Whether this authorization (if applicable) is pre or as a component of service delivery
3. And any specific authorization rules for the service that we should be aware of
