

Hospital-Targeted Investments Incentive Payment Determination Process

Hospital Participant:

1. Number of qualified inpatient discharges during the period based on the hospital's encounter data from its contracted AHCCCS MCOs
2. Milestones attested to and validated, each weighted to a relative value based level resources needed
3. Per Milestone/Per Discharge per Year (PDPY) to be determined after Milestones attestations totaled. There is an aggregate fixed amount of incentive funding available for TI Year 2-the value of each successful milestones receives is based on the number of shares over which the total is allocated

Available program funding for TI Year 2 is 66.5 million.
