Notes:

- (1) The JLBC provides the Traditional Medicaid Services Appropriation figure and the Fee-for-Service allocation is included in this appropriation. The FY 2019 allocation and line detail was derived by using a percentage of each individual line to the total line of the state fiscal year 2018 actuals.
- (2) FY 2018 Actuals are from PMMIS and will not tie to AFIS due to timing and manual adjustments.
- (3) FES Births/Other expenditures were categorized more accurately in the second half of FY2017, and are assumed to remain accurate in future years.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

TRADITIONAL MEDICAID SERVICES  
TRADITIONAL REINSURANCE

**TRADITIONAL REINSURANCE**

**PROGRAM DESCRIPTION/BACKGROUND:**

Reinsurance is a stop-loss program provided by AHCCCS to its contractors for the partial reimbursement of covered inpatient facility medical services incurred for a member with an acute medical condition beyond an annual deductible. AHCCCS provides both regular and catastrophic reinsurance coverage to health plan contractors. The purpose of reinsurance is to reduce the health plans' financial risk for major medical costs incurred by members.

The reinsurance program provides critical safeguards to AHCCCS health plans. These safeguards promote competition and flexibility during the procurement process ensuring competent contractors are chosen to provide quality services to AHCCCS recipients, while minimizing the cost to Arizona taxpayers. This proactive approach limits the costly procedure of transitioning members or liabilities when a contractor's financial solvency declines and services can no longer be provided.

Regular reinsurance is only available for inpatient facilities. Before regular reinsurance is paid to a health plan, the plan must meet an annual deductible for each eligible member. Once the deductible is met, the health plan is reimbursed by AHCCCS at 75% of the cost of services that exceed the deductible. The health plan will continue to pay 25% of the cost of services until the case total value reaches \$650,000, after which point AHCCCS will reimburse at 100% of the health plans cost of services. This coinsurance percent is the rate at which AHCCCS will reimburse the Contractor for inpatient covered services incurred above the deductible.

Catastrophic reinsurance is available to health plans for services provided to members who need certain organ transplants, are taking certain drugs (collectively referred to as biotech drugs), or who have hemophilia, von Willebrand's Disease or Gaucher's Disease. AHCCCS reimburses the health plans at 85% of the cost of service. The health plan will pay 15% of the cost of service until the case total value reaches \$650,000, after which point AHCCCS will reimburse the excess at 100% of the contracted amount for the transplant or the amount which the health plan paid, whichever is less. There are no deductibles for catastrophic reinsurance cases.

Health Plan deductible options impact AHCCCS' reinsurance and capitation costs. This is because capitation rates are adjusted by a reinsurance offset based on the deductible level chosen. The higher the deductible, the lower the offset. AHCCCS provides the added compensation because the increased share of risk the Health Plan is taking has reduced the Agency's (the State of Arizona's) risk. As part of the 2013 Acute Care Contract RFP process, all participating health plans shifted to the \$25,000 deductible level category on October 1, 2013.

TRADITIONAL REINSURANCE**

**FISCAL YEAR 2020  
BUDGET JUSTIFICATION**

**METHODOLOGY:**

Over the past several years, AHCCCS has utilized a methodology based on overlapping contract years in order to calculate PMPMs for one complete state fiscal year of reinsurance. That fiscal year was then trended forward to create future state fiscal year PMPMs. While this methodology was sound during stable periods, there have been a significant number of policy changes implemented over the last few contract years such that, when combined with varying Health Plan encounter efficiencies, it renders that methodology ineffective for the current timeframe. In the absence of data related to each individual policy change, combined with the 28-month long payment cycle associated with each contract year, the completion percentages of the policy changes are extremely difficult to determine, although these policy changes will still be impacting reinsurance payments through FY 2018.

Although the contract year payment and reporting cycles have not changed, the policy changes and the inability to segregate the impact of the changes from the regular reinsurance expenditures, have made it necessary to update the model to include only the most recent fiscal years' experience in the program in order to estimate the costs. The timelines involved with the billing and health plan submission cycles have not changed. All reinsurance claims must reach a clean claim status within fifteen months from the end date of service, or date of eligibility posting, whichever is later. Encounters for reinsurance claims that have passed the fifteen-month deadline and are being adjusted due to a claim dispute or hearing decision must be submitted within 90 calendar days of the date of the claim dispute or hearing decision. A complete contract year cycle needs at least 28 months in order to complete the payments that are associated with it. For example, a claim with a date of service in the final month of CYE 2014 (September 2014) would have 15 months to reach a clean claim status (December 2015). If any September 2014 claims were disputed, they would have to be submitted within 90 calendar days of the claim dispute or hearing decision (March 2016). Submitted claim disputes and their subsequent hearings will vary in the amount of time necessary to come to a resolution.

As a consequence of the conditions mentioned above, the most recent fiscal year's expenditures were determined to be the most reliable data to use as the basis for the FY2019 – FY2020 reinsurance forecast. The SFY 2018 actual weighted PMPM was inflated in October 2018 and 2019 by 2.66%. The resulting PMPMs were then multiplied by the forecasted member months to come up with a total expenditure forecast for fiscal years 2019 and 2020. The inflation factors mentioned above were taken from Global Insight's Health-Care Cost Review - Hospital Market Basket, First Quarter 2018.

Member Month Forecast

Traditional Reinsurance utilizes the Traditional Capitation regular member month projections in order to develop the FY2018-FY2020 forecasts. Please refer to the Traditional Capitation section for more detail.

|                   | Age<1   | Age 1-20  | Age 21+   | Dual    | SSI w/o | TOTAL      | % Change |
|-------------------|---------|-----------|-----------|---------|---------|------------|----------|
| Actual SFY 2017   | 588,132 | 7,124,729 | 1,771,490 | 786,640 | 617,433 | 10,888,423 | 2.5%     |
| Actual SFY 2018   | 563,317 | 6,947,160 | 1,758,786 | 694,306 | 598,545 | 10,562,114 | -3.0%    |
| Estimate SFY 2019 | 547,979 | 6,787,971 | 1,745,212 | 706,285 | 592,210 | 10,379,658 | -1.7%    |
| Estimate SFY 2020 | 537,196 | 6,826,891 | 1,755,700 | 707,560 | 592,562 | 10,419,910 | 0.4%     |

As part of the implementation of the ACA on January 1, 2014, expenses related to the child expansion population are included in the Traditional Reinsurance forecast totals. The child expansion PMPMs are based on the weighted average PMPMs for SFY 2018. This population is federally matched at the Title XXI rate and is, consequently, 100% federally funded. The child expansion reinsurance expenditures are estimated to be \$2,499,000 Total Fund for SFY 2019 and \$2,565,000 for SFY 2020.

The final State Fiscal Year projections were separated into a Federal Fund amount and a General Fund amount. The fund sourcing was accomplished by applying the state's Federal Medical Assistance Percentage (FMAP) of each risk population to the SFY 2019 total dollars. SFY2020 uses the FFIS estimate for the FFY 2020 FMAP of 69.48%. For specific rates, refer to the FMAP Table. The SFY 2019 forecast was \$142,186,500 Total Fund (\$42,144,300 General Fund). The SFY 2020 forecast was \$145,754,400 Total Fund (\$43,776,600 General Fund).

It is assumed that the FMAP will decrease from 69.81% in FFY 2019 to 69.48% in FFY 2020 based on Federal Funds Information for States (FFIS) in Issue Brief 18-11 (March 23, 2018).

**TRADITIONAL MEDICAID SERVICES**  
**ACUTE MEDICARE PREMIUMS**

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**ACUTE BASE MEDICARE PREMIUMS PROGRAM**

**PROGRAM DESCRIPTION/BACKGROUND:**

AHCCCS pays Medicare Part A premiums (Hospital Insurance Benefit (HIB)) and Medicare Part B premiums (Supplemental Medical Insurance Benefit (SMIB)) for Title XIX members who are eligible for both Medicare and Medicaid. AHCCCS acts as a payer of last resort for medical benefits and cost avoids against Medicare for dual eligible members. This means that for these members AHCCCS only has liability for payment of Medicare coinsurance, deductibles, and the remaining medical benefits that are not covered by Medicare and all other third party payers. Health care providers must determine the extent of third party coverage and bill all private insurance carriers including HMOs and Medicare prior to billing AHCCCS. This Medicare "buy-in" program reduces the State's Medicaid costs because the Federal government, through Medicare, absorbs many of the major medical costs provided to these members, which otherwise would have been paid by AHCCCS.

In addition, Federal law requires the State to pay Medicare Part A and/or Part B premiums on behalf of certain low-income Medicare beneficiaries. These members are covered under the Qualified Medicare Beneficiary (QMB) or the Specified Low-Income Medicare Beneficiary (SLMB) programs. To be eligible for the QMB program, the individual's income must be less than 100% of the Federal Poverty Level (FPL). These QMB members are eligible for full benefits, however, some choose to remain QMB only and AHCCCS pays for their Medicare Part A and Part B premiums, Medicare coinsurance and deductibles. To be eligible for the SLMB program, the individual's income must fall between 100% and 120% of the FPL. AHCCCS pays the Medicare Part B premium for SLMB eligibles.

Section 4732 of the Balanced Budget Act (BBA) of 1997 created two new eligibility groups: Qualified Individual I and II (QI-1 and QI-2). These 100% federal funded groups were originally scheduled to sunset on December 31, 2002. However the QI-1 group, which receives a payment for the full Medicare Part B premium, was reauthorized by Congress (the QI-2 group did sunset). Section 211 of the Medicare Access and CHIP Reauthorization Act (MACRA) permanently extended the Qualifying Individual program, for Calendar Year (CY) 2016, and each subsequent year. To be eligible for the QI-1 Program, a member's income must be between 120% and 135% of the FPL.

In Fiscal Year 2020, AHCCCS requires an increase of \$17,548,000 in Total Funds consisting of \$4,170,300 General Fund and \$13,377,700 Federal Fund for the Acute Medicare Premiums allocation within the Traditional Medicaid Services Appropriation.

**METHODOLOGY:**

- Medicare Part A and Part B monthly premium rates are established by the U.S. Department of Health and Human Services, Centers for Medicare and Medicaid Services (CMS) for each calendar year.
- A per member per month (PMPM) cost for Medicare Part A premiums is calculated by dividing actual Medicare Part A premium expenditures for January through June 2018 by the SSI with Medicare member months for that same period. For Calendar Year 2018 and Calendar Year 2019, this PMPM cost is inflated by 1.59%. The 1.59% represents a five-year average of the percent increases (not including years in which the PMPM decreased) in the published Medicare Part A rate. The PMPM amounts are then multiplied by projected SSI with Medicare member months to estimate Medicare Part A premium expenditures for future years. The projected SSI with Medicare member months used for Medicare Part A and Part B premiums calculation includes members enrolled in the behavioral health integrated plans; as a result they do not tie to the SSI with Medicare member months used in the Traditional capitation forecast.
- A per member per month (PMPM) cost for Medicare Part B premiums is calculated by dividing actual Medicare Part B premium expenditures for January through June 2018 by the SSI with Medicare member months for that same period. For Calendar Year 2018 and Calendar Year 2019, this PMPM cost is inflated by 5.23%. The 5.23% represents a five-year average of the percent increases (not including years in which the PMPM decreased) in the published Medicare Part B rate. The PMPM amounts are then multiplied by projected SSI with Medicare member months to estimate Medicare Part B premium expenditures for future years.
- The separate PMPM costs for QMB-Only Part A premiums, Part B premiums and coinsurance/deductibles were calculated by dividing actual expenditures for January through June 2018 by actual member months for that same period. The PMPMs for QMB-Only Medicare Part A and B premiums were increased by the same Part A and B inflation percentages as above. The QMB-Only Coinsurance & Deductible PMPM was increased by an average of the Part A and B increases or 3.41% for both Calendar Year 2018 and Calendar Year 2019.
- The PMPM costs for SLMB were calculated by actual expenditures for the January through June 2018 being divided by actual enrollment for that same period. Because SLMB enrollees are only eligible to have their Part B premiums paid, the same inflationary increase used for the Part B Medicare Premium calculation was used for this population.
- The QI-1 program enrollment is developed by dividing actual prior year expenditures by the published Part B rate. The projected enrollment is then multiplied by the projected published rate to estimate the future expenditures. This program is 100% Federally funded up to the annual QI-1 allotment amount. If the allotment is exceeded, the cost is 100% state funded.

Medicare Premium Rates

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

TRADITIONAL MEDICAID SERVICES  
ACUTE MEDICARE PREMIUMS

The current calendar year 2018 Medicare Part A premium is \$422.00 per month. The current calendar year 2018 Medicare Part B premium is \$134.00. The effective Medicare premium rates paid by AHCCCS are calculated using the PMPM costs which include a 10% surcharge for late enrollment for some members over and above the published premium rates. The following table provides a historical perspective on the Medicare Part A and B premiums and annual increases.

**History of Medicare Premium Rates**

| Calendar Year | Medicare Part A Premium | % Change | Medicare Part B Premium | % Change |
|---------------|-------------------------|----------|-------------------------|----------|
| 2002          | \$319.00                | 6.33%    | \$54.00                 | 8.00%    |

ACUTE MEDICARE PREMIUMS**

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

Medicare Part A and Part B premiums projected for Calendar Years 2018 and 2019 are based on an average of the most recent five years percentage increase, excluding years for which the rate decreased.

**Membership Growth**

Linear regressions were used to project member month growth for the different subgroups of the Medicare Premiums Program.

- Traditional SSI with Medicare member – 36-month regression
- QMB-Only member – 36-month regression
- SLMB member – 36-month regression
- QI-1 member – 72-month regression

Below is a chart showing the projected member month changes for all subprograms within the Medicare Premiums Program for SFY 2012-2020. For FY2019 and FY2020, member months for SSI Traditional and Prop. 204 SSI were forecast in aggregate using a 36 month regression and then split according to the percentage that each group currently represents of the total. SSI with Medicare member months were then added together with Integrated Behavioral Health SSI with Medicare member months to get the Part A & B totals.

| SFY  | Part A & B | %Chg   | QMB-Only  | %Chg  | SLMB       | %Chg  | QI-1       | %Chg  |
|------|------------|--------|-----------|-------|------------|-------|------------|-------|
| 2012 | 599,769.42 | 8.5%   | 48,625.00 | -0.3% | 241,530.00 | 8.3%  | 153,686.33 | 1.3%  |
| 2013 | 627,624.21 | 4.6%   | 50,923.00 | 4.7%  | 262,706.00 | 8.8%  | 184,230.39 | 19.9% |
| 2014 | 650,489.05 | 3.6%   | 56,427.00 | 10.8% | 277,430.00 | 5.6%  | 189,203.99 | 2.7%  |
| 2015 | 672,604.99 | 3.4%   | 56,145.00 | -0.5% | 300,848.00 | 8.4%  | 200,471.33 | 6.0%  |
| 2016 | 686,869.32 | 2.1%   | 71,191.00 | 26.8% | 335,588.00 | 11.5% | 215,836.70 | 7.7%  |
| 2017 | 891,449.06 | 29.8%  | 80,510.00 | 13.1% | 355,429.00 | 5.9%  | 224,281.79 | 3.9%  |
| 2018 | 783,400.35 | -12.1% | 93,247.00 | 15.8% | 379,509.00 | 6.8%  | 227,946.56 | 1.6%  |
| 2019 | 796,500.13 | 1.7%   | 89,488.45 | -4.0% | 413,933.57 | 9.1%  | 235,734.66 | 3.4%  |
| 2020 | 799,628.59 | 0.4%   | 94,481.28 | 5.6%  | 437,028.17 | 5.6%  | 248,887.00 | 5.6%  |

**Notes:**

- 1) For FY19, Acute Medicare Premiums are appropriated as part of the Traditional Medicaid Services line item.
- 2) The FY19 Allocation above was based on FY 18 Medicare Premium expenditures as a percentage of total Traditional expenditures.
- 3) FY 2018 Actuals are from PMMIS and may not tie to AFIS because of timing issues.

**TRADITIONAL MEDICAID SERVICES  
BREAST AND CERVICAL TREATMENT PROGRAM**

**FISCAL YEAR 2020  
BUDGET JUSTIFICATION**

**BREAST AND CERVICAL CANCER TREATMENT PROGRAM (BCCTP)**

**PROGRAM DESCRIPTION/BACKGROUND:** The Breast and Cervical Cancer Prevention Act of 2000 amended Title XIX of the Social Security Act to make enhanced Federal matching funds available to states for the cost of extending Medicaid eligibility to individuals previously not eligible. A.R.S. § 36-2901.05 (Laws 2001, Chapter 332) created a new eligibility group for women under 65 years of age who have been screened and diagnosed with breast or cervical cancer through the Arizona Department of Health Service’s (ADHS) Well Women Healthcheck Program (WWHP) with an income at or below 250% FPL. The program began on January 1, 2002.

Uninsured women diagnosed with breast or cervical cancer on or after August 2, 2012, may be able to receive comprehensive treatment through the Breast and Cervical Cancer Treatment Program (BCCTP) provided by AHCCCS due to a change in Arizona law (Laws 2012, Chapter 299, Section 4). Prior to this change, only women that were screened and diagnosed through the Well Woman HealthCheck Program (WWHP) qualified for the BCCTP. The law allows for all women that meet the qualifications of the BCCTP and were diagnosed by a provider or entity recognized by ADHS’ WWHP, to enroll in the treatment program. This change was the primary catalyst responsible for the significant increase of enrollees in the BCCTP program through January 2014. The subsequent enrollment decline coincides with the implementation of ACA and is due to enrollees qualifying for one of the new expansion populations whereas prior to ACA, these same enrollees would have been placed in the BCCTP. Also, as part of the AHCCCS behavioral health integration effort, as of April 1, 2014, some members now receive physical and behavioral health care through Mercy Maricopa Integrated Care (Mercy Maricopa) health plan and Greater Arizona integrated plans.

| <b>FMAP</b> |        |          |
|-------------|--------|----------|
| FFY 2018    | 78.92% | Actual   |
| FFY 2019    | 78.87% | Actual   |
| FFY 2020    | 78.64% | Estimate |

**METHODOLOGY:**

The enrollment forecast assumes that the impact of ACA enrollment impact and behavioral health integration have been absorbed and the population should experience very moderate to no growth going forward.

PROGRAM**

**FISCAL YEAR 2020  
BUDGET JUSTIFICATION**

Women enrolled in the Breast and Cervical Cancer program are eligible for regular and prior period capitation, reinsurance, FFS (for Native Americans), and behavioral health. The table below contains the rates used in the development of the SFY 2019-2020 budgets.

Under AHCCCS Complete Care (ACC), a separate prior period capitation rate was not developed for CYE 19. Prior to this, rates had been set separately for prospective and prior period, with the prospective rate representing a weighted average of acute care only, prospective dual, and prospective non-dual. Effective October 1, 2018, the same rate will be paid for both prospective and prior period member months which will represent a weighted average of acute care only, prospective dual and non-dual, and prior period dual and non-dual. The FFS and reinsurance rates are based on SFY 2018 actual experience. The behavioral health rates are developed by the DHCM actuarial department. AHCCCS estimates a CYE 2020 capitation rate increase of 2.5% for all risk pools.

## **FREEDOM TO WORK (TICKET TO WORK)**

### **DESCRIPTION/BACKGROUND**

The Ticket to Work Incentives Improvement Act of 1999 (TWWIIA) improves access to employment training and placement services for people with disabilities who want to work. It also offers States opportunities to eliminate barriers to employment for people with disabilities by improving access to health care. TWWIIA created two new optional categorical eligibility groups. The first group, called the “Basic Coverage Group,” are individuals between the ages of 16 through 64 years and who, except for earned income, would be eligible to receive Supplemental Security Income (SSI) benefits. The second optional categorical eligibility group is called the “Medical Improvement Group.” This group covers individuals with a medically improved disability who lose their Medicaid eligibility under the “Basic Coverage Group” because their medical conditions have improved to the point where they are no longer disabled under the SSI definition.

### **STATUTORY AUTHORITY**

Laws 2001, Chapter 385 (A.R.S. § 36-2929 and 36-2950) created a new AHCCCS eligibility category for two groups of individuals: Individuals age 16 through 64 who meet SSI eligibility criteria and have an earned income below 250% FPL (1902(a)(10)(A)(ii)(XV) of the Social Security Act); and employed individuals with a medically improved disability and earned income below 250% FPL (1902(a)(10)(A)(ii)(XVI) of the Social Security Act). This program, known as Ticket to Work or Freedom to Work, was implemented on January 1, 2003.

### **METHODOLOGY**

As of June 2017 there were 2,523 members enrolled in Freedom to Work. By June 2018, enrollment had grown to 2,917, an increase of 15.62%. The projected enrollment for FY 2019 and FY 2020 is based on a 36-month regression analysis. The rebase resulted in projected June 2019 enrollment of 3,308 and a June 2020 total of 3,699. This is an increase of 13.40% and 11.82% for FY2019 and FY2020, respectively.

The previous totals include those eligible to receive physical and behavioral health care through Mercy Maricopa Integrated Care (MMIC) or the Greater Arizona RBHA integrated plans. As part of the AHCCCS behavioral health integration effort, as of June 1, 2017, 590 FTW members received physical and behavioral health care through Mercy Maricopa Integrated Care (MMIC) health plan and another 227 received physical and behavioral health care through the Greater Arizona RBHA (GrAZ) integrated plans. By June 2018, 617 members were receiving services through MMIC and another 234 members were receiving services through GrAZ. It is anticipated that by June 2019, a total of 868 TTW members will receive integrated behavioral health services through either MMIC or GrAZ and that by June 2020 this number will reach 886.

Acute Coverage - Acute members are eligible for regular capitation, behavioral health capitation, fee-for-service, reinsurance, and Medicare Part B premium coverage. For FY2020, AHCCCS is recommending a 2.5% increase to both prospective and prior period rates to account for utilization and inflationary increases.

FREEDOM TO WORK**

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

LTC Coverage – LTC members are eligible for regular, fee-for-service, reinsurance, and Medicare Part B premium coverage. The LTC capitation rate shown below is a loaded rate which includes reinsurance and fee-for-service.

Under AHCCCS Complete Care (ACC), a separate prior period capitation rate was not developed for CYE 19. Prior to this, rates had been set separately for prospective and prior period, with the prospective rate representing a weighted average of acute care only, prospective dual, and prospective non-dual. Effective October 1, 2018, the same rate will be paid for both prospective and prior period member months which will represent a weighted average of acute care only, prospective dual and non-dual, and prior period dual and non-dual. The FFS and reinsurance rates are based on SFY 2018 actual experience. The behavioral health rates are developed by the DHCM actuarial department. AHCCCS estimates a CYE 2020 capitation rate increase of 2.5% for all risk pools.

For more detail of rates used in the FY2019-FY2020 forecast, see Chart 1 below.

Freedom to Work members may be required to pay a monthly premium. The amount of the member’s premium is based on the individual’s net earned income. The premium amount can range from \$0 - \$35 and cannot exceed 2% of the member’s net earned income. The updated FMAP percentages that were used in the analysis are shown in the table below.

**TRADITIONAL MEDICAID SERVICES  
MEDICARE PART D CLAWBACK**

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**MEDICARE PART D “CLAWBACK” PAYMENTS**

**PROGRAM DESCRIPTION/BACKGROUND:**

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA) established the Medicare Part D prescription drug program, which provides prescription drug coverage to Medicaid recipients who are Medicare eligible (dual eligible members). The Medicare Part D prescription drug benefit resulted in a reduction to capitation rates and fee-for-service payments since Medicaid no longer pays prescription drug expenditures (with certain exceptions as defined in the AHCCCS Medical Policy Manual) for those who are eligible for the Part D benefit, but states have to reimburse the federal government for this savings according to a prescribed formula.

**METHODOLOGY:**

**CLAWBACK PMPM:**

In accordance with the law, calendar year 2003 is the base year for the development of the clawback payment. CMS used a combination of fee-for-service claim information and encounter data provided through MSIS and/or PMMIS to develop the 2003 base PMPM. The PMPM calculated for 2003 was then trended forward using the National Health Expenditure (NHE) inflation factor to 2006. CMS will only be billing one rate for all full benefit dual eligible members regardless of enrollment (Acute Care, Behavioral Health, ALTCS, and DDD) or eligibility (managed care or fee-for-service). The CMS rates used as the basis for the clawback payments are shown below.

**TRADITIONAL MEDICAID SERVICES  
MEDICARE PART D CLAWBACK**

**FISCAL YEAR 2020  
BUDGET JUSTIFICATION**

The following factors impact the PMPM paid by the state:

- The total fund PMPM is adjusted every calendar year in January. Beginning with CY 2009, the annual increases were based on Part D program data. In addition, CMS adjusts the annual percentage increase to reflect prior-year revisions to previous percentage increases, based on subsequent data and projections. As a result of this methodology, their benchmarking and recalculations of prior-year NHE data continue to have an impact on future state costs.
- Average growth in the PMPM going back to the program's inception is 2.07%. The annual increase for CY 2018 was 1.22%. The announced parameters that will guide the Calendar Year 2019 PMPM change reflect a projected increase of 1.93%. AHCCCS is using the projected PMPMs published by Federal Funds Information for States (FFIS) in Issue Brief 18-13 (April 5, 2018) as the basis for the CY 2019 PMPM and the CY 2020 PMPM.
- The State Match PMPM is calculated by taking the total fund PMPM multiplied by the state's Federal Matching Assistance Percentage (FMAP), which changes every October. For SFY 2019, the first quarter FMAP is 69.89%. Effective 10/1/18 it increases to 69.81%.
- It is assumed that the FMAP will increase from 69.81% in FFY 2019 to 69.48% in FFY 2020 based on Federal Funds Information for States (FFIS) in Issue Brief 18-11 (March 23, 2018).
- The percentage of estimated savings paid back to CMS has now stabilized at 75% beginning with Calendar Year 2015.

As a result of an initial invoicing lag when the program began in January 2006, the 12 payments made by the state each year are for the period of May through April, rather than the traditional July through June.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

TRADITIONAL MEDICAID SERVICES  
MEDICARE PART D CLAWBACK

PROGRAM DISTRIBUTION:

The total clawback payment, which is calculated by multiplying the number of dual eligible members by the applicable PMPM rates, is then distributed to the various AHCCCS and Pass-Through programs using the fixed percentages used to calculate the calendar year 2003 drug costs used in the calculation of the above rates. These percentages will remain constant over the life of the clawback payment and will not be impacted by changes to enrollment. The percentages are as follows:

|                |        |
|----------------|--------|
| AHCCCS Acute   | 46.14% |
| ALTCS-EPD      | 33.18% |
| ALTCS-DD (DES) | 3.53%  |
| DHS BHS        | 17.15% |

DUAL ELIGIBLE MEMBERSHIP:

AHCCCS is projecting full benefit dual eligible members using a 24 month regression for the total enrollment (current month and retro enrollment). The methodology results in projected annual year over year growth of 3.04% in SFY 2019 and 3.39% in SFY 2020. Using this methodology, AHCCCS is forecasting that the 165,502 full benefit dual members (billed for clawback) in June 2018 will grow to 170,526 by June 2019 and 176,313 by June 2020.

 MEDICARE PART D CLAWBACK

FISCAL YEAR 2020  
 BUDGET JUSTIFICATION

In FY 2020, AHCCCS will require additional resources for this state only expenditure. The Acute Care and BHS Clawback is all General Fund. The ALTCS Clawback payment is split between General Fund and County Funds.

**PROPOSED SOLUTION TO THE PROBLEM:**

For FY20, AHCCCS requests an increase of \$4,461,700 General Fund to the Acute Care Clawback line item for these federally mandated payments. Within the ALTCS Clawback line item, AHCCCS requests a state match increase of \$2,158,000 consisting of a General Fund increase of \$1,570,700 and a County Fund increase of \$587,300. For the BHS Clawback line, AHCCCS requests an increase of \$1,243,100.

**Performance Measures to quantify the success of the solution:**

- AHCCCS member enrollment in Newly Eligible Adults.
- Maintain the % of overall Health Plan compliance with key indicators at  $\geq 99\%$ .

**STATUTORY AUTHORITY:**

Section 103(f), Medicare Prescription Drug, Improvement, and Modernization Act (MMA) of 2003 (P.L. 108-173)  
Social Security Act, Section 1935(42 U.S.C. 1396u-5)

## DISPROPORTIONATE SHARE HOSPITAL PAYMENTS

### Description of the problem:

Arizona first established a Disproportionate Share Hospital (DSH) payment program in SFY 1992. DSH is designed to aid hospitals that serve a disproportionate number of low-income patients. The Federal basis for payments is either a reflection of a hospital's number of Title XIX inpatient days or a "low-income" patient's utilization rate. States may also establish optional payment categories. In addition to the two federally mandated groups, Arizona has established two optional groups, one for certain acute care general hospitals and one for state and county hospitals.

Section 1923 of the Social Security Act specifies the minimum standards for determining which hospitals qualify for DSH; hospitals whose mean Medicaid Utilization rate exceeds the states mean Medicaid Utilization rate plus one standard deviation or hospitals whose Low Income Utilization rate is more than 25%. Beginning in FFY 1996, the Omnibus Budget Reconciliation Act of 1993 (OBRA) added the requirement that a hospital must have a Medicaid Utilization rate of at least one percent in order to be eligible for DSH.

States are allowed to establish DSH criteria, which differ from the Federal requirements, provided that these criteria are at least as generous as Federal standards. Arizona uses state-specific criteria as allowed by law to distinguish between public and private hospitals and to create additional private hospital groups. Each year, the pool of funds established for DSH is apportioned to hospitals that qualify either under the Federal criteria or under the State criteria based on relative weighting.

Beginning in FFY 1993, OBRA established rules limiting the total DSH payment that a hospital can receive. DSH payments may be no more than the cost of providing hospital services to patients who are either eligible for medical assistance under a state plan or have no health insurance for the services provided, less payments received under Title XIX (other than DSH payment adjustments). The limits went into effect in FFY 1995 for public hospitals, but it was applied to both public and private hospitals as of FFY 1996.

The Balanced Budget Act of 1997 (BBA) capped the DSH payment at specified amounts for each state for each of the FFYs 1998 through 2002. For most states, those specified amounts declined over the 5-year period. In addition, BBA allowed state's DSH allotment for FFY 2003 and subsequent years to be equal to its allotment for the previous year increased by the percentage change in the consumer price index for urban consumers (CPI-U) from the previous year.

The Benefits Improvement and Protection Act of 2000 (BIPA) provided states with a temporary reprieve from the declining allotments by raising allotments for FFY 2001 and 2002. It also clarified that the FFY 2003 allotments are to be calculated using the lower, pre-BIPA levels for FFY 2002.

BUDGET JUSTIFICATION

**PAYMENTS TO HOSPITALS  
DISPROPORTIONATE SHARE**

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA) provided for a “Special, Temporary Increase in Allotments On A One-time Non-Cumulative Basis.” Specifically, the FFY 2004 DSH allotments were calculated as 116 percent of the States’ FFY 2003 DSH allotments. Thereafter, allotments will stay at the FFY 2004 level until the year in which the allotments, as calculated under BIPA, catch-up with the FFY 2004 allotments. For Arizona, the catch-up occurred with the FFY 2009 allotment, which was increased by 4.0% over the FFY 2008 allotment. The American Recovery and Reinvestment Act of 2009 provided a temporary 2.5% increase to the DSH allotments for FFY 2009 and FFY 2010. Note that in each year, the additional ARRA allotment is not available until the full regular allotment has been exhausted.

The Affordable Care Act of 2010 (ACA) mandates reductions to the DSH allotments beginning in FFY 2014 with an aggregate national reduction of \$500,000,000. The ACA outlines requirements for a reduction methodology that imposes the largest percentage reduction on states with the lowest percentage of uninsured individuals and states that do not target their DSH payments on hospitals with high volume of Medicaid inpatients and/or high levels of uncompensated care. Additionally, the requirements state that the methodology must take into account the extent to which the DSH allotment for a State is included in a budget neutrality calculation for coverage expansion under a 1115 waiver as of July 31, 2009 (Arizona did have such a waiver which incorporated the DSH allotment into the with waiver budget neutrality limit).

The Protecting Access to Medicare Act (P.L. 113-93), signed on April 1, 2014, delayed the DSH reductions until FY 2017, modified cuts in future years, and extends the reduction to FY 2024. Under the new law, the FY 2017 aggregate national reduction will be \$1.8 billion.

The Medicare Access and CHIP Reauthorization Act (P.L. 114-10) delayed the DSH reductions until FY 2018 and modified reductions.

The Balanced Budget Act of 2018 (P.L. 115-123) delayed reductions until FY 2020 and further modified reductions as shown in the following table.

|         |                     |
|---------|---------------------|

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

( )

Preliminary 2018 Estimates for National Allotment and Arizona Allotment from Preliminary Allocation were provided by CMS in July 2018.<sup>1</sup> AHCCCS is projecting the FFY 2020 allotment for Arizona will be reduced by 12.2% from the FFY 2017 base allotment based on the proportional reduction to the national allotment of \$4.0 billion in FFY 2020. This reflects a 5.4% reduction to the FFY 2019 estimated allotment.

The table below shows the actual and projected Arizona DSH allotment for the past ten years:

| FFY         | Arizona<br>Base Allotment | Adjustment   | Arizona<br>Total Allotment | Variance from<br>FFY 2017 |
|-------------|---------------------------|--------------|----------------------------|---------------------------|
| 2011 Actual | 101,258,300               |              | 101,258,300                | -8.9%                     |
| 2012 Actual | 103,891,000               |              | 103,891,000                | -6.5%                     |

| 2019 Est    | 116,369,307               | -            | 116,369,307                | 4.7%                      |
| 2020 Est    | 118,992,504               | (21,417,438) | 97,575,066                 | -12.2%                    |

**Proposed solution to the problem and impact:**

**Appropriated/Private DSH**

- The SFY 2019 appropriation for DSH of \$5,087,100 Total Fund (\$267,100 General Fund) includes funding for the following:
  - Maricopa Integrated Health Systems (MIHS) - \$4,202,300 Total Fund (\$0 General Fund)

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**PAYMENTS TO HOSPITALS  
DISPROPORTIONATE SHARE**

- Private Hospitals - \$884,800 Total Fund (\$267,100 General Fund)
- These same total fund amounts are carried forward for SFY 2020. Due to the change in FMAP for FFY 2020, the General Fund portion of the private hospital appropriation is increased by \$2,900 to \$270,000.

**Non-Appropriated Arizona State Hospitals (ASH)**

- Laws 2018, Chapter 284, Section 12, includes a FY 2019 expenditure plan for the Arizona State Hospital of \$28,474,900 Total Fund (\$8,596,600 SM provided via CPE). This amount was based on the historic Federal IMD limit. AHCCCS estimates this same total fund amount will continue in FY 2020. Due to the change in FMAP for FFY 2020, the state match portion of the ASH appropriation is increased by \$93,900 to \$8,690,500. The state retains the federal match drawn down for ASH, which is deposited in the General Fund. Due to the change in FMAP, this amount decreases by \$93,900, from \$19,878,300 to \$19,784,400.

**Non-Appropriated Maricopa Integrated Health Systems (MIHS)**

- Laws 2018, Chapter 284, Section 12, includes a FY 2019 expenditure plan for the Maricopa Integrated Health Systems of \$109,616,200 Total Fund (\$34,361,200 SM provided via CPE). Due to the reduction in federal DSH allotment in FFY 2020, AHCCCS estimates that the maximum amount available for MIHS in FY 2020 will be \$106,874,100 (SM of \$33,900,500). This change will reduce the federal match available for deposit in the General Fund from \$99,952,700 in FY 2019 to \$97,575,100 in FY 2020. This assumes that Maricopa will retain the \$4,202,300 historically appropriated.

**Pool 5 Local Funded**

- The FY 2019 appropriation included \$21,705,900 TF (\$6,553,000 SM provided by Arizona political subdivisions through IGTs). This category is funded through voluntary contributions by the counties. Based on the projected reduction in federal DSH allotment, AHCCCS does not believe there will be funding available for this line item in FY 2020. Because these amounts are dependent upon local funding interest and subject to change based on the final MIHS and ASH OBRA limits; AHCCCS requests continuation of the footnote which allows for the appropriation to be increased if funding available is in excess of the originally appropriated levels.

The changes to ASH and MIHS result in a net decrease to federal monies deposited to the General Fund of \$2,377,600.

**Other Notes**

- DSH payments are subject to the CMS two year claiming rule, therefore, DSH may be made up to 2 years after the end of the fiscal year. For example, FFY 2017 DSH payments may be made through 9/30/19.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**PAYMENTS TO HOSPITALS  
DISPROPORTIONATE SHARE**

- DSH payments are subject to reconciliation. Original DSH payments are calculated using 2-year prior uncompensated care data and are subject to reconciliation once the final OBRA limits are fully calculated. If a hospital is over its OBRA limit, they are required to pay back any amount exceeding the OBRA. If actual data shows that a hospital was eligible, they may receive up to a \$5,000 payment.

| Federal Allotment <sup>8</sup>           | 113,803,939 | 116,369,300 | 116,369,300 | 97,575,100 |
| Federal Allotment Variance <sup>9</sup>  | -           | -           | -           | -          |
| Additional TF DSH Available <sup>5</sup> | 21,276,800  | -           | -           | -          |

Notes:

- 1) State match for appropriated private hospital DSH is General Fund. State Match for ASH and MIHS payments are Certified Public Expenditures. State Match for the Pool 5 private DSH is voluntary political subdivision contributions.
- 2) The maximum available for ASH is the lower of the actual OBRA limit or the Federal IMD limit of \$28,474,900.
- 3) DSH is claimed at the regular Federal Fiscal Year FMAP (69.89% in FFY18; 69.81% in FFY19; 69.48% in FFY20)
- 4) FY18 Actual Expenditures include planned administrative adjustments and do not include prior year reconciliations, therefore, do not tie to AFIS for FY18. Additionally, the SM for ASH and MIHS is CPE and therefore does not flow through AFIS.
- 5) FY19 Appropriation based on Laws 2018, Chapter 284, Section 12.
- 6) Pool 5 Local Funded DSH amounts in FY19 were based on the difference between the total Arizona DSH allotment and all other expenditures. Assumes Arizona will maximize DSH allotment by allowing local entities to provide state match for DSH payments that have been reduced by budget reductions and/or OBRA limit reductions. This amount is subject to change based on changes to the ASH and MIHS OBRA limits.
- 7) FY20 Request maintains funding for Private Hospitals, MIHS \$4.2M, and ASH. Remainder allocated to MIHS Non-Approp.
- 8) FFY18 DSH Allotment is preliminary from CMS.  
FFY20 DSH Allotment assumes AZ experiences same proportional reduction in FFY20 as FFY19 if a reduction had occurred in FFY19.
- 9) Federal allotment for any given year cannot be exceeded, however, expenditures for a given State Fiscal Year can cross several DSH allotment years.

**PAYMENTS TO HOSPITALS**

FISCAL YEAR 2020

**GRADUATE MEDICAL EDUCATION**

BUDGET JUSTIFICATION

**GRADUATE MEDICAL EDUCATION**

**PROGRAM DESCRIPTION/BACKGROUND:**

The purpose of the Graduate Medical Education (GME) program is to provide teaching hospitals, which have graduate medical education programs, with the additional funding needed in order to compensate for the high operating costs associated with the program. One of the major contributing factors to the increases in healthcare cost in recent years has been related to the shortage of qualified medical professionals in the state, particularly in rural areas. It is imperative to have a large pool of physicians and medical professionals in order to provide Arizonans with quality healthcare services.

Laws 2006, Chapter 331, Section 8 amended ARS §36-2903.01, Subsection H.9 by adding Subsections H.9 (b), (c), (d) and (e). Subsection (b) requires, beginning July 1, 2006, AHCCCS to expand the GME program to support the direct costs associated with new or expansion programs. Prior to this expansion, GME payments were made only to the hospitals which had GME programs approved by AHCCCS on or before October 1, 1999.

Laws 2007, Chapter 263, Section 9 further amended ARS §36-2903.01, Subsection H.9 by adding Subsection (c), which requires AHCCCS to reimburse additional indirect GME costs for programs that are located in a county with less than 500,000 residents. It also added Subsection (f), which contains an optional provision that allows local, county and tribal governments to provide the non-federal monies for GME in a specific locality or at a specific hospital in order to qualify for additional matching federal monies.

**GENERAL FUND APPROPRIATED GME PAYMENTS:**

As a result of budget reductions made during the Great Recession, no General Fund GME expenditures have been made since FY 2009. In FY2010, AHCCCS was originally appropriated \$14,470,700 General Fund for direct and indirect GME payments. However, that appropriation was eliminated prior to any payments being made.

**LOCALLY FUNDED GME PAYMENTS:**

A.R.S. § 36-2903.01(H)(9)(f) states that local, county and tribal governments (“local governments”) may provide monies in addition to any state general fund monies appropriated for graduate medical education in order to qualify for additional matching federal monies. Section 10201(c)(6) of the Affordable Care Act (ACA) clarified that voluntary contributions by political subdivisions do not violate the political subdivision maintenance of effort provisions of the American Recovery and Reinvestment Act of 2009 or the ACA maintenance of effort provisions.

Since FY 2009, all GME payments have been made with the state match completely funded by voluntary local contributions.

**PAYMENTS TO HOSPITALS**

FISCAL YEAR 2020

**GRADUATE MEDICAL EDUCATION**

BUDGET JUSTIFICATION

In FY 2018, fourteen hospitals received GME payments totaling \$272,269,500 TF (\$84,195,900 State Match). These payments were a combination of GME Year 2016 and GME Year 2017 payments. The state has a two year window to claim GME payments. Payments for St. Joseph's Hospital and Phoenix Children's Hospital were for GME Year 2016; all the other payments were for GME Year 2017.

The FY19 rebase includes the GME Year 2018 spending plan plus the remaining GME Year 2017 payments, for a projected total of \$375,773,400 Total Fund (\$114,222,300 State Match) with 17 total hospitals that have expressed interest in participating. The final amounts will depend on how much state match the local government partners are willing to contribute. All GME payments and the associated intergovernmental agreements must be reviewed and approved by the Centers for Medicare and Medicaid Services prior to payment, which lengthens the process considerably.

CMS has indicated that the FMAP for GME payments shall be a blended FMAP associated with the GME Year, which is based on a State Fiscal Year. Since there is normally at least a one year lag in payments, the FY 2020 request is based on the blended FMAP for SFY 2019 of 69.83% (25% at the FFY 2018 FMAP of 69.89% and 75% at the FFY 2019 FMAP of 69.81%).

Voluntary GME payments were appropriated for the first time in SFY 2013. In SFY 2019, the appropriation is \$274,684,900 Total Fund (\$83,154,000 State Match). Current language in the feed bill allows AHCCCS to increase the appropriation for these voluntary supplemental hospital payments if the funding from political subdivisions is available and CMS approval is granted.

For the budget submittal, the FY 2020 request is based on the GME Year 2018 spending plan amount of \$293,607,800 Total Fund (\$88,581,500 State Match). AHCCCS and CMS are continuing to negotiate on the methodology for indirect GME. AHCCCS requests that the feed bill footnote language continue to be included for GME in FY 2020 to provide flexibility in the event more funding becomes available and CMS approves additional expenditures.

See the attached table for projected expenditures by hospital, fund, and GME year.

Notes:

- 1) The FY 2018 Actual payments include payments associated with GME years 2016 and 2017.
- 2) The FY 2019 Rebase includes the remainder of the 2017 GME plan and the 2018 GME plan.
- 3) The FY 2020 Request is based on the 2018 GME plan.
- 4) Actual GME amounts for FY 2019 and FY 2020 will vary depending on local funding availability and CMS approval.
- 5) GME is paid based on a blended FMAP for the SFY of the GME year. For example, the FY 2020 amount will be based on the blended SFY 2019 FMAP.

**RURAL HOSPITALS APPROPRIATION  
CRITICAL ACCESS HOSPITALS**

FISCAL YEAR 2019  
BUDGET JUSTIFICATION

**CRITICAL ACCESS HOSPITALS**

**PROGRAM DESCRIPTION/BACKGROUND:**

U.S. Congress enacted the Balanced Budget Act of 1997 which established the Medicare Rural Hospital Flexibility (Flex) Program in an attempt to prevent further closures of rural hospitals due to financial insolvency. In Arizona, the Rural Health Office (RHO) at the University of Arizona is the recipient of the Flex Program funding, and has worked with all eligible hospitals to educate them about the Critical Access Hospital designation by Medicare and to help them obtain the designation.

To be designated as a critical access hospital, a facility must (1) be located in a rural area; (2) be located more than 35 miles from a hospital or another health care facility; or (3) be certified by the State as being a necessary provider of health care services to residents in the area. In addition, the facility must meet other requirements such as number of beds for Medicare patient services, average annual patient length of stay, 24 hour per day provision of emergency medical services, and referral tertiary hospital.

The Critical Access Hospitals (CAHs) Program in Arizona is designed to provide supplemental payments to in-state CAHs over and above regular AHCCCS reimbursement for their Medicaid patient services. Laws 2001, Chapter 385 included an appropriation for CAHs for the first time, and in November 2001, Wickenburg Regional Hospital became the first Arizona hospital to be successfully designated as a CAH by Medicare.

As of August 2017, there are ten Arizona hospitals that have acquired CAH designations by Medicare and are receiving CAH payments from AHCCCS. They include: Wickenburg Regional Hospital, Benson Hospital, Northern Cochise Community Hospital, Page Hospital, Little Colorado Medical Center, Copper Queen Hospital, Holy Cross Hospital, Cobre Valley Community Hospital, White Mountain Regional Medical Center, and La Paz Regional Hospital. An eleventh hospital, Cochise Regional Hospital (Southeast Arizona Medical Center), closed in July 2015; however, they were eligible for very small payments in SFY 2017.

Laws 2015, Chapter 14, Section 4 amended A.R.S. § 36-2903.01 by adding subsection U which allows voluntary political subdivisions, tribal governments, and universities the option of providing state matching funds in order to qualify for additional federal funding for the CAH program. To date, no entities have come forward to provide state matching funds.

**PAYMENT METHOD:**

DATE PREPARED

08/24/18

FISCAL YEAR 2019  
BUDGET JUSTIFICATION

RURAL HOSPITALS APPROPRIATION  
CRITICAL ACCESS HOSPITALS

During a given State Fiscal Year, CAH payments are made in two semi-annual payments using the current Federal Fiscal Year FMAP (prior to SFY 2010 CAH payments were made quarterly).

Supplemental payments shall be made based on each CAH designated hospital's percentage of total inpatient and outpatient Title XIX reimbursement paid (relative to other CAH designated hospitals) for the time period from July 1 through June 30 of each year.

AHCCCS allocates the amount available through legislative appropriation in the following manner:

- (1) Gather all adjudicated claims/encounters with dates of service from July 1 through June 30 of the prior year for each CAH designated hospital.
- (2) Sum the AHCCCS payments for inpatient and outpatient services for the year to establish a hospital-specific paid amount.
- (3) Total all AHCCCS payments for inpatient and outpatient services for the year to establish a total paid amount.
- (4) Divide the hospital paid amount by the total paid amount to establish the hospital's utilization percentage.
- (5) Divide the hospital's utilization percentage by the sum of all CAH hospital's utilization percentages for the month and multiply that figure by the monthly sum of the CAH hospital months divided by the annual sum of the CAH hospital months to establish the monthly relative utilization.
- (6) Multiply the monthly relative utilization by the annual CAH dollars to establish each hospital's monthly allocation.

Funding is distributed based on the number of CAH designated hospitals in each month and their Medicaid utilization. Because there may be a different number of CAH designated hospitals each month, the hospital-specific weightings and payments may fluctuate from month to month. The calculations are computed monthly and the distributions of the CAH dollars to the CAH designated hospitals are made twice a year.

**APPROPRIATION HISTORY:**

From the program's inception in FY 2003 through FY 2014, the annual appropriation was \$1,700,000. In FY 2015, the appropriation was increased to \$10,491,900. In FY 2019, the appropriation was increased to \$16,454,300.

**Notes:**

- 1) Winslow Memorial Hospital changed its name to Little Colorado Medical Center on 8/7/07.
- 2) Southeast Arizona Medical Center changed its name to Cochise Regional Hospital in 2014. They closed in July 2015; however, as they were open for one month in SFY 2016, they were eligible for a small payment in SFY 2017.
- 3) Sage Memorial Hospital gave up CAH designation after FY10 in order to qualify as an IHS Public Law 93-638 facility and be eligible to receive the IHS all-inclusive rate for medical services provided.
- 4) Critical Access Hospital payments are made twice per year in equal installments.

**STATUTORY AUTHORITY:**

42 CFR 485, Subpart F  
A.R.S. § 36-2903.01(U) – Laws 2015, Chapter 14, Section 4  
Arizona Section 1115 Research and Demonstration Waivers (CNOM #8) (December 15, 2014 Amendment)

**ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM  
STATE FISCAL YEAR 2020 BUDGET  
CRITICAL ACCESS HOSPITAL PROGRAM**

| Federal Funds | 7,332,789        | 11,484,800              | 11,486,700       | 11,432,500        | (52,300)                      |
| Total Funds   | 10,491,900       | 16,454,300              | 16,454,300       | 16,454,300        | -                             |
| FMAP          | 69.89%           | 69.80%                  | 69.81%           | 69.48%            |                               |

Notes:

- 1) Critical Access Hospital payments are made twice per year.
- 2) FY2019 FMAP of 69.81% is assumed to decrease to 69.48% in FY2020.
- 3) FY2018 actual may not tie to AFIS actual due to timing of fund source adjustments.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

RURAL HOSPITALS APPROPRIATION  
RURAL HOSPITAL REIMBURSEMENT

**RURAL HOSPITAL REIMBURSEMENT**

**PROGRAM DESCRIPTION/BACKGROUND:**

Rural hospitals are a critical element of the AHCCCS provider network. In many areas of the state there is only one hospital available. As the AHCCCS population has expanded, Medicaid has become a primary payer in some of these areas. Due to smaller patient populations compared to urban hospitals along with competition for physicians, nurses, and other medical personnel, rural hospitals are required to spread costs over a smaller revenue base.

Pursuant to Laws 2001, Chapter 344, Section 109, AHCCCS and the Arizona Hospital Association conducted an inpatient hospital reimbursement study. One of the major findings from that study was that AHCCCS "payments overall cover 94% of hospitals' costs for serving AHCCCS members." However, there were some significant variances in the payments by peer groups, and AHCCCS reimbursed just 57% of the costs for hospitals with fewer than 75 beds. The workgroup concluded that "small rural hospitals face unique fiscal challenges that need to be addressed either through the AHCCCS tier rates, outside the rates but funded through AHCCCS, or outside AHCCCS altogether."

A.R.S. §36-2905.02 authorizes AHCCCS to distribute supplemental payments for inpatient hospital services provided by qualifying rural hospitals based on utilization or adjusted tier rates. To qualify for this supplemental payment, the facility must be either (1) an acute care hospital that is not an Indian Health Services (IHS) hospital or a tribally owned and operated facility with 100 or fewer beds and located in a county with a population of less than 500,000; or (2) licensed as a critical access hospital.

This supplemental payment would be in addition to the payments made by AHCCCS or the health plans and would not be tied to the requirements for Critical Access Hospital (CAH) designation. The Centers for Medicare and Medicaid Services (CMS) did not approve the proposed methodology of making supplemental hospital payments directly to the rural hospitals, therefore, the payments are made via capitation to the AHCCCS Health Plans which then reimburse the hospitals. This one-time payment is made towards the end of the fiscal year, therefore the federal fiscal year FMAP rate is used to calculate the requested amount of General Fund.

**STATUTORY AUTHORITY:**

A.R.S. § 36-2905.02

**APPROPRIATION:**

Since inception in SFY 2006, the Rural Hospital Reimbursement total fund appropriation has been \$12,158,100.

Notes:

- 1) Winslow Memorial Hospital changed its name to Little Colorado Medical Center in August 2007
- 2) Southeast Arizona Medical Center changed its name to Cochise Regional Hospital in 2014 and closed in July 2015. They remained eligible for a small Rural Hospital payment in SFY 2017.
- 3) Sierra Vista Regional Health Center changed its name to Canyon Vista Medical Center in April 2015

| FMAP          | 69.89%           | 69.83%                  | 69.81%           | 69.48%            |                               |

Notes:

- 1) Rural Hospital payments are made once per year.
- 2) FY2019 FMAP of 69.81% is assumed to decrease to 69.48% in FY2020.
- 3) FY2018 actual may not tie to AFIS actual due to timing of fund source adjustments.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**PAYMENTS TO HOSPITALS**  
**SAFETY NET CARE POOL**

**SAFETY NET CARE POOL**

**PROGRAM DESCRIPTION/BACKGROUND:**

Laws 2011, Chapter 234, Section 2 granted AHCCCS the authority to pursue a hospital funding pool using monies from political subdivisions to draw down federal matching dollars. The Safety Net Care Pool (SNCP) was open to all Arizona hospitals, including rural hospitals, safety net hospitals and hospitals receiving Disproportionate Share Hospital (DSH) payments. The nonfederal match must be provided by a political subdivision. This program gave local governments, like counties, cities or special healthcare districts, the ability to directly support hospital systems in their communities. The funding is distributed to participating hospitals to help defray the costs of uncompensated care provided to AHCCCS members and the uninsured.

On April 6, 2012, The Centers for Medicare and Medicaid Services (CMS) approved the original SNCP waiver (hereafter referred to as SNCP 1) that provided Arizona with the authority to claim \$332 million Total Fund per year for nine quarters. Originally, there were three participating hospitals/health networks associated with SNCP 1: Maricopa Integrated Health Systems, Phoenix Children’s Hospital and the University of Arizona Health Network. Southeast Arizona Medical Center, White Mountain Regional Medical Center, Copper Queen Hospital, Cobre Valley Regional Medical Center, La Paz Regional Hospital, Benson Hospital, and Northern Cochise Hospital were later added to the SNCP 1 participants.

On April 17, 2013, CMS approved Arizona’s 1115 Waiver amendment request that allowed AHCCCS to match provider assessment monies collected by the City of Phoenix for the purposes of a City of Phoenix Hospital SNCP pool (hereafter referred to as COP). This amendment provides Arizona with the authority to claim up to \$385 million Total Fund per year for a period of 5 quarters. The participating providers in the COP SNCP are: Banner Estrella Medical Center, Banner Good Samaritan Medical Center, John C Lincoln-Deer Valley Hospital, John C Lincoln North Mountain Hospital, Maryvale Hospital, Paradise Valley Hospital, Phoenix Baptist Hospital, Phoenix Children’s Hospital (note that with the approval of the City of Phoenix SNCP, Phoenix Children’s Hospital’s participation in the SNCP 1 pool was reduced, which made it possible for the other participants listed above to join), St. Joseph’s Hospital, and St. Luke’s Medical Center.

As a condition of approval of the SNCP 1, CMS required a portion of the funding provided by the political subdivisions to go toward some expanded coverage option. The SNCP 1 proposal used state match to reopen the KidsCare program which had been frozen since January 2010. This program, known as KidsCare II expired on January 31, 2014. The COP proposal expanded KidsCare II to cover additional children and also included a coverage option for parents whose children aged out of SOBRA and were not eligible for the childless adults program due to the existing freeze.

Laws 2013, 1st Special Session, Chapter 10, Section 15 authorizes SNCP for PCH (freestanding children’s hospitals) through December 31, 2017.

**SAFETY NET CARE POOL**

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

On December 26, 2013, CMS approved Arizona's 1115 Waiver amendment request that allows AHCCCS to continue SNCP funding for Phoenix Children's Hospital through December 31, 2014, with a maximum annual amount of \$137,000,000. On December 25, 2014, CMS approved Arizona's 1115 Waiver amendment request that allows AHCCCS to continue SNCP funding for Phoenix Children's Hospital through December 31, 2015, with a maximum annual amount of \$137,000,000. The current Waiver authorized SNCP funding for Phoenix Children's Hospital through December 31, 2017, with a maximum annual amounts of \$110,000,000 for Calendar Year 2016 and \$90,000,000 for Calendar Year 2017.

**ACTUAL EXPERIENCE**

Through FY 2017, a total of \$1,370,369,900 has been paid out to Arizona hospitals through the SNCP program.

**PROJECTED PAYMENTS**

The SNCP payment amounts will not be finalized until the hospitals submit cost data which will be run through the SCNP payment protocols as outlined in the Waiver – Attachment E. Like DSH payments, SNCP payments are subject to OBRA limits and subject to reconciliation with final hospital cost data. However, if the amount paid for SNCP exceeds the OBRA limit for the year, the hospital will be required to return the money. AHCCCS will then return the state match to the partner and the federal match to the federal government.

SNCP payments are matched at the FMAP in effect during the dates the services are provided, not the date the payment is made. No allotment was provided for SNCP in FY2019, and the program has been discontinued. No request is made for FY2020

**STATUTORY AUTHORITY:**

Laws 2011, Chapter 234, Section 2  
Laws 2013, 1st Special Session, Chapter 10, Section 15  
Arizona Section 1115 Medicaid Demonstration Waiver, Special Terms and Conditions #32 – Attachment E (1/18/17 Version)

## **TARGETED INVESTMENTS PROGRAM**

### **PROGRAM DESCRIPTION/BACKGROUND**

#### Overview

AHCCCS is engaged in a number of initiatives to modernize and transform the health care delivery system in Arizona. Together, these projects are critical components of the agency's strategy to reach the following goals:

- Bending the cost curve while improving member's health outcomes.
- Pursuing continuous quality improvement.
- Reducing fragmentation in health care delivery to develop an integrated system of healthcare.
- Maintaining core organizational capacity, infrastructure, and workforce.

On January 18, 2017, the Centers for Medicare and Medicaid Services (CMS) approved Arizona's request to implement the Targeted Investments (TI) program, formerly known as the Delivery System Reform Incentive Payments (DSRIP) program, to support the state's ongoing efforts to integrate the health care delivery system for AHCCCS members. The project provides funding for focused, time-limited projects aimed at building necessary infrastructure to improve multi-agency, multi-provider care delivery for the following populations<sup>1, 2</sup>:

- Children with behavioral health needs, including children with or at risk for Autism Spectrum Disorder (ASD), and children engaged in the child welfare system.
- Adults with behavioral health needs.
- Individuals transitioning from incarceration who are AHCCCS-eligible.

These projects will improve care coordination and care management for AHCCCS members by providing infrastructure investments and incentives for providers to establish systems and processes that support the integration of physical and behavioral health care.

<sup>1</sup> AHCCCS Targeted Investments Program Portal: <https://www.azahcccs.gov/PlansProviders/TargetedInvestments/>

<sup>2</sup> AHCCCS Targeted Investments Program FAQ: <https://www.azahcccs.gov/PlansProviders/Downloads/TI/FAQ.pdf>

### Implementation

The TI program will provide financial incentives to participating AHCCCS registered providers to develop clinical processes for integrated care. Specifically, participants will receive incentive payments for increasing physical and behavioral health care integration and coordination for individuals with behavioral health needs. The TI program aims to reduce fragmentation that commonly occurs between acute care and behavioral health care, increase efficiencies in service delivery for members with behavioral health needs and improve health outcomes for the affected populations.

Eligible participants include primary care providers, behavioral health providers, Integrated Clinics and acute and psychiatric hospitals contracted with AHCCCS managed care organizations (MCOs) to provide care to AHCCCS managed care members.

AHCCCS will direct payment of the financial incentives on an annual basis to participating eligible primary care, behavioral health and hospital providers based on requirements that vary over the five years of the TI program. For Year 1 (Year ending September 30, 2017) TI participants will receive payment following acceptance into the program. For the next two years of the TI program, participants are required to implement TI project “Core Components”, which are systems and resources that help to further integrate physical health and behavioral health services. Each Core Component has associated “Milestones”, which TI participants must meet to receive incentive payments. For the final two years, TI participating providers must meet quality performance metrics from an AHCCCS-defined clinical performance measure set to earn incentive payments

### Funding

CMS will provide federal Medicaid Title XIX funds to support TI program payments and state matching funds will be provided by Intergovernmental Transfers (IGTs) and Designated State Health Programs (DSHPs). Total program funding is \$300 million over five years.

IGTs are transfers of funds from political subdivisions, tribal governments, universities, or other designated public entities that are used to leverage federal Medicaid matching funds. DSHPs are a financing mechanism allowed by CMS for select waiver initiatives, including TI, wherein Arizona identifies state-only spending on qualifying health care programs, claims a certified public expenditure (CPE), and receives federal funds based on total computable expenditures. There are no changes required to the state-only expenditures and utilizing those programs as a DSHP source does not affect the level of spending for those programs. Expenditures of County Intergovernmental Agreement (IGA) funds for Services to Individuals with a Serious Mental Illness (SMI) have been identified for this purpose. Both funding from IGTs and DSHPs are deposited into the DSRIP Fund, which was created in FY 2017 and continuously appropriated for this purpose.<sup>3</sup>

<sup>3</sup> [Laws 2016, Chapter 122 \(HB2704\)](#)

Expenditures from the DSRIP Fund are matched with additional federal Medicaid dollars to support TI payments to providers (see Table A on the following page). CMS has approved a five year plan for time-limited, one-time strategic investments for each of the focus areas identified above. The expenditures are eligible to receive the regular FMAP and will be separately tracked by AHCCCS and reported to CMS. These additional funding amounts do not have a State General Fund impact, do not affect existing payments for services, and will not become a part of ongoing programmatic expenditures. CMS has also approved up to 5% of TI funding to be used for administrative purposes to implement the program. Managed care organization administrative activities and tax liabilities associated with the program will be funded from this allocation.

The payments approved by CMS for FFY 2017 through FFY 2021 will occur in SFY 2018 through SFY 2022. For example, the FFY 2017 amounts will be paid in SFY 2018 and the FFY 2018 amounts will be paid in SFY 2019. In future years, when quality metrics must be met, the payments may lag even further behind. CMS has indicated that the two year claiming window applies to these expenditures.

Notes:

1. DSRIP Fund is non-appropriated and includes federal funds deposited as CPEs for DSHP and IGT funds.
2. Plan approved by CMS on January 18, 2017. FFY18 Amount will pay in SFY19. FFY19 Amount will pay in SFY20.
3. Funding includes both programmatic and administrative components.
4. In FY18 the federal share was transferred into the DSRIP fund for expenditures. In FY19 and FY20, the federal share is shown separately.

FISCAL YEAR 2020

BUDGET JUSTIFICATION

**ACUTE CARE PASS-THROUGH**

**ACUTE CARE PASS-THROUGHS**

The Traditional Acute Care and Newly Eligible Adults pass-through cost center includes a variety of programs that flow through the AHCCCS financial system, but are not part of the AHCCCS appropriated budget. Expenditures in these areas are expected to remain consistent with the FY18 actual expenditures.

**TRAUMA CENTERS – PASS-THROUGH**

The Trauma and Emergency Services Fund was established pursuant to A.R.S. § 36-2903.07. Monies are received from the Arizona Benefits Fund consisting of tribal gaming revenues paid to the State as a result of Proposition 202. The Trauma and Emergency Services fund receives 28% of the remaining funds after portions are taken out for the Department of Gaming administrative and regulatory expenses and problem gambling. AHCCCS receives the funds and they are then passed through to hospitals to be used to reimburse Arizona hospitals for un-recovered trauma center readiness costs and un-recovered emergency services costs. AHCCCS estimates expenditures for these programs based on past trend and input from the Department of Gaming.

**DEPARTMENT OF CORRECTIONS/COUNTIES – PASS-THROUGH**

Through intergovernmental agreements, AHCCCS processes claims for Title XIX and non-Title XIX Arizona Department of Corrections Inmates, and Arizona County Inmates. The state dollars are received by AHCCCS through the IGA/ISA fund (2500) and are paid directly to providers. This arrangement is in support of the Governor's Efficiency Review initiative. AHCCCS estimates expenditures for these programs based on past trend and input from the Department of Corrections.

**OTHER ACUTE CARE PASS-THROUGHS**

Other Acute care pass-through items include:

- 1) The transfer of Medically Needy Account monies to DHS.
- 2) The distribution of Third Party recoveries to the Federal government, health plans, the Third Party Liability contractor, and other fees. The amounts for FY 2019 and FY 2020 were developed by the AHCCCS TPL unit.
- 3) The transfer of funds to DHS for the ASIIS Immunization Registry.
- 4) The transfer of ARRA Health Information Technology grants to eligible hospitals and providers.

FISCAL YEAR 2020

ADMINISTRATION JUSTIFICATION

P204 AHCCCS ADMINISTRATION

**DES PROPOSITION 204 AHCCCS ADMINISTRATION**

**BUDGET JUSTIFICATION**

Proposition 204 expanded AHCCCS coverage up to 100% FPL. This appropriation contains funding for pass-through administration costs, in DES, of the Proposition 204 program. This funding primarily represents eligibility services provided by DES.

The FY 2019 appropriation is \$44,358,700 (\$20,722,200 General Fund).

BUDGET JUSTIFICATION

**PROPOSITION 204 SERVICES**  
**PROPOSITION 204 CAPITATION**

**PROPOSITION 204 CAPITATION**

**PROGRAM DESCRIPTION/BACKGROUND**

On November 7, 2000, Arizona voters approved Proposition 204, which expanded eligibility for the AHCCCS program to include individuals whose annual incomes are at or below 100% of the Federal Poverty Level (FPL). Proposition 204 specified that monies received by the State from the tobacco litigation settlement be used to fund the program. It also stipulated that the tobacco litigation settlement monies be supplemented, as necessary, if not sufficient. In 2012 the Arizona Legislature determined that tobacco litigation monies would only be supplemented by General Fund dollars if they determined that funds were available. This decision was upheld by the courts (pursuant to *Fogliano, et al v. State of Arizona and Bellach*).

On January 18, 2001, AHCCCS received approval from the Centers for Medicare and Medicaid Services (CMS) to expand eligibility to individuals with income at or below 100% FPL and individuals who have incurred medical bills sufficient to reduce their income to 40% FPL or less under Arizona's Medicaid waiver. This allows the State to receive approximately two-thirds of the cost of these expanded populations in Federal matching monies. As a condition for the waiver, Arizona is subject to "Federal Budget Neutrality," which essentially limits the amount of Federal Medicaid funding the State can receive over a waiver period. There have been three budget neutrality periods since April 1, 2001. The first was for the period April 1, 2001 through September 30, 2011. The second period commenced on October 1, 2011 and ended September 30, 2016. The third period commenced on October 1, 2016, and ends September 30, 2021.

There are five funding sources for the State Share of the program: Arizona Tobacco Litigation Settlement (ATLS) Fund, Proposition 204 Protection Account, Emergency Health Services Account (Proposition 204 Protection Account and Emergency Health Services Account are part of the Tobacco Products Tax Fund), Political Subdivisions (APSI) Fund, and Hospital Assessment Fund. All but the Political Subdivisions and Hospital Assessment Funds sources are dependent upon tobacco sales for revenue.

Capitation is a calculated monthly payment to health plan contractors for their provision of covered medical services to each member. Each member belongs to an eligibility group based on income, disability, resources, age and sex. The capitation rates for all eligibility groups are determined with the objective of covering the expected utilization and costs of medical services while ensuring the financial viability of health plans, which provide those medical services. The capitation rates are calculated annually to reflect changes to utilization of services and medical cost inflation.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**PROPOSITION 204 SERVICES**  
**PROPOSITION 204 CAPITATION**

**AHCCCS Complete Care (ACC) Integration:**

AHCCCS Complete Care begins on October 1, 2018. This new integrated system will join physical and behavioral health services together to treat all aspects of our members' health care needs under a chosen health plan. AHCCCS Complete Care encourages more coordination between providers within the same network which can mean better health outcomes for members.

On March 5, 2018, AHCCCS awarded managed care contracts to seven integrated managed care organizations (MCO's) that will coordinate the provision of physical and behavioral health care services. Integrated health care delivery benefits members by aligning all physical and behavioral health services under a single plan. With one plan, one provider network and one payer, health care providers are better able to coordinate care and members can more easily navigate the system, both of which ultimately improve health outcomes.

Most adults and children on AHCCCS will be enrolled with ACC Plans, including members currently enrolled in CRS. RBHAs will no longer serve most adults and children. This is because behavioral health services will be provided by the ACC Plan. RBHAs will continue to provide crisis, grant funded and state-only funded services. RBHAs will also continue to serve:

- Foster children enrolled in CMDP, including those CMDP members who have a CRS condition.
- Members enrolled with DES/DDD.
- Individuals determined to have a Serious Mental Illness.

Capitation rates for most adult and children members will now be a fully integrated rate that will cover physical health, behavioral health, and CRS (if applicable).

Attached tables show Member Months according to both new and old risk pools.

**PROPOSITION 204 SERVICES  
PROPOSITION 204 CAPITATION**

**FISCAL YEAR 2020  
BUDGET JUSTIFICATION**

**METHODOLOGY:**

(Budget Driver/Source of Info.)

A combination of linear regression, annualized growth rates, and ARIMA were utilized to project member months for each rate category (1931/TANF, SSI, MED, AHCCCS Care, Births). The resulting member months were then multiplied by capitation rate estimates to project future capitation payments.

Prior period member months for TANF, SSI with Medicare and SSI without Medicare were calculated based on a ratio of date-of-payment prior period member months to date-of-payment regular member months for each risk pool. Prior period member months were then forecast for each risk pool by multiplying these ratios by projected member months.

**FISCAL YEAR 2020  
BUDGET JUSTIFICATION**

**PROPOSITION 204 SERVICES  
PROPOSITION 204 CAPITATION**

**ASSUMPTIONS:**

**Member Growth**

TANF/1931 - From June 2017 to June 2018, TANF/1931 member months decreased by 8.9%, compared to an increase of 3.9% for the corresponding period in the previous year. It is forecast that this population will increase in SFY 2019 by 1.3% before a meager growth of 0.3% in SFY 2020. These percentage increases are calculated based on the estimated change in total member months for each year. Forecasts are based on a 120-month regression of monthly changes in underlying data for the combined, TANF Traditional, Proposition 204 TANF, and SOBRA Children. The aggregate forecast is then split by the percentage that each component represented of the total as of August 2018. (24.3% Traditional TANF, 15.1% Prop. 204 TANF, and 60.6% SOBRA Children).

Both the SSI with Medicare and SSI without Medicare population were significantly impacted by shifts from the SSI Traditional program due to changes in income determination. MAGI implementation, along with the fact that the last COLA increase was less than the FBR increase, may have caused a shift to SSI Traditional programs from SSI Prop. 204. The implementation of HEAplus, which has more electronic data sources for income, is an additional factor that may explain this transfer of SSI members.

Member months for Traditional SSI with Medicare, Traditional SSI without Medicare, Prop. 204 SSI with Medicare, and Prop. 204 SSI without Medicare were also combined and forecast in aggregate, but this time using an ARIMA model while holding the Without Medicare population constant. This aggregate forecast was then split by the percentage that each component represented of the total as of July 2018 (40.8% Traditional SSI with Medicare, 32.6% Traditional SSI without Medicare, 25.7% Prop. 204 SSI with Medicare, and 1.0% Prop. 204 SSI without Medicare). June over June growth rates are given in the table below:

| June | Traditional SSI w/ Medicare | % Chg.    | Traditional SSI w/o Medicare | % Chg.    | P204 SSI w/ Medicare | % Chg.    | P204 SSI w/o Medicare | % Chg.   | TOTAL      | % Chg.     |

**FISCAL YEAR 2020  
BUDGET JUSTIFICATION**

**PROPOSITION 204 SERVICES  
PROPOSITION 204 CAPITATION**

When an enrollment freeze for Expansion State Adults was implemented July 8, 2011, this population decreased considerably. Laws 2013, First Special Session, Chapter 10 restored this population effective January 1, 2014, with State Match funding provided by the Hospital Assessment Fund. The population continued to decline through December 2013, reaching a low of 59,700 member months. The original growth assumptions for the restoration assumed that 90% of the pre-freeze population would return to the program by September 2014, however, that target was already exceeded by June 2014. The FY 2014 June over June growth for this population was 200.2%. Some growth in this population carried over into FY 2015 with a June over June growth rate of 24.9%, but growth appears to have leveled off since January 2015. From June 2017 to June 2018 this population declined -3.6%.

It is assumed that the Expansion State Adults population, as well as the TANF population, has births associated with them. These births were projected by combining all births across all risk groups, then employing a 60-month seasonal regression, then apportioning the births to each risk group by the product of the total forecast and the ratio of births from each risk group for SFY 2018 over the total births for that period.

The growth rates shown in the table correspond to the growth rates cited above which are from June of the comparison year to June of the following year. SFY 2014-2018 figures are actuals. These figures include the effects of CRS and behavioral health integration described elsewhere, as well as shifts from TANF to SOBRA and shifts from SSI.

| SFY     | TANF    | SSI w/   | SSI w/o  | Exp. State | Total         |

**Prior Period Methodology:**

**PROPOSITION 204 SERVICES**  
**PROPOSITION 204 CAPITATION**

**FISCAL YEAR 2020**  
**BUDGET JUSTIFICATION**

AHCCCS forecasts Prior Period Member-Months (PPC) by computing a 12-month moving average ratio of PPC to corresponding prospective member-months for every given risk pool. For both PPC and Prospective member-months, amounts used are on a service-month basis, as opposed to payment-month, so totals will not be equal to corresponding counts in the Appropriation Status Report (ASR For the FY 2019 and 2020 PPC forecast, AHCCCS used a completion factor methodology to produce actual PPC estimates for more recent months, and then used those completed months in the calculation of the forecast ratio. PPC forecast amounts for each risk pool were computed by multiplying the 12-month moving average ratio (July 2017 to June 2018) by the corresponding prospective member-month forecast. This PPC forecast methodology was used for all programs and risk pools.

**FISCAL YEAR 2020  
BUDGET JUSTIFICATION**

**PROPOSITION 204 SERVICES  
PROPOSITION 204 CAPITATION**

**ACA HEALTH INSURER FEE**

The ACA includes an \$8.0 billion fee on the health insurance industry beginning in 2014. This health insurer fee (HIF) increases to \$14.3 billion by 2018 and is then indexed to the rate of premium growth thereafter as shown in the table below. The previous 2017 fee amount does not shift to 2018; the applicable amount for fee year 2018 remains at \$14.3 billion (see Treas. Reg. § 57.4(a)(3)).

| Fee Year            | Applicable Amount   |
|---------------------|---|
| 2014                | \$ 8,000,000,000  |
| 2015                | \$11,300,000,000  |
| 2016                | \$11,300,000,000  |
| 2017                | HIF Moratorium  |
| 2018                | \$14,300,000,000  |
| 2019                | HIF Moratorium  |
| 2020 and thereafter | The applicable amount in the preceding fee year increased by the rate of premium growth (within the meaning of section 36B(b)(3)(A)(ii)). |

The fee is considered an excise tax and is nondeductible for income tax purposes. CMS mandates actuarially sound Medicaid managed care capitation rates that allow participating insurers to cover projected expenses. Therefore this fee impacts Medicaid managed care expenditures.

The CMS currently approved payment methodology for this fee is a mass adjustment to capitation payments. It is anticipated that, most if not all, health plans will get tax filing extensions. As a result, AHCCCS makes one payment in the fall that includes an estimate for the tax liability. If there is a material difference in the final tax filings an additional adjustment is made.

The FMAP applied is the FMAP in effect for the month of the capitation adjustment. The payments made in FY 2018 (for the Calendar Year 2017 fee) adjusted capitation for October 2016 and used the FMAP in effect on that date. There was no payment in FY 2018 because the Consolidated Appropriations Act of 2016, Title II, § 201, Moratorium on Annual Fee on Health Insurance Providers, suspended collection of the health insurance provider fee for the 2017 calendar year. Health insurers are not required to pay these fees for calendar year 2017, they are, however, required to pay these fees for calendar year 2018 which will impact the SFY 2019 budget.

Continuing resolution H.R. 195 §4001amending Sec. 4191(c)), which was signed by Pres. Trump on January 23, 2018, suspended collection of the health insurance provider fee for the 2019 calendar year. This means that there will be no payment for SFY 2020.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**PROPOSITION 204 SERVICES**  
**PROPOSITION 204 CAPITATION**

In total funds, the Medicaid system paid \$123.7 million in FY 2018 for the 2017 Fee Year. As noted above, there will be no HIF payments in FY 2019 or for FY 2020.

The FY 2018 impact of this fee for Proposition 204 was \$13,012,000 Total Fund (\$3,917,900 State Match).

**Capitation Rates**

Overall Acute Capitation rates for CYE 2019 are increasing by 1.9% over the blended rates for CYE 2018 that took effect January 1, 2018. CYE 2019 capitation rates were developed as a rate update from the previously submitted CYE 2018 capitation rates.

Primary drivers of the CYE 2019 rates include:

- The medical trend analysis used historical yearly encounter data for the time period October 1, 2014 through September 30, 2017 with adjustments for completion factors, historical programmatic changes, and historical provider fee-for-service rate schedule changes. Net of capitation rebasing and other miscellaneous adjustments, medical trend including both utilization and unit cost trends and accounted for 0.4% (40 basis points) of the total acute rate increase.
- Reinsurance rebasing and prescription drug adjustments resulted in an increase of 0.7% (70 basis points)
- Fee schedule changes (excluding Prop 206 Adjustment) resulted in an increase of 0.4% (40 basis points)
- Differential Adjusted Payments (above CYE 18; excluding 2.5% Hospital DAP) resulted in an increase of 0.2% (20 basis points)
- Hemophilia Factor Pricing Change resulted in an increase of 0.1% (10 basis points)
- Applied Behavior Analysis Utilization resulted in an increase of 0.1% (10 basis points)

**FISCAL YEAR 2020  
BUDGET JUSTIFICATION**

In CYE 2019, AHCCCS expects that increases to utilization and medical inflation will require an increase to capitation rates in order for them to remain actuarially sound. AHCCCS estimates a CYE 2019 rate increase of 2.5% for all risk pools.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

PROPOSITION 204 SERVICES  
PROPOSITION 204 CAPITATION

**FMAP**

As an early expansion state (since Arizona had previously expanded eligibility up to 100% FPL), Arizona would not be eligible for the 100% “Newly Eligible” federal match offered to most states for adults who were made eligible by Proposition 204. However, the ACA does offer early expansion states an enhanced FMAP for Childless Adults known as the Expansion State FMAP.

For Arizona, this Expansion State FMAP started at 83.62% in Calendar Year 2014 representing the Regular MAP (67.23%) plus 50% of the difference between the Regular FMAP and the Newly Eligible FMAP (100%). Each Calendar Year, this adjustment is incremented by 10 percentage points of the difference between these two FMAP rates. For example, the Expansion State FMAP for Calendar Year 2015 was calculated by adding 60% of the difference between the Regular FMAP of 68.46% and the Newly Eligible FMAP of 100% to the Regular FMAP, while in Calendar Year 2016, 70% of the difference between the Regular FMAP of 68.92% and the Newly Eligible FMAP of 100% was added to the Regular FMAP. In Calendar Year 2019, the adjustment percentage increases to 90% and the Newly Eligible FMAP decreases from 95% to 94% in January 2018, resulting in a net increase in the calculated Expansion State FMAP.

For each Calendar Year after 2017, the Newly Eligible FMAP is decremented by 1 percentage point, until 2020 when it has a final reduction of 3 percentage points to a floor of 90%. By Calendar Year 2019, both the Expansion State FMAP and the Newly Eligible FMAP will be equal since the percentage adjustment to the Regular FMAP is then 100% of the difference between them. In Calendar Year 2019 both rates will be 93% and in Calendar Year 2020 both rates will be 90%.

It is assumed that the Regular FMAP will decrease from 69.81% in FFY 2019 to 69.48% in FFY 2020 based on the Federal Funds Information for States (FFIS) Issue Brief 18-11 (March 23, 2018). FMAP rates for SFY 2019 and 2020 are given, by month, on the table below:

| <b>Proposition 204 FMAP</b> |        |        |        |        |        |        |        |        |        |        |        |        |

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**PROPOSITION 204 SERVICES**  
**PROPOSITION 204 CAPITATION**

**Family Planning Adjustment**

The family planning component of the capitation rate is eligible for 90% federal funding that is higher than the regular Title XIX FMAP rate. The state share of acute care capitation expenses was reduced by an amount due to the difference between the higher family planning federal matching percentage and the regular Acute FMAP rate, and federal dollars were increased by a corresponding amount. In FY 2019 and FY 2020, the amount of the family planning adjustment is estimated at \$2,772,700.

**Prior Period Coverage (PPC) Reconciliation:**

AHCCCS performs a reconciliation process which compares total PPC medical cost experience to the reimbursement associated with the prior period retro portion of the capitation rates for all rate categories. ARS 35-142.01(B) requires AHCCCS to deposit reconciliation recoupments or penalties against program contractors or health plans into the General Fund or the fund from which the appropriation was made and prohibits these recoupments or penalties from being credited against future payments. As a result, only additional payments are included in the AHCCCS budget request. For SFY 2019 and SFY 2020, no additional payments are expected to be paid as a result of reconciliations.

**Acute Program Tiered Prospective Reconciliation:**

The AHCCCS Acute Care CRS RFP (RFP No. YH14-0001) tiered prospective reconciliation replaced the various acute care reconciliations with a Tiered Prospective reconciliation effective October 1, 2013 based on prospective, fully adjudicated medical expense encounters, and self-reported subcapitated expenses, net of reinsurance. For each contract year, the amount due from or due to the Contractor as the result of this reconciliation will be based on aggregated profits and losses across all of the tiered reconciliation risk groups. Individual risk groups will not be reconciled separately. The expenses will be reconciled against prospective capitation including Delivery Supplement payments and will be net of the administrative and premium tax components. No additional payments to Contractors as a result of Acute Program Tiered Prospective Reconciliation are anticipated in SFY 2019 or SFY 2020.

**Fund Sourcing**

State Match for Proposition 204 includes the Arizona Tobacco Litigation Settlement Fund, the Proposition 204 Protection Account, and the Emergency Health Services account of the Tobacco Products Tax Fund. Beginning October 1, 2017, capitation rates will include a component for the Access to Professional Services Initiative (APSI), which funds a 40% increase to select qualified physicians and non-physician professionals affiliated with designated teaching hospitals. The State Match for these payments is provided by Intergovernmental Transfers (IGTs) from Political Subdivisions. All remaining State Match required to fund Proposition 204 is funded with the Hospital Assessment Fund.

**PROPOSITION 204 SERVICES  
PROPOSITION 204 CAPITATION**

**FISCAL YEAR 2020  
BUDGET JUSTIFICATION**

The FY 2019 appropriation for the the Arizona Tobacco Litigation Settlement Fund, which includes funds from the Master Settlement Agreement (MSA), was reduced from \$100 million to \$79 million due to the end of the Strategic Contribution Payment component of the MSA. Based on new information from the Attorney General, it is now estimated that \$87 million in revenue will be available in FY 2019. AHCCCS has assumed the full \$87 million will be used in both FY 2019 and FY 2020, reflecting an increase of \$8 million over the appropriation.

The FY 2020 amount for the Prop 204 Protection Fund is unchanged from FY 2019 in the amount of \$37,728,900.

Proposition 204 - SSI W/O

**PROPOSITION 204 FEE-FOR-SERVICE**

**PROGRAM DESCRIPTION/BACKGROUND**

The distinct populations/programs, outlined and described below, combine to make up the Proposition 204 Fee-For-Service program within the Proposition 204 Services appropriation.

**Indian Health Services (IHS)**

Under the provision of its approved medical assistance plan, AHCCCS is responsible for paying for the cost of services provided to Native Americans who are Title XIX eligible.

Native American recipients have a choice of either enrolling with the American Indian Health Program (AIHP) or an AHCCCS health plan. AHCCCS pays claims for Native Americans who select the AIHP as their health plan on a fee-for-service basis. AHCCCS also pays claims on a fee-for-service basis for Native Americans enrolled with an MCO if they receive services at an IHS and/or 638 facility.

With the implementation of the Patient Protection and Affordable Care Act (ACA) on January 1, 2014, the AHCCCS Care population (renamed Expansion State Adults or ESA following ACA implementation) was restored up to 100% FPL and enrollment increased dramatically. The forecast is based on the estimates contained in the Proposition 204 regular member month forecasts. Both IHS Facilities and Non-Facilities utilize the same enrollment forecast for budget development.

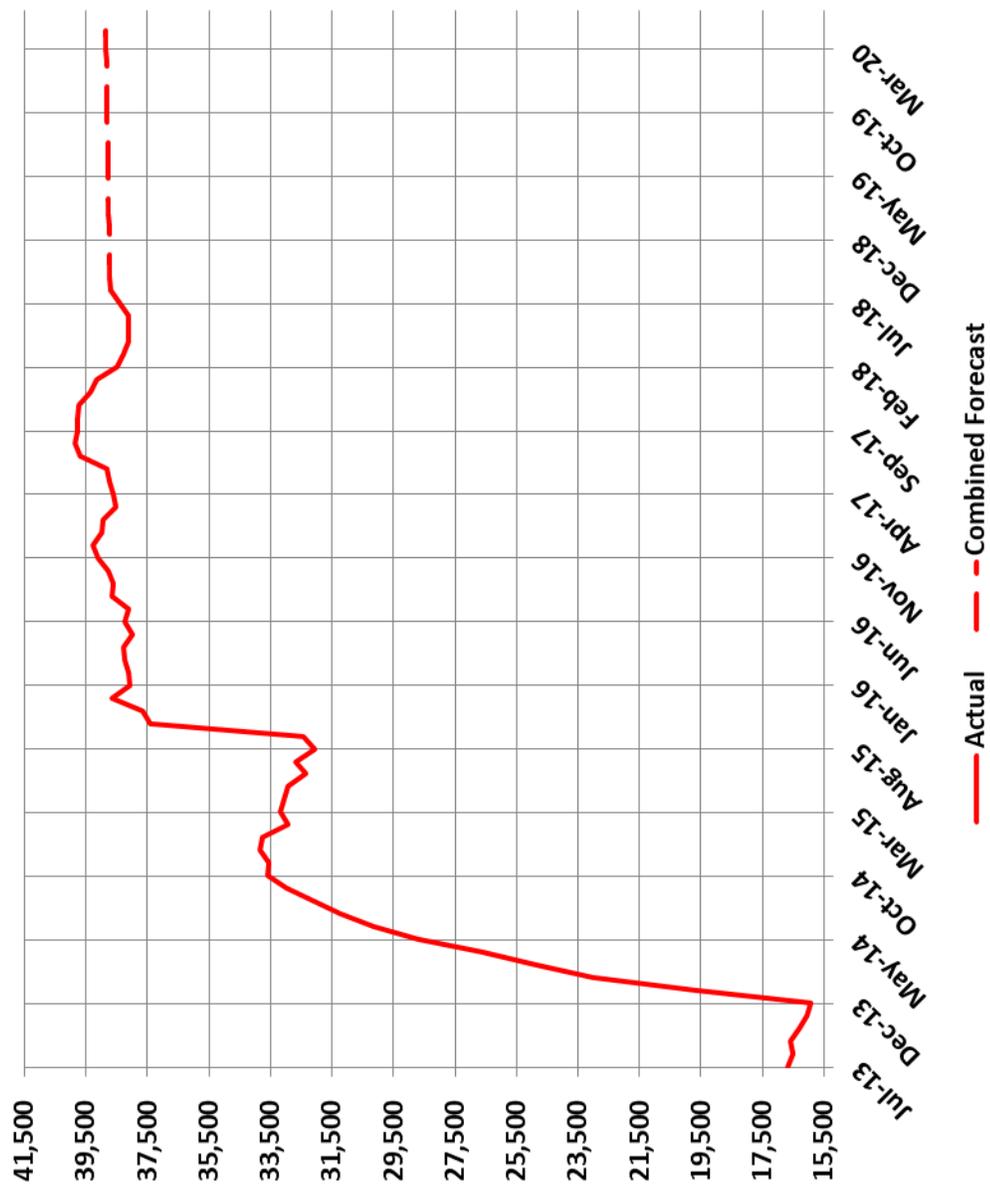

| Fiscal Year       | Enrollment | % Change |
|-------------------|------------|----------|
| SFY 2017 Actual   | 465,273    | 5.77%    |
| SFY 2018 Actual   | 468,399    | 0.67%    |
| SFY 2019 Estimate | 464,679    | -0.79%   |
| SFY 2020 Estimate | 465,933    | 0.27%    |

PROPOSITION 204 SERVICES  
PROPOSITION 204 FEE-FOR-SERVICE PROGRAM

The Indian Health Services, an agency of the U.S. Department of Health and Human Services, publishes rates in the Federal Register annually on a calendar year basis. The IHS rates are used to calculate the IHS Facility expenditure forecast. The inpatient/outpatient IHS rate changes for CY2018 were 10.09% and 9.21%, respectively. The most recent three year average inpatient/outpatient rate changes of 9.75% and 6.87%, respectively, were used for CY2019 and CY2020 budget calculations. The inflation rates are applied every January. Inpatient/Outpatient weights were computed separately for each program (as shown in the table below) and used to develop a weighted inflation factor.

|                      |                 | Historical AHP Payment Rates |             |      |      | Average Inflation<br>% +/- | AHP Facility |                                |                |                           |

**PROPOSITION 204 SERVICES**  
**PROPOSITION 204 FEE-FOR-SERVICE PROGRAM**  
 FISCAL YEAR 2020  
 BUDGET JUSTIFICATION

The weighted inflation factor of 7.54% was applied to the average PMPM (Per Member Per Month) rate for the final two quarters of SFY 2018 (January – June 2018) starting in January 2019, and again in January 2020, to produce the forecasted PMPM rates for SFY 2019 and SFY 2020, respectively (shown in table below). Expenditures (also shown below) were then calculated by multiplying the forecasted PMPM rates by the relevant IHS Enrollment population. Since the calendar year 2018 IHS rates were released in April 2018, and the payments associated with the rate adjustments have been made, the impact of the change has been incorporated into the final expenditure forecasts. Estimates do not include the IHS Facility forecasts associated with the Newly Eligible Adult population. Newly Eligible Adult FFS estimates can be found in the budget section entitled “Newly Eligible Adult Expansion”.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**PROPOSITION 204 SERVICES**  
**PROPOSITION 204 FEE-FOR-SERVICE PROGRAM**

*Non-Facility Budget Development*

To the extent of available resources, medical care is provided either by IHS staff or under contract. However, to ensure equal access to State, local, and Federal programs to which other citizens are entitled (in accordance with Medicaid Payment Policy and the Indian Health Care Act), if IHS is unable to provide the necessary treatment, Medicaid-eligible Native Americans who enroll with IHS may use non-IHS providers for services. AHCCCS considers the costs associated with these services to be Title XIX Non-facility claims. CMS reimburses the State for Title XIX non-facility claims (with the exception of the ESA population) at the FMAP rates given below:

| <b>Proposition 204 FMAP</b> |        |        |        |        |        |        |        |        |        |        |        |        |

The Non-facility expenditure forecast used a derived PMPM from the relevant programmatic IHS enrollment and actual expenditures. PMPM rates were calculated as the annual weighted average of SFY 2018 actuals and were adjusted for inflation at the beginning of each federal fiscal year, in October, for SFY 2019 and 2020 estimates. Inflation factors were estimated by calculating a weighted average of the annualized inflation rates given by appropriate market baskets from *Global Insight's Health-Care Cost Review, First Quarter 2018*. The market baskets were chosen to correspond with claim type information given in PMMIS and are as follows (claim type in parentheses): Hospital and Related Services (Inpatient), Medical Care Services (Outpatient), Physicians Services (Professional), Prescription Drugs (Prescriptions), Dental Services (Dental), CMS Nursing Home All Other Services (LTC). The inflation factors, weights, and programmatic inflation rates are given in the following table:

PROPOSITION 204 SERVICES  
PROPOSITION 204 FEE-FOR-SERVICE PROGRAM

**Emergency Services Program (ESP)**

The Emergency Services Program (ESP) encompasses AHCCCS coverage of services for lawfully admitted immigrants during their first 60 months of residency, as well as undocumented immigrants. AHCCCS recipients enrolled with this program are covered for emergency services only and the claims for their services are paid for on a fee-for-service basis.

The Federal Emergency Services Program (FES) is available to individuals who, except for their citizenship/alien status, meet Federal income and resource eligibility requirements. The program provides emergency services to three general categories: persons not qualified for Medicaid services because they are aliens who entered the U.S. prior to August 22, 1996; qualified aliens who entered after August 22, 1996, but are not yet entitled to full services; and undocumented immigrants. This program only covers emergency services which are defined by the Social Security Act as acute symptoms of sufficient severity that the absence of immediate medical attention could reasonably be expected to result in: 1) placing the patient's health in serious jeopardy, 2) serious impairment to bodily functions, 3) serious dysfunction of any bodily organ or part. Labor and delivery are included as emergency medical services, but not routine prenatal or post-partum care. When certain requirements are met, AHCCCS also considers dialysis as an emergency service. For budgeting purposes, FES covered services are considered to be either birth-related services (births) or other services (other).

For the birth-related expenditure estimates, the total FES birth counts, which are composed of Traditional Medicaid FES births and Proposition 204 FES births, were assumed to remain at current levels following four years of moderate decreases. The annual counts were then adjusted for seasonality based on actual experience over the past 4 years. The total FES births forecast was used to compute the PMPMs for both Traditional Medicaid and Proposition 204. The PMPM for July 2018 through September 2018 was calculated using the actual expenditures and birth count for the period covering October 2017 through June 2018. Inflation of 3.13%, based on Global Insights's Health-Care Cost Review - Hospital Market Basket, First Quarter 2018, was applied to the calculated PMPM in October 2018 and again in October 2019.

The forecasts for other emergency expenditures were computed in a similar fashion to births, by multiplying an estimated PMPM rate by forecasted enrollment. PMPM rates were estimated for both the Traditional and Proposition 204 populations by using the 3.13% inflation rate mentioned above to increase the weighted average PMPM calculated from actual expenditures in the period from October 2017 through June 2018. Enrollment was then estimated by applying the monthly growth rates implied by the member-month forecasts to the relevant emergency services enrollment population. The tables below give the PMPMs, expenditures, and enrollment for both births and other emergency services.

**AHCCCS Complete Care (ACC) Integration:**

AHCCCS Complete Care begins on October 1, 2018. This new integrated system will join physical and behavioral health services together to treat all aspects of our members' health care needs under a chosen health plan. AHCCCS Complete Care encourages more coordination between providers within the same network which can mean better health outcomes for members.

On March 5, 2018, AHCCCS awarded managed care contracts to seven integrated managed care organizations (MCO's) that will coordinate the provision of physical and behavioral health care services. Integrated health care delivery benefits members by aligning all physical and behavioral health services under a single plan. With one plan, one provider network and one payer, health care providers are better able to coordinate care and members can more easily navigate the system, both of which ultimately improve health outcomes.

Most adults and children on AHCCCS will be enrolled with ACC Plans, including members currently enrolled in CRS. RBHAs will no longer serve most adults and children. This is because behavioral health services will be provided by the ACC Plan. RBHAs will continue to provide crisis, grant funded and state-only funded services. RBHAs will also continue to serve:

- Foster children enrolled in CMDP, including those CMDP members who have a CRS condition.
- Members enrolled with DES/DDDD.
- Individuals determined to have a Serious Mental Illness.

Capitation rates for most adult and children members will now be a fully integrated rate that will cover physical health, behavioral health, and CRS (if applicable).

Attached tables show Member Months according to both new and old risk pools.

**Prior Quarter Coverage:**

As part of an effort to standardize Medicaid enrollment procedures across the nation, CMS will require AHCCCS to reinstitute Prior Quarter Coverage for new enrollees in the program beginning January 1, 2014. AHCCCS has been exempt from this federal requirement due to the 1115 Waiver initially granted by CMS in 2001. CMS would not renew the waiver for periods after December 31, 2013. Prior Quarter Coverage will require AHCCCS to make eligibility for Medicaid effective no later than the third month before the month of application if the individual received medical services, at any time during that period, of a type covered by the health plan; and would have been eligible for Medicaid at the time he/she received services if he/she had applied. AHCCCS must specify the effective eligibility date and may make eligibility for Medicaid effective on the first day of the month if the applicant was eligible at any time during that month.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

PROPOSITION 204 SERVICES  
PROPOSITION 204 FEE-FOR-SERVICE PROGRAM

*Example:* An applicant applies April 15 and is determined to be eligible back to April 1. Under prior quarter coverage, AHCCCS would evaluate the member's eligibility for Medicaid during any one of the three months (January, February, March) preceding April 1, if the applicant notifies AHCCCS that they had received services.

If the AHCCCS waiver is approved, prior quarter for all adult populations will end October 2018. This budget assumes that a waiver ending prior quarter for adults will be approved and take affect October 1, 2018.

**FQHC Recon:**

MCOs are required to pay the Prospective Payment System (PPS) rate to FQHC/RHCs in most cases. For dual eligibles, however, MCOs pay the lesser of the Medicare and PPS rate. Since FQHC/RHCs are entitled to Medicaid reimbursement up to the PPS rate, AHCCCS completes a reconciliation process that results in payment of the additional incremental cost. There are also other instances in which the FQHC/RHC provides services for which they are entitled to Medicaid reimbursement, but the MCO's encounter was not approved for payment. Through the reconciliation process, FQHC/RHCs would also receive the PPS rate for any allowable visits not otherwise paid. The reconciliation amount for CYE 2016 paid in SFY 2018 was \$25M. The projected reconciliation amounts for CYE 2017 to be paid in SFY 2019 and CYE 2018 to be paid in SFY 2020 are \$35M in each year. The reconciliation amount is increasing from CYE 2016 to CYE 2017 because the PPS rates were rebased, resulting in increases, effective October 1, 2016. The resulting total fee-for-services estimates for the FQHC Recon are \$11,284,700 Total Fund, consisting of \$9,619,400 Federal Fund and \$1,665,300 General Fund for FY 2019 and \$11,284,700, consisting of \$9,381,700 Federal Fund and \$1,903,000 General Fund for FY 2020.

Notes:

- (1) The JLBC provides the Prop. 204 Medicaid Services Appropriation figure and the Fee-for-Service allocation is included in this appropriation. The FY 2019 allocation and line detail was derived by using a percentage of each individual line to the total line of the state fiscal year 2018 actuals.
- (2) FY 2018 Actuals are from PMMIS and will not tie to AFIS due to timing and manual adjustments.
- (3) FES Births/Other expenditures were categorized more accurately in the second half of FY2017, and are assumed to remain accurate in future years.

**PROPOSITION 204 REINSURANCE**

**PROGRAM DESCRIPTION/BACKGROUND:** Reinsurance is a stop-loss program provided by AHCCCS to its contractors for the partial reimbursement of covered inpatient facility medical services incurred for a member with an acute medical condition beyond an annual deductible. AHCCCS provides both regular and catastrophic reinsurance coverage to health plan contractors. The purpose of reinsurance is to reduce the health plans' financial risk for major medical costs incurred by members.

The reinsurance program provides critical safeguards to AHCCCS health plans. These safeguards promote competition and flexibility during the procurement process ensuring competent contractors are chosen to provide quality services to AHCCCS recipients, while minimizing the cost to Arizona taxpayers. This proactive approach limits the costly procedure of transitioning members or liabilities when a contractor's financial solvency declines and services can no longer be provided.

Regular reinsurance is only available for inpatient facilities. Before regular reinsurance is paid to a health plan, the plan must meet an annual deductible for each eligible member. Once the deductible is met, the health plan is reimbursed by AHCCCS at 75% of the cost of services that exceed the deductible. The health plan will continue to pay 25% of the cost of services until the case total value reaches \$650,000, after which point AHCCCS will reimburse at 100% of the health plans cost of services. This coinsurance percent is the rate at which AHCCCS will reimburse the Contractor for inpatient covered services incurred above the deductible.

Catastrophic reinsurance is available to health plans for services provided to members who need certain organ transplants, are taking certain drugs (collectively referred to as biotech drugs), or who have hemophilia, von Willebrand's Disease or Gaucher's Disease. AHCCCS reimburses the health plans at 85% of the cost of service. The health plan will pay 15% of the cost of service until the case total value reaches \$650,000, after which point AHCCCS will reimburse the excess at 100% of the contracted amount for the transplant or the amount which the health plan paid, whichever is less. There are no deductibles for catastrophic reinsurance cases.

Health Plan deductible options impact AHCCCS' reinsurance and capitation costs. This is because capitation rates are adjusted by a reinsurance offset based on the deductible level chosen. The higher the deductible, the lower the offset. AHCCCS provides the added compensation because the increased share of risk the Health Plan is taking has reduced the Agency's (the State of Arizona's) risk. As part of the 2013 Acute Care Contract RFP process, all participating health plans are in the \$25,000 deductible level category beginning October 1, 2013.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

PROPOSITION 204 SERVICES  
PROPOSITION 204 REINSURANCE

**METHODOLOGY:**

(Budget Driver/Source of Info.)

Over the past several years, AHCCCS has utilized a methodology based on overlapping contract years in order to calculate PMPMs for one complete state fiscal year of reinsurance. That fiscal year was then trended forward to create future state fiscal year PMPMs. While this methodology was sound during stable periods, there have been a significant number of policy changes implemented over the last few contract years such that, when combined with varying Health Plan encounter efficiencies, it renders that methodology ineffective for the current timeframe. In the absence of data related to each individual policy change, combined with the 28-month long payment cycle associated with each contract year, the completion percentages of the policy changes cannot be determined, although these policy changes will still be impacting reinsurance payments through SFY2020.

Although the contract year payment and reporting cycles have not changed, the policy changes and the inability to segregate the impact of the changes from the regular reinsurance expenditures, have made it necessary to update the model to include only the most recent fiscal years' experience in the program in order to estimate the costs. All reinsurance claims must reach a clean claim status within fifteen months from the end date of service, or date of eligibility posting, whichever is later. Encounters for reinsurance claims that have passed the fifteen-month deadline and are being adjusted due to a claim dispute or hearing decision must be submitted within 90 calendar days of the date of the claim dispute or hearing decision. A complete contract year cycle needs at least 28 months in order to complete the payments that are associated with it. For example, a claim with a date of service in the final month of CY2014 (September 2014) would have 15 months to reach a clean claim status (December 2015). If any September 2014 claims were disputed, they would have to be submitted within 90 calendar days of the claim dispute or hearing decision (March 2016). Submitted claim disputes and their subsequent hearings will vary in the amount of time necessary to come to a resolution.

As a consequence of the conditions mentioned above, the most recent fiscal year's expenditures were determined to be the most reliable data to use as the basis for the FY2019 – FY2020 reinsurance forecast. The SFY 2018 actual weighted PMPM was inflated in October 2018 and 2019 by 3.79%. The resulting PMPMs were then multiplied by the forecasted member months to come up with a total expenditure forecast for fiscal years 2019 and 2020. The inflation factors mentioned above were taken from Global Insight's Health-Care Cost Review - Hospital Market Basket, First Quarter 2018.

**Member Month Forecast**

| Estimat SFY  | 1,562,571 | 456,691 | 3,259,194 | 5,278,456 | 0.42     |  |

**FMAP**

The final State Fiscal Year projections were separated into a Federal Fund amount and a General Fund amount. With the implementation of the ACA on January 1, 2014, the ESA population is eligible for the Expansion State Medical Assistance Percentage (FMAP) rate. Apart from the ESA population, all other Proposition 204 Reinsurance risk populations use the state's regular FMAP. The fund sourcing was calculated by applying the program-specific FMAPs to the SFY2020 total dollars. FFY2020 FMAPs are based on the FFIS estimates for that period. For specific rates, refer to the FMAP Table below. The SFY2019 forecast was \$63,862,500 Total Fund (\$7,272,500 State Match). The SFY2020 forecast was \$65,836,500 Total Fund (\$7,968,000 State Match).

It is assumed that the Regular FMAP will increase from 69.81% in FFY 2019 to 69.48% in FFY 2020 based on the Federal Funds Information for States (FFIS) Issue Brief 18-11 (March 23, 2018). The Expansion State FMAP is a function of the regular FMAP and the ACA Medicaid Expansion FMAP, and will decrease from 93.00% in FFY 2019 to 90.00% in FFY 2020. The updated FMAP percentages and member months that were used in the reinsurance forecast are shown in the tables below.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**PROP 204 SERVICES**  
**PROP 204 MEDICARE PREMIUMS**

**PROPOSITION 204 MEDICARE PREMIUMS**  
**PROGRAM DESCRIPTION/BACKGROUND**

AHCCCS pays Medicare Part A premiums, Hospital Insurance Benefit (HIB), and Medicare Part B premiums, Supplemental Medical Insurance Benefit (SMIB), for Title XIX members who are eligible for both Medicare and Medicaid. AHCCCS acts as a payer of last resort for medical benefits and cost avoids against Medicare for dual eligible members. This means that for these members AHCCCS only has liability for payment of Medicare coinsurance, deductibles, and the remaining medical benefits that are not covered by Medicare and all other third party payers. Health care providers must determine the extent of third party coverage and bill all private insurance carriers including HMOs and Medicare prior to billing AHCCCS. This Medicare "buy-in" program reduces the State's Medicaid costs because the Federal government, through Medicare, absorbs many of the major medical costs provided to these members, which otherwise would have been paid by AHCCCS.

**METHODOLOGY:**

- Medicare Part A and Part B monthly premium rates are established by the U.S. Department of Health and Human Services, Centers for Medicare and Medicaid Services (CMS) for each calendar year.
- A per member per month (PMPM) cost for Medicare Part A premiums is calculated by dividing actual Medicare Part A premium expenditures for January through June 2018 by the SSI with Medicare member months for that same period. For Calendar Year 2018 and Calendar Year 2019, this PMPM cost is inflated by 1.59%. The 1.59% represents a five-year average of the percent increases (not including years in which the PMPM decreased) in the published Medicare Part A rate. The PMPM amounts are then multiplied by projected SSI with Medicare member months to estimate Medicare Part A premium expenditures for future years. The projected SSI with Medicare member months used for Medicare Part A and Part B premiums calculation includes members enrolled in the behavioral health integrated plans; as a result they do not tie to the SSI with Medicare member months used in the Traditional capitation forecast.
- A per member per month (PMPM) cost for Medicare Part B premiums is calculated by dividing actual Medicare Part B premium expenditures for January through June 2018 by the SSI with Medicare member months for that same period. For Calendar Year 2018 and Calendar Year 2019, this PMPM cost is inflated by 5.23%. The 5.23% represents a five-year average of the percent increases (not including years in which the PMPM decreased) in the published Medicare Part B rate. The PMPM amounts are then multiplied by projected SSI with Medicare member months to estimate Medicare Part B premium expenditures for future years.

**ASSUMPTIONS:**

**Medicare Premium Rates**

The current calendar year 2018 Medicare Part A premium is \$422.00 per month. The current calendar year 2018 Medicare Part B premium is \$134.00. The effective Medicare premium rates paid by AHCCCS are calculated using the PMPM costs which include a 10% surcharge for late enrollment for some members over and above the published premium rates. The following table provides a historical perspective on the Medicare Part A and B premiums and annual increases.

**History of Medicare Premium Rates**

| Calendar Year | Medicare Part A Premium | % Change | Medicare Part B Premium | % Change |
|---------------|-------------------------|----------|-------------------------|----------|
| 2002          | \$319.00                | 6.33%    | \$54.00                 | 8.00%    |

| 2019 (est.)   | \$428.70                | 1.59%    | \$141.00                | 5.23%    |
| 2020 (est.)   | \$435.50                | 1.59%    | 148.37                  | 5.23%    |

**PROP 204 SERVICES**

FISCAL YEAR 2020

**PROP 204 MEDICARE PREMIUMS**

BUDGET JUSTIFICATION

Medicare Part A and Part B premiums projected for Calendar Years 2019 and 2020 are based on an average of the most recent five years percentage increase, excluding years for which the rate decreased.

**Member Growth**

A 36-month combined regression model was used to forecast growth for the Proposition 204 SSI with Medicare population. Members who were shifted into the MMIC and Greater Arizona RBHA plans were added back for the Medicare premium calculation. The increase in FY2017 for the SSI population is related to a shift in members from Proposition 204 to Traditional which occurred in the spring of 2017. Member months for SSI Traditional and Prop. 204 SSI (including both SSI with Medicare and SSI without Medicare) were combined and forecast in aggregate using a 36 month regression and then split according to the percentage that each currently represents of the total. Because of the sizeable shift from Prop. 204 to Traditional that occurred in Spring 2017, this methodology results in a year-over-year increase of 50.7% from FY2017 to FY2018, while June-over-June shows an increase of 76.7%.

Year-over-year growth rates for the Prop 204 SSI with Medicare population for Medicare premiums are shown in the table below:

| SFY  | MM      | %Chg   |
|------|---------|--------|
| 2012 | 331,880 | 11.4%  |
| 2013 | 345,267 | 4.0%   |
| 2014 | 363,976 | 5.4%   |
| 2015 | 393,689 | 8.2%   |
| 2016 | 418,288 | 6.2%   |
| 2017 | 284,938 | -31.9% |
| 2018 | 429,355 | 50.7%  |
| 2019 | 438,432 | 2.1%   |
| 2020 | 439,189 | 0.2%   |

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**PROPOSITION 204 PASS-THROUGH**

**PROPOSITION 204 PASS-THROUGHS**

**PROPOSITION 204**

The Proposition 204 pass-through cost center includes a variety of programs that flow through the AHCCCS financial system, but are not part of the AHCCCS appropriated budget.

**DEPARTMENT OF CORRECTIONS/COUNTIES – PASS-THROUGH**

Through intergovernmental agreements, AHCCCS processes claims for Title XIX and non-Title XIX Arizona Department of Corrections Inmates, and Arizona County Inmates. The state dollars are received by AHCCCS through the IGA/ISA fund (2500) and are paid directly to providers. This arrangement is in support of the Governor's Efficiency Review initiative. AHCCCS estimates expenditures for these programs based on past trend and input from Department of Corrections.

**OTHER PROPOSITION 204 PASS-THROUGH**

Funding for the state's Tobacco Cessation program is provided to the Arizona Department of Health. No change is anticipated.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

NON-MEDICAID BEHAVIORAL HEALTH  
SERIOUSLY MENTALLY ILL (NON-TITLE XIX)

**SERIOUSLY MENTALLY ILL (NON-TITLE XIX)**

**PROGRAM DESCRIPTION:**

The Seriously Mentally Ill (Non-Title XIX) program provides behavioral health services to adults with Serious Mental Illness (SMI) who are not eligible to receive Medicaid Title XIX services.

Specific covered services include mental health and substance abuse related treatment, rehabilitation, medical, support, crisis intervention, inpatient, residential, and day program services. Effective July 1, 2016 this program transferred from the Arizona Department of Health Services (ADHS) to the Arizona Health Care Cost Containment System (AHCCCS).

**STATUTORY AUTHORITY:**

- Laws 2015, Chapter 19.
- Laws 2015, Chapter 195.
- A.R.S Title 36, Chapter 34, Article 1.

**NON-MEDICAID BEHAVIORAL HEALTH  
CRISIS SERVICES**

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**CRISIS SERVICES**

**PROGRAM DESCRIPTION:**

The Crisis Services program provides emergency behavioral health assistance to persons in need, who are not eligible for the Medicaid Title XIX program. Services may include 24-hour crisis telephone lines, mobile crisis response teams, and facility-based crisis services.

Effective July 1, 2016 this program transferred from the Arizona Department of Health Services (ADHS) to the Arizona Health Care Cost Containment System (AHCCCS).

**STATUTORY AUTHORITY:**

Laws 2015, Chapter 19.  
Laws 2015, Chapter 195.  
A.R.S Title 36, Chapter 34, Article 1.

**NON-MEDICAID BEHAVIORAL HEALTH  
SUPPORTED HOUSING**

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**SUPPORTED HOUSING**

**PROGRAM DESCRIPTION:**

The Supported Housing program provides housing services that will enable individuals to live in the community. These funds may serve to Medicaid and 100% state funded recipients. Medicaid does not, however, provide federal matching funds for housing assistance.

Effective July 1, 2016 this program transferred from the Arizona Department of Health Services (ADHS) to the Arizona Health Care Cost Containment System (AHCCCS).

**STATUTORY AUTHORITY:**

- Laws 2015, Chapter 19.
- Laws 2015, Chapter 195.
- A.R.S Title 36, Chapter 34, Article 1.

FISCAL YEAR 2020

**CHILDREN'S HEALTH INSURANCE PROGRAM**

BUDGET JUSTIFICATION

## **CHILDREN'S HEALTH INSURANCE PROGRAM SERVICES**

### **PROGRAM DESCRIPTION/BACKGROUND:**

A.R.S. Title 36, Chapter 29, Article 4 (Laws 1998, Chapter 11) authorized the implementation of a Title XXI Children's Health Insurance Program referred to as KidsCare. The intent of this program was to provide health care services to children under the age of 19 living in families with a gross income at or below 200% of the Federal Poverty Level (FPL) guidelines, who are not eligible for Medicaid.

Arizona provides KidsCare services through established AHCCCS health plans. All children have a choice of available contractors and primary care providers in a Geographic Service Area. Additionally, Native Americans can elect to enroll with a health plan or the American Indian Health Plan (AIHP), an AHCCCS administered fee-for-service program. As established, the KidsCare benefit package offered by the contractors is the same service package offered to state employees by the least expensive commercial HMO. However, Laws 2001, Chapter 360 expanded the benefits package to include non-emergency transportation and expanded behavioral health services.

Behavioral Health Services and Children's Rehabilitative Services are available for children enrolled with health plans, as well as those children covered by the AIHP.

Based on Title XXI of the Social Security Act, a child who is Medicaid eligible cannot be approved for KidsCare.

On March 15, 2010, the Centers for Medicare and Medicaid Services (CMS) approved an enrollment freeze and cap for KidsCare with the effective date of January 1, 2010. Since the enrollment freeze State Plan Amendment (SPA) was approved prior to the President signing the Patient Protection and Affordable Care Act of 2010 (ACA), the freeze was not considered a violation of the maintenance of effort (MOE) provisions of the ACA.

On July 22, 2016, CMS approved a SPA to remove the enrollment cap on the programs, per Laws 2016, Chapter 112. Coverage for new applicants will begin effective September 1, 2016.

KidsCare expenditures are funded by Arizona's Title XXI CHIP allotment at an enhanced 100% FMAP due to a 23 percentage point increase under the ACA, which expires September 30, 2019. On January 22, 2018, Congress passed a six-year extension of CHIP funding as part of a broader continuing resolution to fund the federal government. Federal funding for CHIP expired on September 30, 2017 and without additional funding available, states used remaining funds from previous years. On February 9, 2018, Congress passed the Bipartisan Budget Act of 2018, which reauthorized CHIP for an additional four years. President Trump signed the bill into law that same day, allowing for CHIP's extension through 2027.

FISCAL YEAR 2020

**CHILDREN'S HEALTH INSURANCE PROGRAM**

**BUDGET JUSTIFICATION**

This budget assumes sufficient CHIP allotment for FFY 2019 and FFY 2020. Please see the budget submittal letter for a discussion of potential scenarios and funding impacts that may occur as the result of federal and state policy decisions. On October 1, 2019 when FMAP decreases to 90.14% this will trigger a freeze in the program per Arizona Laws 2017, Ch. 309, Sec. 7 amended ARS 36-2985 unless a change in this law is enacted. It is assumed for purposes of this budget that necessary changes to this law will be made and that KidCare enrollment will not be frozen.

KidsCare members are charged monthly premiums based on family income and the number of children covered. At no time will a Native American or an Alaska Native be charged a co-payment or a premium. A.R.S. §36-2982 requires AHCCCS to adopt rules to establish circumstances under which AHCCCS will grant a hardship to a member who cannot pay the monthly premium.

**METHODOLOGY:**

**MEMBER GROWTH**

AHCCCS projected member growth in KidsCare by estimating the number of children in Arizona who are without health insurance coverage, do not qualify for other Medicaid programs, and would likely be eligible for KidsCare. Census and health insurance data was reviewed and analyzed from the U.S. Census Bureau's 2014 Annual Social and Economic Supplement (ASEC) of the Current Population Survey (CPS) to estimate the number of children, by household income level, that were uninsured in 2014. AHCCCS then assumed that a portion of those individuals became insured via the Federally Facilitated Marketplace (FFM) and Arizona's overall population experienced underlying annual average growth of 1.5%.

As of June 2018, 29,767 children were enrolled in KidsCare. By June 2019, AHCCCS anticipates 43,105 members and 45,282 by June 2020 based on the saturation model described below.

AHCCCS estimates that 44,668 children could be eligible for KidsCare. Assuming a presentation rate of 100% and an eleven month phase-in for enrollment beginning August 2018, it is estimated that 44,668 members will be enrolled by July 2019. The KidsCare population is assumed to increase at an annual average rate of 1.5% thereafter, reflecting underlying population growth.

FISCAL YEAR 2020

**CHILDREN'S HEALTH INSURANCE PROGRAM**

BUDGET JUSTIFICATION

**PREMIUMS**

Premiums offset the cost of the KidsCare program, however, for appropriation purposes, premiums are loaded into the CHIP Fund.

The following schedule shows current KidsCare premiums by income level and number of children in family:

| Household Income | One Child      | Two or More Children |
|------------------|----------------|----------------------|
| 139-149% FPL     | \$10 per month | \$15 per month       |
| 150-175% FPL     | \$40 per month | \$60 per month       |
| 176-200% FPL     | \$50 per month | \$70 per month       |

Actual premiums paid during SFY17 through SFY18 with estimated premiums for SFY19 and SFY20 are shown in the following table.

| SFY            | Premiums Paid |
|----------------|---------------|
| SFY17 Actual   | \$4,549,700   |
| SFY18 Actual   | \$6,761,700   |
| SFY19 Estimate | \$9,197,900   |
| SFY20 Estimate | \$11,814,900  |

**RATES**

Average KidsCare PMPM rates were developed for capitation, behavioral health, FFS, and reinsurance based on historical experience. Rates were trended up by 2.5% from CYE 19 to CYE 20.

| KidsCare Capitation Rates |          |           |           |                               |                          |
|---------------------------|----------|-----------|-----------|-------------------------------|--------------------------|
|                           | 7/1/2018 | 10/1/2018 | 10/1/2019 | Jul.2018–Oct.2018<br>% Change | Oct. to Oct.<br>% Change |
| Group                     |          |           |           |                               |                          |
| Age <1                    | 509.56   | 568.76    | 582.98    | 11.6%                         | 2.5%                     |
| Age 1-20                  | 174.85   | 178.66    | 183.13    | 2.2%                          | 2.5%                     |
| Births                    | 6,042.82 | 5,862.21  | 6,008.76  | -3.0%                         | 2.5%                     |
| Crisis RBHA               | 3.86     | 4.76      | 4.88      | 23.3%                         | 2.5%                     |

**ACA HEALTH INSURER FEE**

The ACA includes an \$8.0 billion fee on the health insurance industry beginning in 2014. This health insurer fee (HIF) increases to \$14.3 billion by 2018 and is then indexed to the rate of premium growth thereafter as shown in the table below. The previous 2017 fee amount does not shift to 2018; the applicable amount for fee year 2018 remains at \$14.3 billion (see Treas. Reg. § 57.4(a)(3)).

| Fee Year            | Applicable Amount   |
|---------------------|---|
| 2014                | \$ 8,000,000,000  |
| 2015                | \$11,300,000,000  |
| 2016                | \$11,300,000,000  |
| 2017                | HIF Moratorium  |
| 2018                | \$14,300,000,000  |
| 2019                | HIF Moratorium  |
| 2020 and thereafter | The applicable amount in the preceding fee year increased by the rate of premium growth (within the meaning of section 36B(b)(3)(A)(ii)). |

The fee is considered an excise tax and is nondeductible for income tax purposes. CMS mandates actuarially sound Medicaid managed care capitation rates that allow participating insurers to cover projected expenses. Therefore this fee impacts Medicaid managed care expenditures.

The CMS currently approved payment methodology for this fee is a mass adjustment to capitation payments. It is anticipated that, most if not all, health plans will get tax filing extensions. As a result, AHCCCS makes one payment in the fall that includes an estimate for the tax liability. If there is a material difference in the final tax filings an additional adjustment is made.

The FMAP applied is the FMAP in effect for the month of the capitation adjustment. The payments made in FY 2018 (for the Calendar Year 2017 fee) adjusted capitation for October 2016 and used the FMAP in effect on that date. There was no payment in FY 2018 because the Consolidated Appropriations Act of 2016, Title II, § 201, Moratorium on Annual Fee on Health Insurance Providers, suspended collection of the health insurance provider fee for the 2017 calendar year. Health insurers are not required to pay these fees for calendar year 2017, they are, however, required to pay these fees for calendar year 2018 which will impact the SFY 2019 budget.

Continuing resolution H.R. 195 §4001amending Sec. 4191(c)), which was signed by Pres. Trump on January 23, 2018, suspended collection of the health insurance provider fee for the 2019 calendar year. This means that there will be no payment for SFY 2020.

FISCAL YEAR 2020

**CHILDREN'S HEALTH INSURANCE PROGRAM**

BUDGET JUSTIFICATION

In total funds, the Medicaid system paid \$123.7 million in FY 2018 for the 2017 Fee Year. As noted above, there will be no HIF payments in FY 2019 or for FY 2020.

The FY 2018 impact of this fee for KidsCare was \$55,200 Total Fund (100% Federally Funded).

### **ADHS/AIPO**

The Arizona Immunization Program Office (AIPO) of ADHS has an interagency service agreement to provide immunizations to children enrolled in KidsCare under which AHCCCS is invoiced for immunizations performed.

In the past, payments for ADHS/AIPO have been approximately 3.0% of capitation payments excluding behavioral health and CRS. For FY 2019 and 2020, payments for ADHS/AIPO were set equal to the most recent actual amount available.

### **FQHC Recon:**

MCOs are required to pay the Prospective Payment System (PPS) rate to FQHC/RHCs in most cases. For dual eligibles, however, MCOs pay the lesser of the Medicare and PPS rate. Since FQHC/RHCs are entitled to Medicaid reimbursement up to the PPS rate, AHCCCS completes a reconciliation process that results in payment of the additional incremental cost. There are also other instances in which the FQHC/RHC provides services for which they are entitled to Medicaid reimbursement, but the MCO's encounter was not approved for payment. Through the reconciliation process, FQHC/RHCs would also receive the PPS rate for any allowable visits not otherwise paid. The reconciliation amount for CYE 2016 paid in SFY 2018 was \$25M. The projected reconciliation amounts for CYE 2017 to be paid in SFY 2019 and CYE 2018 to be paid in SFY 2020 are \$35M in each year. The reconciliation amount is increasing from CYE 2016 to CYE 2017 because the PPS rates were rebased, resulting in increases, effective October 1, 2016. The resulting total fee-for-service estimates for the FQHC Recon are \$31,100 Total Fund (100% Federally Funded) for FY 2019 and \$31,100, consisting of \$28,000 Federal Fund and \$3,100 General Fund for FY 2020.

### **FMAP**

The KidsCare program is eligible for the enhanced Title XXI Federal Matching Assistance Percentage (FMAP). Effective October 1, 2015, KidsCare was 100% federally funded under the ACA due to an increase of 23 percentage points. On October 1, 2019 FMAP will decrease to 90.14%. As noted above, this drop in FMAP below 100% will trigger a freeze in the program per Arizona Laws 2017, Ch. 309, Sec. 7 amended ARS 36-2985 unless a change in this law is enacted. It is assumed for purposes of this budget that KidsCare will not be frozen and that changes to this law will be made.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

CHILDREN'S HEALTH INSURANCE PROGRAM

| FFY  | Period                    | Enhanced |
|------|---------------------------|----------|

FISCAL YEAR 2020

BUDGET JUSTIFICATION

**CHILDREN'S REHABILITATIVE SERVICES**

**CHILDREN'S REHABILITATIVE SERVICES**

**PROGRAM DESCRIPTION:**

The Children's Rehabilitative Services (CRS) program provides medical treatment, rehabilitation, and related support services to medically and financially qualified individuals who have certain medical, disabling or potentially disabling conditions that have the potential for functional improvement. CRS is primarily a children's program for Arizona residents under the age of 21 with chronic and disabling, or potentially disabling, conditions.

AHCCCS has implemented an integrated health model for children with rehabilitative service needs. The previous CRS program was "carved out" from the AHCCCS Acute managed care model. Previously, AHCCCS children receiving CRS services were enrolled in a minimum of three separate systems of care. Children with underlying conditions, including developmental disabilities or behavioral health needs, potentially required care delivered by four or five separate systems. Effective October 1, 2013, the old model was replaced by a payer integration model that requires one contractor/payer to assume responsibility for the delivery, care management, and payment of multiple services (i.e. services related specifically to CRS conditions as well as services related to primary care and, potentially, other needs like behavioral health). Ultimately, the purpose of such a model is to ensure optimal access to important specialty care as well as effective coordination of all service delivery.

Effective July 1, 2018, in preparation for the implementation of AHCCCS Complete Care on October 1, 2018, the CRS appropriation was integrated into the existing Acute Care Line Items: Traditional Medicaid Services, Proposition 204 Services, Newly Eligible Adult Services, and KidsCare. After October 1, 2018, all CRS services will be paid for by fully-integrated capitation rates from the line items mentioned previously.

**AHCCCS Complete Care (ACC) Integration**

AHCCCS Complete Care begins on October 1, 2018. This new integrated system will join physical and behavioral health services together to treat all aspects of our members' health care needs under a chosen health plan. AHCCCS Complete Care encourages more coordination between providers within the same network which can mean better health outcomes for members.

On March 5, 2018, AHCCCS awarded managed care contracts to seven integrated managed care organizations (MCO's) that will coordinate the provision of physical and behavioral health care services. Integrated health care delivery benefits members by aligning all physical and behavioral health services under a single plan. With one plan, one provider network and one payer, health care providers are better able to coordinate care and members can more easily navigate the system, both of which ultimately improve health outcomes.

FISCAL YEAR 2020

BUDGET JUSTIFICATION

CHILDREN'S REHABILITATIVE SERVICES

Most adults and children on AHCCCS will be enrolled with ACC Plans, including members currently enrolled in CRS. RBHAs will no longer serve most adults and children. This is because behavioral health services will be provided by the ACC Plan. RBHAs will continue to provide crisis, grant funded and state-only funded services. RBHAs will also continue to serve:

- Foster children enrolled in CMDP, including those CMDP members who have a CRS condition.
- Members enrolled with DES/DDD.
- Individuals determined to have a Serious Mental Illness.

Capitation rates for most adult and children members will now be a fully integrated rate that will cover physical health, behavioral health, and CRS (if applicable).

As part of the ACC implementation, AHCCCS risk pools have been modified and simplified. For details, please see the supplemental population tables in the Traditional Medicaid and Proposition 204 sections.

For more information on integration and the ACC changes, including a comprehensive list of FAQs, please visit the AHCCCS Website: <https://www.azahcccs.gov/AHCCCS/Initiatives/AHCCCSCompleteCare/>

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**SCHOOL BASED SERVICES**

**SCHOOL BASED SERVICES – PROGRAMMATIC PASS-THROUGH**

**DIRECT SERVICE CLAIMS (DSC) PROGRAM DESCRIPTION/BACKGROUND**

Under the Individuals with Disabilities Education Act (IDEA), Part B, states are required to make available special education and related services that are necessary for students with disabilities to obtain a free and appropriate public education. Some of these services provided to Title XIX eligible children by the school under IDEA are covered by Title XIX, which reimburses schools as qualified providers.

AHCCCS, in cooperation with the Arizona Department of Education (ADOE), launched the program in January 2001. Under the program, the local education agencies (LEAs) which include public school districts, certain charter schools and the Arizona School for the Deaf and Blind, are allowed to bill AHCCCS directly on a cost-based methodology for the provision of certain AHCCCS covered services. These services must be provided to Title XIX and IDEA eligible children.

As a result of the CMS approved Arizona State Plan Amendment (SPA) No. 11-007, the reimbursement methodology for school-based claiming was revised in order to enhance the identification of actual costs and improve the accuracy of claims reimbursement. Prior to July 1, 2011, LEAs billed AHCCCS using a fee-for-service fee schedule; it is now paid on a cost-based methodology. The cost-based methodology includes an interim fee-for-service payment and a reconciliation of final costs versus estimated costs within a two-year period after the end of a fiscal year. The SFY2018 reconciliation payment estimate of \$19,300,300 is for SFY2015. The SFY2019 reconciliation payment estimate of \$18,500,000 is for SFY2016.

Currently, there are 97 LEAs participating in the program. The LEAs submit their claims through a third party vendor. The Centers for Medicare and Medicaid Services (CMS) reimburses LEAs according to the applicable FMAP for the contract year the Medicaid services are provided and also 50% of the third party vendor’s administrative charges.

It is assumed that the FMAP will decrease from 69.81% in FFY 2019 to 69.48% in FFY 2020 based on Federal Funds Information for States (FFIS) in Issue Brief 18-11 (March 23, 2018).

| FFY                    | FMAP   |
|------------------------|--------|
| Oct. 2017 – Sept. 2018 | 69.89% |
| Oct. 2018 – Sept. 2019 | 68.81% |
| Oct. 2019 – Sept. 2020 | 69.48% |

As the single state Medicaid Agency for Arizona, AHCCCS draws down the Title XIX Federal Match for this program and passes those dollars through to the LEAs. Although AHCCCS only passes-through the Federal portion of the claims to the LEAs, by contract, each LEA must certify that it has met the state match requirement.

**DSC METHODOLOGY**

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**SCHOOL BASED SERVICES**

Expenditures are forecasted by inflating the average expenditures from October 2017 through June 2018 every October, by a factor of 2.7%. The inflation factor is based on a weighted average of the Global Insights Hospital Market Basket inflation forecasts.

**FY 2020 DSC EXPENDITURES**

The DSC program Federal share expenditures are expected to increase by \$401,400 compared to the FY 2019 estimate. The primary cause of the increase is that there is no change in the estimated reconciliation payment for SFY 2017 in FY 2020. See the table below for further explanation.

|                       | FY 2018<br><u>Actual</u> | FY 2019<br><u>Rebase</u> | FY 2020<br><u>Request</u> | FY 2020<br><u>Change</u> |

**MEDICAID ADMINISTRATIVE CLAIMING (MAC) PROGRAM DESCRIPTION/BACKGROUND**

The Federal government permits state Medicaid agencies to claim reimbursement for activities that are necessary for the proper and efficient administration of the Medicaid state plan. Children receiving appropriate health services are better prepared to succeed in school, and in life, since poor health can interfere with the learning process.

The program, which was initiated in May 1997, reimburses LEAs for the cost of administrative activities, such as outreach, which support the Medicaid program. Schools are often involved in informing families of their potential eligibility for Medicaid or in helping them arrange medical appointments for the children. These activities are considered “administrative,” and schools are able to receive reimbursement through Medicaid.

In May 2003, CMS published a comprehensive guide, entitled: “Medicaid School-Based Administrative Claiming Guide.” The purpose of the guide was to inform schools, state Medicaid agencies, and other interested parties on the appropriate methods for claiming federal reimbursement for the costs of Medicaid administrative activities performed in the school setting.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**SCHOOL BASED SERVICES**

The CMS guide, which was effective October 1, 2003, contains many significant changes related to the definition of claimable administrative costs and the time study procedure. AHCCCS experienced a significant decrease in claims following implementation of the guide.

**MAC METHODOLOGY**

MAC expenditures have been volatile since FY2005; therefore, AHCCCS assumed the MAC cost to be maintained at the FY 2018 amount for both FY 2019 and FY 2020.

**FY 2020 MAC EXPENDITURES**

The following table summarizes cost estimates (Federal share only):

|              | FY 2018<br><u>Actual</u> | FY 2019<br><u>Rebase</u> | FY 2020<br><u>Request</u> | FY 2020<br><u>Change</u> |

**Notes:**

- (1) DSC (Direct Service Claims)  
 Beginning SFY 16, Direct Services for Acute and LTC are both paid as AHCCCS Fund 2120. PMMIS actuals may not match AFIS. Expenditure forecasts assume an inflation factor applied every October based on the average expenditures from October 2017 through June 2018. The inflation factor of 2.7% is derived from the I.H.S. Global Insights Hospital Market Basket Inflation Forecast.
- (2) MAC (Medicaid Administrative Claiming)  
 SFY19-20 estimates assume a 0.0% annual change due to continued volatility in the expenditure trend.
- (3) Reconciliation payments are related to the reimbursement methodology change on July 1, 2011 and are expected to occur annually.
- (4) Amounts are Federal Funds only.

**FISCAL YEAR 2020  
BUDGET JUSTIFICATION**

**AFFORDABLE CARE ACT**

**MEDICAID ELIGIBILITY EXPANSION – NEWLY ELIGIBLE ADULTS**

On March 23, 2010, President Obama signed into law the Patient Protection and Affordable Care Act (ACA). The ACA includes the largest eligibility expansion in the history of the Medicaid program. Beginning in 2014, the ACA extends Medicaid coverage to all individuals between ages 19 and 64 with incomes up to 133% of FPL. Note that the ACA also includes an eligibility “simplification” by relying on a single “Modified Adjusted Gross Income” (MAGI) standard for determining eligibility which, in the case of Arizona, effectively makes the new standard 138% of FPL.

Laws 2013, First Special Session, Chapter 10 established a new a new category of eligibility for persons between 100%-133% FPL and established the Hospital Assessment Fund as the state match source for the Proposition 204 and Newly Eligible Adult populations, when necessary.

The estimated cost of adult expansion for SFY 2016 was \$405,687,600 Total Fund. This program was funded with 100% federal funds through December 31, 2016. Beginning January 1, 2017, the federal matching rate decreased to 95% and decreased again to 94% on January 1, 2018 and will decrease to 93% on January 1, 2019. For SFY 2019 costs are estimated at \$509,111,400 (\$27,414,800 SM from Hospital Assessment, \$136,200 from Political Subdivisions/APSI, and \$3,864,200 from General Fund). For SFY 2020, the cost of this program is estimated at \$519,907,300 Total Fund (\$36,608,600 SM from Hospital Assessment, \$179,900 from Political Subdivisions/APSI, and \$5,214,100 from General Fund).

**Newly Eligible Adults - Methodology**

After a lower than anticipated initial presentation rate, capitated members grew rapidly during SFY 2015 and SFY 2016. Growth leveled off in SFY 2017, however, and it is believed that enrollment in this program has reached saturation. For this reason, we are projecting growth in member months to experience no growth starting in September 2018.

The following assumptions were employed in the FY20 Budget Development:

- 1) AHCCCS has experienced some births within this population, even though, once reported, the individual will be shifted to the SOBRA Pregnant women category. Births were projected using a 72 month regression of combined births for Traditional, Prop. 204, Newly Eligible Adults, and Newly Eligible Children and then split percentage-wise based on the percentage that each program represented of total birth for SFY 2018.
- 2) The Fee-for-Service costs for newly eligible adults being served through the AIHP are based on the average PMPMs for both IHS Facilities and Non-Facilities, based on January 2018 through June 2018, and October 2017 through June 2018, respectively. The average IHS Facility rate of \$563.00 is increased by 7.40%, the weighted inpatient/outpatient IHS Facility inflation rate, in January of FY 2019 and FY 2020. The average Non-Facility rate of \$264.95 is increased by 2.7% in October FY 2018 and 2019; this is based on the weighted inpatient/outpatient Prop. 204 IHS Non-Facility inflation rates for Prop. 204. The total FFS estimate includes Prior Quarter.
- 3) Arizona Department of Corrections and County inmates are now included in Non-IHS FFS and the AHCCCS share is paid with 100% federal dollars. For this reason the overall FMAP for Non-IHS FFS is different from NEA FMAPs for other FFS categories.
- 4) Childless Adult FES is included in this eligibility category since this population was not previously eligible for services prior to the expansion. FES Other includes Expansion State Adults as well as Newly Eligible Adults. Total expenditures are based on the combined monthly forecast growth rates of NEA member months and medical cost inflation.
- 5) Reinsurance estimates for the NEA population are based on the average PMPM for this population for CY 2018 (YTD) of \$9.47 inflated by 2.7% (Annualized weighted market basket of Global Insight's hospital inflation factors from QE 6/30/16 to QE 6/30/20) in October 2018 to \$9.72 and then by an additional 2.7% to \$9.98 in October 2019.

**CAPITATION RATES**

**CAPITATION RATES**

**Capitation Rates**

Overall Acute Capitation rates for CYE 2019 are increasing by 1.9% over the blended rates for CYE 2018 that took effect January 1, 2018. CYE 2019 capitation rates were developed as a rate update from the previously submitted CYE 2018 capitation rates.

Primary drivers of the CYE 2019 rates include:

- The medical trend analysis used historical yearly encounter data for the time period October 1, 2014 through September 30, 2017 with adjustments for completion factors, historical programmatic changes, and historical provider fee-for-service rate schedule changes. Net of capitation rebasing and other miscellaneous adjustments, medical trend including both utilization and unit cost trends and accounted for 0.4% (40 basis points) of the total acute rate increase.
- Reinsurance rebasing and prescription drug adjustments resulted in an increase of 0.7% (70 basis points)
- Fee schedule changes (excluding Prop 206 Adjustment) resulted in an increase of 0.4% (40 basis points)
- Differential Adjusted Payments (above CYE 18; excluding 2.5% Hospital DAP) resulted in an increase of 0.2% (20 basis points)
- Hemophilia Factor Pricing Change resulted in an increase of 0.1% (10 basis points)
- Applied Behavior Analysis Utilization resulted in an increase of 0.1% (10 basis points)

**AFFORDABLE CARE ACT  
NEWLY ELIGIBLE ADULTS**

**FISCAL YEAR 2020  
BUDGET JUSTIFICATION**

Anticipating that the Newly Eligible Adults population would differ from the current risk groups, AHCCCS actuaries established a new risk group and capitation rate for this population. Beginning October 1, 2017, NEA capitation rates will include a component for the Access to Professional Services Initiative (APSI), which funds a 40% increase to select qualified physicians and non-physician professionals affiliated with designated teaching hospitals. The State Match for these payments is provided by Intergovernmental Transfers (IGTs) from Political Subdivisions.

Capitation rates for this program, including APSI, are shown in the table below:

| Newly Eligible Adults Prospective Rates |          |           |           |                               |                          |

**AFFORDABLE CARE ACT  
NEWLY ELIGIBLE ADULTS**

**FISCAL YEAR 2020  
BUDGET JUSTIFICATION**

**ACA HEALTH INSURER FEE**

The ACA includes an \$8.0 billion fee on the health insurance industry beginning in 2014. This health insurer fee (HIF) increases to \$14.3 billion by 2018 and is then indexed to the rate of premium growth thereafter as shown in the table below. The previous 2017 fee amount does not shift to 2018; the applicable amount for fee year 2018 remains at \$14.3 billion (see Treas. Reg. § 57.4(a)(3)).

| Fee Year            | Applicable Amount  |
|---------------------|--|
| 2014                | \$ 8,000,000,000   |
| 2015                | \$11,300,000,000   |
| 2016                | \$11,300,000,000   |
| 2017                | HIF Moratorium   |
| 2018                | \$14,300,000,000   |
| 2019                | HIF Moratorium   |
| 2020 and thereafter | The applicable amount in the preceding fee year increased by the rate of premium growth (within the meaning of section 36B(b)(3)(A)(ii). |

The fee is considered an excise tax and is nondeductible for income tax purposes. CMS mandates actuarially sound Medicaid managed care capitation rates that allow participating insurers to cover projected expenses. Therefore this fee impacts Medicaid managed care expenditures.

The CMS currently approved payment methodology for this fee is a mass adjustment to capitation payments. It is anticipated that, most if not all, health plans will get tax filing extensions. As a result, AHCCCS makes one payment in the fall that includes an estimate for the tax liability. If there is a material difference in the final tax filings an additional adjustment is made.

The FMAP applied is the FMAP in effect for the month of the capitation adjustment. The payments made in FY 2018 (for the Calendar Year 2017 fee) adjusted capitation for October 2016 and used the FMAP in effect on that date. There was no payment in FY 2018 because the Consolidated Appropriations Act of 2016, Title II, § 201, Moratorium on Annual Fee on Health Insurance Providers, suspended collection of the health insurance provider fee for the 2017 calendar year. Health insurers are not required to pay these fees for calendar year 2017, they are, however, required to pay these fees for calendar year 2018 which will impact the SFY 2019 budget.

Continuing resolution H.R. 195 §4001 amending Sec. 4191(c)), which was signed by Pres. Trump on January 23, 2018, suspended collection of the health insurance provider fee for the 2019 calendar year. This means that there will be no payment for SFY 2020.

**AFFORDABLE CARE ACT  
NEWLY ELIGIBLE ADULTS**

**FISCAL YEAR 2020  
BUDGET JUSTIFICATION**

In total funds, the Medicaid system paid \$123.7 million in FY 2018 for the 2017 Fee Year. As noted above, there will be no HIF payments in FY 2019 or for FY 2020.

The FY 2018 impact of this fee for Proposition 204 was \$7,464,200 Total Fund (\$373,200 State Match).

**FQHC Recon:**

MCOs are required to pay the Prospective Payment System (PPS) rate to FQHC/RHCs in most cases. For dual eligibles, however, MCOs pay the lesser of the Medicare and PPS rate. Since FQHC/RHCs are entitled to Medicaid reimbursement up to the PPS rate, AHCCCS completes a reconciliation process that results in payment of the additional incremental cost. There are also other instances in which the FQHC/RHC provides services for which they are entitled to Medicaid reimbursement, but the MCO's encounter was not approved for payment. Through the reconciliation process, FQHC/RHCs would also receive the PPS rate for any allowable visits not otherwise paid. The reconciliation amount for CYE 2016 paid in SFY 2018 was \$25M. The projected reconciliation amounts for CYE 2017 to be paid in SFY 2019 and CYE 2018 to be paid in SFY 2020 are \$35M in each year. The reconciliation amount is increasing from CYE 2016 to CYE 2017 because the PPS rates were rebased, resulting in increases, effective October 1, 2016. The resulting total fee-for-services estimates for the FQHC Recon are \$2,001,400 Total Fund, consisting of \$1,861,300 Federal Fund and \$140,100 General Fund for FY 2019 and \$2,001,400, consisting of \$1,801,200 Federal Fund and \$200,200 General Fund for FY 2020.

**Newly Eligible FMAP**

Beginning in January 2017 the Newly Eligible Adults FMAP will no longer be 100%. For each Calendar Year after 2007, the Newly Eligible FMAP is decremented by 1 percentage point, until 2020 when it has a final reduction of 3 percentage points to a floor of 90%.

**Performance Measures to quantify the success of the solution:**

- AHCCCS member enrollment in Newly Eligible Adults.
- Maintain the % of overall Health Plan compliance with key indicators at  $\geq 99\%$ .

FISCAL YEAR 2020

BUDGET JUSTIFICATION

MEDICAID BEHAVIORAL HEALTH - TRADITIONAL

## **MEDICAID BEHAVIORAL HEALTH - TRADITIONAL**

### **TRADITIONAL**

#### **PROGRAM DESCRIPTION:**

The Medicaid Behavioral Health – Traditional program provides behavioral health services to Title XIX-eligible clients. The program includes the following populations:

- Children less than 1, up to 140% Federal Poverty Level (FPL)
- Children aged 1-18, up to 133% FPL
- Pregnant women, up to 150% FPL
- Aged, blind, and disabled adults, up to 75% FPL
- Parents, up to 22% FPL
- Women diagnosed with breast or cervical cancer, up to 250% FPL
- Individuals aged 16-64 receiving Supplemental Security Income, up to 250% FPL

Funding is included for three different service categories:

- Serious Mental Illness (SMI)
- Children’s Behavioral Health (CBH) or Serious Emotional Disturbance (SED)
- General Mental Health and Substance Abuse (GMH/SA)

Specific covered services include mental health and substance abuse related treatment, rehabilitation, medical, support, crisis intervention, inpatient, residential, and day program services. Effective July 1, 2016 this program transferred from the Arizona Department of Health Services (ADHS) to the Arizona Health Care Cost Containment System (AHCCCS). Effective July 1, 2018, in preparation for AHCCCS Complete Care, the Behavioral Health line item funding has been merged with the Acute Care appropriations.

FISCAL YEAR 2020

MEDICAID BEHAVIORAL HEALTH - TRADITIONAL

BUDGET JUSTIFICATION

### **AHCCCS Complete Care (ACC) Integration**

AHCCCS Complete Care begins on October 1, 2018. This new integrated system will join physical and behavioral health services together to treat all aspects of our members' health care needs under a chosen health plan. AHCCCS Complete Care encourages more coordination between providers within the same network which can mean better health outcomes for members.

On March 5, 2018, AHCCCS awarded managed care contracts to seven integrated managed care organizations (MCO's) that will coordinate the provision of physical and behavioral health care services. Integrated health care delivery benefits members by aligning all physical and behavioral health services under a single plan. With one plan, one provider network and one payer, health care providers are better able to coordinate care and members can more easily navigate the system, both of which ultimately improve health outcomes.

Most adults and children on AHCCCS will be enrolled with ACC Plans, including members currently enrolled in CRS. RBHAs will no longer serve most adults and children. This is because behavioral health services will be provided by the ACC Plan. RBHAs will continue to provide crisis, grant funded and state-only funded services. RBHAs will also continue to serve:

- Foster children enrolled in CMDP, including those CMDP members who have a CRS condition.
- Members enrolled with DES/DDDD.
- Individuals determined to have a Serious Mental Illness.

Capitation rates for most adult and children members will now be a fully integrated rate that will cover physical health, behavioral health, and CRS (if applicable).

As part of the ACC implementation, AHCCCS risk pools have been modified and simplified. For details, please see the supplemental population tables in the Traditional Medicaid and Proposition 204 sections.

For more information on integration and the ACC changes, including a comprehensive list of FAQs, please visit the AHCCCS Website: <https://www.azahcccs.gov/AHCCCS/Initiatives/AHCCCSCompleteCare/>

BUDGET JUSTIFICATION

## **CLAWBACK**

### **PROGRAM DESCRIPTION:**

The Medicaid Behavioral Health – Clawback program is appropriated within the Traditional Behavioral Health line item and provides funding for prescription drug coverage to Medicaid recipients who are Medicare eligible (dual eligible members). The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA) established the Medicare Part D prescription drug program for this population. The new benefit resulted in a reduction to capitation rates and fee-for-service payments by offsetting the cost of drugs covered by states, but states have to reimburse the federal government for the savings according to a prescribed formula via “clawback” payments.

The Centers for Medicare and Medicaid Services (CMS) only bills one rate for all full benefit dual eligible members, regardless of the program within which members are enrolled. The cost of the clawback payments is allocated to each program, including Acute Care, Behavioral Health, Arizona Long Term Care System (ALTCs), and the Division of Developmental Disabilities (DDD).

Effective July 1, 2016 this program transferred from the Arizona Department of Health Services (ADHS) to the Arizona Health Care Cost Containment System (AHCCCS). Refer to the section labeled “Traditional Clawback” for more detail.

MEDICAID BEHAVIORAL HEALTH – CMDP

## **MEDICAID BEHAVIORAL HEALTH – CMDP**

### **PROGRAM DESCRIPTION:**

The Medicaid Behavioral Health – Comprehensive Medical and Dental Program (CMDP) provides behavioral health services to foster children under the jurisdiction of the Arizona Department of Child Safety (ADCS). Specific covered services include mental health and substance abuse related treatment, rehabilitation, medical, support, crisis intervention, inpatient, residential, and day program services.

The CMDP program provides full coverage for medical, dental, and behavioral health services. Currently, the ADCS administers acute care services by directly contracting with providers. Funding for acute services is included in the Traditional Medicaid line-item. Behavioral health services have been administered by the Arizona Department of Health Services (ADHS) through its Regional Behavioral Health Authorities (RBHAs), who subcontract with providers. Effective July 1, 2016 this program transferred from the ADHS to the Arizona Health Care Cost Containment System (AHCCCS). Effective July 1, 2018, in preparation for AHCCCS Complete Care, the Behavioral Health line item funding has been merged with the Acute Care appropriations.

### **AHCCCS Complete Care (ACC) Integration**

AHCCCS Complete Care begins on October 1, 2018. This new integrated system will join physical and behavioral health services together to treat all aspects of our members' health care needs under a chosen health plan. AHCCCS Complete Care encourages more coordination between providers within the same network which can mean better health outcomes for members.

On March 5, 2018, AHCCCS awarded managed care contracts to seven integrated managed care organizations (MCO's) that will coordinate the provision of physical and behavioral health care services. Integrated health care delivery benefits members by aligning all physical and behavioral health services under a single plan. With one plan, one provider network and one payer, health care providers are better able to coordinate care and members can more easily navigate the system, both of which ultimately improve health outcomes.

Most adults and children on AHCCCS will be enrolled with ACC Plans, including members currently enrolled in CRS. RBHAs will no longer serve most adults and children. This is because behavioral health services will be provided by the ACC Plan. RBHAs will continue to provide crisis, grant funded and state-only funded services. RBHAs will also continue to serve:

- Foster children enrolled in CMDP, including those CMDP members who have a CRS condition.
- Members enrolled with DES/DDDD.

DATE PREPARED

08/27/18

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**MEDICAID BEHAVIORAL HEALTH – CMDP**

- Individuals determined to have a Serious Mental Illness.

Capitation rates for most adult and children members will now be a fully integrated rate that will cover physical health, behavioral health, and CRS (if applicable).

As part of the ACC implementation, AHCCCS risk pools have been modified and simplified. For details, please see the supplemental population tables in the Traditional Medicaid and Proposition 204 sections.

For more information on integration and the ACC changes, including a comprehensive list of FAQs, please visit the AHCCCS Website: <https://www.azahcces.gov/AHCCCS/Initiatives/AHCCCSCompleteCare/>

FISCAL YEAR 2020

BUDGET JUSTIFICATION

**PROPOSITION 204 BEHAVIORAL HEALTH**

**PROPOSITION 204 BEHAVIORAL HEALTH**

**PROGRAM DESCRIPTION:**

The Medicaid Behavioral Health – Proposition 204 program provides behavioral health services to Title XIX-eligible clients. It covers individuals with incomes that exceed the income limits for the Traditional population, but are below 100% of the Federal Poverty Level (FPL). Enrollment in the program was frozen on July 8, 2011. The freeze ended when the Affordable Care Act (ACA) was implemented, effective January 1, 2014.

Funding is included for three different service categories:

- Serious Mental Illness (SMI)
- Children’s Behavioral Health (CBH) or Serious Emotional Disturbance (SED)
- General Mental Health and Substance Abuse (GMH/SA)

Specific covered services include mental health and substance abuse related treatment, rehabilitation, medical, support, crisis intervention, inpatient, residential, and day program services. Effective July 1, 2016, this program transferred from the Arizona Department of Health Services (ADHS) to the Arizona Health Care Cost Containment System (AHCCCS). Effective July 1, 2018, in preparation for AHCCCS Complete Care, the Behavioral Health line item funding has been merged with the Acute Care appropriations.

**AHCCCS Complete Care (ACC) Integration**

AHCCCS Complete Care begins on October 1, 2018. This new integrated system will join physical and behavioral health services together to treat all aspects of our members’ health care needs under a chosen health plan. AHCCCS Complete Care encourages more coordination between providers within the same network which can mean better health outcomes for members.

On March 5, 2018, AHCCCS awarded managed care contracts to seven integrated managed care organizations (MCO’s) that will coordinate the provision of physical and behavioral health care services. Integrated health care delivery benefits members by aligning all physical and behavioral health services under a single plan. With one plan, one provider network and one payer, health care providers are better able to coordinate care and members can more easily navigate the system, both of which ultimately improve health outcomes.

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**PROPOSITION 204 BEHAVIORAL HEALTH**

Most adults and children on AHCCCS will be enrolled with ACC Plans, including members currently enrolled in CRS. RBHAs will no longer serve most adults and children. This is because behavioral health services will be provided by the ACC Plan. RBHAs will continue to provide crisis, grant funded and state-only funded services. RBHAs will also continue to serve:

- Foster children enrolled in CMDP, including those CMDP members who have a CRS condition.
- Members enrolled with DES/DDDD.
- Individuals determined to have a Serious Mental Illness.

Capitation rates for most adult and children members will now be a fully integrated rate that will cover physical health, behavioral health, and CRS (if applicable).

As part of the ACC implementation, AHCCCS risk pools have been modified and simplified. For details, please see the supplemental population tables in the Traditional Medicaid and Proposition 204 sections.

For more information on integration and the ACC changes, including a comprehensive list of FAQs, please visit the AHCCCS Website: <https://www.azahcccs.gov/AHCCCS/Initiatives/AHCCCSCompleteCare/>

**STATUTORY AUTHORITY:**

- Laws 2001, Chapter 344.
- Laws 2015, Chapter 19.
- Laws 2015, Chapter 195.
- A.R.S. Title 36, Chapter 34, Article 1.

FISCAL YEAR 2020

BUDGET JUSTIFICATION

MEDICAID BEHAVIORAL HEALTH – EXPANSION

## **MEDICAID BEHAVIORAL HEALTH – EXPANSION**

### **PROGRAM DESCRIPTION:**

The Medicaid Behavioral Health – Expansion program provides behavioral health services to Title XIX-eligible clients. Under the Affordable Care Act (ACA), it covers adults with incomes from 100% to 133% of the Federal Poverty Level (FPL), who are not eligible for another Medicaid program.

Funding is included for three different service categories:

- Serious Mental Illness (SMI)
- Children’s Behavioral Health (CBH) or Serious Emotional Disturbance (SED)
- General Mental Health and Substance Abuse (GMH/SA)

Specific covered services include mental health and substance abuse related treatment, rehabilitation, medical, support, crisis intervention, inpatient, residential, and day program services. Effective July 1, 2016, this program transferred from the Arizona Department of Health Services (ADHS) to the Arizona Health Care Cost Containment System (AHCCCS). Effective July 1, 2018, in preparation for AHCCCS Complete Care, the Behavioral Health line item funding has been merged with the Acute Care appropriations.

### **AHCCCS Complete Care (ACC) Integration**

AHCCCS Complete Care begins on October 1, 2018. This new integrated system will join physical and behavioral health services together to treat all aspects of our members’ health care needs under a chosen health plan. AHCCCS Complete Care encourages more coordination between providers within the same network which can mean better health outcomes for members.

On March 5, 2018, AHCCCS awarded managed care contracts to seven integrated managed care organizations (MCO’s) that will coordinate the provision of physical and behavioral health care services. Integrated health care delivery benefits members by aligning all physical and behavioral health services under a single plan. With one plan, one provider network and one payer, health care providers are better able to coordinate care and members can more easily navigate the system, both of which ultimately improve health outcomes.

Most adults and children on AHCCCS will be enrolled with ACC Plans, including members currently enrolled in CRS. RBHAs will no longer serve most adults and children. This is because behavioral health services will be provided by the ACC Plan. RBHAs will continue to provide crisis, grant funded and state-only funded services. RBHAs will also continue to serve:

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

**MEDICAID BEHAVIORAL HEALTH – EXPANSION**

- Foster children enrolled in CMDP, including those CMDP members who have a CRS condition.
- Members enrolled with DES/DDDD.
- Individuals determined to have a Serious Mental Illness.

Capitation rates for most adult and children members will now be a fully integrated rate that will cover physical health, behavioral health, and CRS (if applicable).

As part of the ACC implementation, AHCCCS risk pools have been modified and simplified. For details, please see the supplemental population tables in the Traditional Medicaid and Proposition 204 sections.

For more information on integration and the ACC changes, including a comprehensive list of FAQs, please visit the AHCCCS Website: <https://www.azahcccs.gov/AHCCCS/Initiatives/AHCCCSCompleteCare/>

**STATUTORY AUTHORITY:**

COMPREHENSIVE MEDICAL AND DENTAL PLAN

## COMPREHENSIVE MEDICAL AND DENTAL PLAN

### PROGRAM DESCRIPTION:

The Comprehensive Medical and Dental Program (CMDP) is the health plan responsible for ensuring, in partnership with foster care providers, the provision of appropriate and quality health care services for the well-being of Arizona's children in foster care. For those children in foster care, not qualifying for long-term care services, who are Title XIX or KidsCare eligible, CMDP is also the assigned AHCCCS health plan. CMDP pays for health care services for Arizona's children in foster care placed in and outside of the state of Arizona and cares for children and youth in out-of-home placement from birth to 18 years, and up to age 21 in rare instances when the member is not Title XIX eligible. CMDP is a program within the Arizona Department of Economic Security (DES), Division of Children, Youth and Families (DCYF) formed in July 1970 by state law (A.R.S. 8-512).

The SFY18 budget appropriated acute care funding for this population within the Traditional Medical Services line and behavioral health funding with the Medicaid Behavioral Health CMDP line. Beginning in SFY19, to reflect AHCCCS's new integration of care contracts, funding was consolidated under the CMDP line. Beginning in SFY19, AHCCCS will contract with "AHCCCS Complete Care" health plans for services covering the full spectrum of physical and behavioral health services for most populations including CMDP.

Effective October 1, 2018, several significant program changes will take place in order to integrate the provision of physical and behavioral health services by MCOs. Capitation rates for these programs were developed as integrated rates. In addition to physical health services, DCS/CMDP now covers services previously provided under the Children's Rehabilitative Services (CRS) program. All behavioral health services will be provided by the RBHAs, including those for members previously enrolled in CRS.

DATE PREPARED

08/27/18

**CMDP Budget Methodology:**

***Member Growth***

The following table shows actual and projected member months for CMDP as of June of each year for FY 2018 through FY 2020.

| <b>Fiscal Year</b>    | <b>Total CMDP</b> |
|-----------------------|-------------------|
| June 2018 (actual)    | 14,451            |
| June 2019 (projected) | 13,568            |
| June 2020 (projected) | 13,516            |

Member months are forecast based on an estimated 0.39% annual percent decrease provided to AHCCCS by DCS.

***CMDP Rates***

The changes in rates for SFY 2018 through SFY 2020 are shown below. To be consistent with the rate structure of other AHCCCS managed care programs under AHCCCS Complete Care (ACC), a separate prior period capitation rate was not developed for the CMDP for CYE 19. Prior to this, rates had been set separately for prospective and prior period.

| CAPITATION RATES    |            |
|---------------------|------------|
| Rate Period         | CMDP Rates |
| 2018 (Eff. 7/1/18)  | \$279.18   |
| 2019 (Eff. 10/1/18) | \$298.38   |
| 2019 (Eff. 7/1/19)  | \$302.09   |
| 2020 (Eff. 10/1/19) | \$305.84   |

FISCAL YEAR 2020  
BUDGET JUSTIFICATION

COMPREHENSIVE MEDICAL AND DENTAL PLAN

The overall rate adjustment for CMDP in CYE 2019 is an increase of 23.2% from the most recently submitted rates effective January 1, 2018. Several factors contributed to this increase:

- 7.2 percentage points are attributable to rebasing gross medical expenses to reflect the more current actual experience of the program. The observed increase in expenses is likely attributable to higher utilization resulting from the care management “onboarding” initiative by CMDP to ensure new members receive timely services, as well as the potential higher acuity of current CMDP members.
- 6.2 percentage points are attributable to benefit cost assumptions, including utilization and unit cost trends.
- 6.8 percentage points are attributable to recognition of care management costs as a non-benefit cost component of the CMDP rate. Previous rate certifications for CMDP did not discretely identify and fund allowable care management activities performed by CMDP program staff. DCS/CMDP has since identified the costs of specific care management activities, which are now included in the capitation rate.
- 1.7 percentage points are attributable to increased administrative expenses, including spreading fixed administrative costs across fewer member months.
- 1.3 percentage points are attributable to the addition of care management and administrative expenses associated with the anticipated transition of Children’s Rehabilitative Services (CRS) activities to CMDP, effective October 1, 2018. In advance of the programmatic transition, CMDP is required to hire and train staff for this purpose, effective July 1, 2018.

The CYE 2019 rate increase of 23.2% is in contrast to rate decreases of -9.4% in CYE 2017 and -3.3% in CYE 2018. In the same period July 2016 to April 2018, enrollment in CMDP has declined by -19.6%.

The significant contraction of program membership in a short period of time means that fixed administrative and care management costs are now spread out across fewer member months, and so reflect a higher proportion of the overall capitation rate. The steep decline in membership has also resulted in more volatility in medical expenses due to changes in the acuity mix within a smaller risk group.

FISCAL YEAR 2020

BUDGET JUSTIFICATION

COMPREHENSIVE MEDICAL AND DENTAL PLAN

**FMAP:**

It is assumed that the FMAP will decrease from 69.81% in FFY 2018 to 69.48% in FFY 2020 based on Federal Funds Information for States (FFIS) in Issue Brief 18-11 (March 23, 2018).

| FFY                    | FMAP   |
|------------------------|--------|
| Oct. 2017 – Sept. 2018 | 69.89% |
| Oct. 2018 – Sept. 2019 | 69.81% |
| Oct. 2019 – Sept. 2020 | 69.48% |

**PROPOSED SOLUTION:**

AHCCCS is requesting decrease of \$3,713,600 Total Fund (\$655,400 General Fund decrease) for the Comprehensive Medical and Dental Plan (DCP) compared to the FY 2019 appropriation.

**Performance Measures to quantify the success of the solution:**

- AHCCCS member enrollment in CMDP.
- Maintain the % of overall Health Plan compliance with key indicators at  $\geq 99\%$ .

**Statutory Authority:**

A.R.S. Chapter 4, Article 4, 8-512.

FISCAL YEAR 2020

BUDGET JUSTIFICATION

BEHAVIORAL HEALTH SERVICES IN SCHOOLS

### BEHAVIORAL HEALTH SERVICES IN SCHOOLS

#### PROGRAM DESCRIPTION:

Laws 2018, Chapter 276, Section 10 included a \$9,943,700 Total Fund (\$3,000,000 General Fund) appropriation to fund increased behavioral health services in schools. The targeted services are in addition to any existing behavioral health services provided, including those provided to students with disabilities under the state's School Based Services program.

AHCCCS is committed to improving access to behavioral health services for school aged children through this appropriation. AHCCCS is entering into an intergovernmental agreement with the Department of Education for administration of \$1 million of the state appropriation for Mental Health First Aid training to increase the awareness and understanding of mental health conditions and how to respond. AHCCCS is utilizing the remainder of the allocation to increase capitation rates to contractors who are responsible for behavioral health services for school age children to increase access to behavioral health services that are directly provided in schools through our behavioral health providers. In concert with these efforts, AHCCCS is also evaluating how to maximize the school based services program for children who have an individual education plan (IEP), including requesting the approval from Center for Medicare and Medicaid (CMS) for expansion of the provider types permitted to bill for services under this program.

AHCCCS requests continuation of this funding in FY 2020.
