42 CFR 457.340(b)

Social Security Number

As a condition of eligibility, the CHIP Agency must require individuals who have a social security number or are eligible for one as determined by the Social Security Administration, to furnish their social security number, or numbers if they have more than one number.

☐ The CHIP Agency requires individuals, as a condition of eligibility, to furnish their social security number(s), with the following exceptions:

- Individuals refusing to obtain a social security number (SSN) because of well established religious objections, or
- Individuals who are not eligible for an SSN, or
- Individuals who are issued an SSN only for a valid non-work purpose.

☐ The CHIP Agency informs individuals required to provide their SSN:

- By what statutory authority the number is solicited; and
- How the state will use the SSN.

The CHIP Agency provides assurance that it will verify each SSN furnished by an applicant or beneficiary with the Social Security Administration, not deny or delay services to an otherwise eligible applicant pending issuance or verification of the individual's SSN by the Social Security Administration and that the state's utilization of the SSNs is consistent with sections 205 and 1137 of the Social Security Act and the Privacy Act of 1974.

Section 2102(b)(3)(C) of the SSA and 42 CFR 457.340(d)(3), 457.350(i), and 457.805

Substitution of Coverage

☑ The CHIP Agency provides assurance that it has methods and policies in place to prevent the substitution of group health coverage or other commercial health insurance with public funded coverage. These policies include:

☑ Substitution of coverage prevention strategy:

<table>

<tr>
<th>Name of policy</th>

<tbody>
<tr>
<td>Terminated Coverage</td>
<td>The application requests information about health insurance coverage within the past three months. If a child is covered by group health insurance or was covered and the coverage was discontinued, the child is not eligible for KidsCare for a period of 90 days unless the child meets one of the exceptions below.</td>
</tr>
<tr>
<td>Current Insurance Coverage</td>
<td>Arizona contracts with Health Management System (HMS) to identify and verify health insurance coverage. If HMS verifies a child has health insurance coverage, staff are notified and coverage is discontinued.</td>
</tr>
<tr>
<td>Current Insurance Coverage</td>
<td>The application requests information about health insurance coverage. If the application indicates the child has health insurance coverage, staff verify the type of coverage. If the child has creditable coverage, the application is denied.</td>

</tbody>
</table>

A waiting period during which an individual is ineligible due to having dropped group health coverage.

How long is the waiting period?

☐ One month
☐ Two months
☒ 90 days
☐ Other

☐ The state allows exemptions from the waiting period for the following reasons:

☒ The premium paid by the family for coverage of the child under the group health plan exceeded 5 percent of household income.

☒ The child’s parent is determined eligible for advance payment of the premium tax credit for enrollment in a QHP through the Marketplace because the ESI in which the family was enrolled is determined unaffordable in accordance with 26 CFR 1.36B–2(c)(3)(v).
CHIP Eligibility

- The cost of family coverage that includes the child exceeded 9.5 percent of the household income.
- The employer stopped offering coverage of dependents (or any coverage) under an employer-sponsored health insurance plan.
- A change in employment, including involuntary separation, resulted in the child’s loss of employer-sponsored insurance (other than through full payment of the premium by the parent under COBRA).
- The child has special health care needs.
- The child lost coverage due to the death or divorce of a parent.

Does the state allow other exemptions in addition to those listed above? [No]

Describe the processes the state employs to facilitate enrollment of CHIP-eligible children who have satisfied the waiting period.

When the child meets all other conditions of eligibility, eligibility is approved prospective effective the first of the month following the 90 day waiting period.

Describe the processes the state employs to coordinate coverage of children subject to a waiting period with other insurance affordability programs, including safeguards to prevent gaps in coverage for children transitioning from another insurance affordability program to CHIP after satisfying the waiting period.

Children in the 90 day waiting period are referred to the FFM for a determination of APTC eligibility. As stated above, eligibility for CHIP is approved prospective so there is no transition from another IAP to CHIP after satisfying the waiting period.

The state provides assurance that:

- It does not require a new application or the submission of information already provided by the family immediately preceding the waiting period for the purpose of enrolling CHIP-eligible children who have satisfied a waiting period.
- For children subject to the waiting period, it will promptly transfer each individual’s electronic account to the applicable insurance affordability program and notify such program of the date on which the waiting period ends for each individual.

☐ If the state covers pregnant women, the waiting period does not apply to pregnant women.

If the state elects to offer dental only supplemental coverage, the following assurances apply:

☐ The other coverage exclusion does not apply to children who are otherwise eligible for dental only supplemental coverage as provided in section 2110(b)(5) of the SSA.

☐ The waiting period does not apply to children eligible for dental only supplemental coverage.
