K. **Length of Stay Defined**

For purposes of inpatient hospital reimbursement, the length of stay is equal to the total number of calendar days of an inpatient stay beginning with the date of admission and ending with the date of discharge or transfer, but not including the date of discharge or transfer unless the patient expires. A claim for inpatient services with an admission date and discharge date that are the same calendar date will be processed and reimbursed as an outpatient claim, unless the patient expired on the date of discharge.

L. **Documentation and Coding Improvement and Transition Adjustment Factors**

A DCI and transition adjustment factor will be applied to each claim for an inpatient hospital stay. The DCI and transition adjustment factor is a hospital-specific value established to limit the financial impact to individual hospitals of the transition to a DRG payment methodology, by phasing in the impact over two years, with full implementation in the third year, and to account for improvements in documentation and coding that are expected as a result of the transition. The DCI and transition adjustment factors are published as part of the AHCCCS capped fee schedule and posted on the AHCCCS website as of October 1, 2015 at

M. **DRG Final Payment**

The DRG final base payment is the lesser of the DRG initial base payment determined under paragraph G and the DRG transfer payment determined under paragraph I, multiplied by a proration factor if applicable, and further multiplied by the DCI and transition factor. The DRG final outlier add-on payment is the outlier add-on payment determined under paragraph H, multiplied by a proration factor if applicable, and further multiplied by the DCI and transition factor. The DRG final payment amount is equal to the DRG final base payment amount plus the DRG final outlier add-on payment amount.
