**REMARKS:**
E. DRG Base Rate for Out-of-State Hospitals

The DRG base rate for high volume out-of-state hospitals will be calculated in the same manner as for Arizona hospitals, using the Arizona statewide standardized amount. A high volume out-of-state hospital is a hospital that is located in a county that borders the state of Arizona and had 500 or more AHCCCS-covered inpatient days for the fiscal year beginning October 1, 2010. The DRG base rate for all other out-of-state hospitals is posted on the AHCCCS website that is referenced in paragraph D.

F. Policy Adjustors

Where AHCCCS has determined that an adjustment to the base payment is appropriate to ensure access to quality care, a policy adjustor will be applied to the base payment. Firstly, AHCCCS will apply a provider policy adjustor of 1.055 times the base rate to all claims from hospitals that are high volume Medicaid providers. A high volume Medicaid provider is a hospital that had at least 46,112 AHCCCS-covered inpatient days during the fiscal year beginning October 1, 2010 and had a Medicaid utilization rate greater than 30% as reported in the hospital's Medicare Cost Report for the hospital’s cost reporting period ending between January 1, 2011 and December 31, 2011. These calculations include both Fee-For-Service and Managed Care Organization data. Secondly, and in addition to the provider policy adjustor if it applies, Effective January 1, 2017, AHCCCS will apply one of seven service policy adjustors where the claim meets certain conditions. The seven service policy adjustors, the conditions to which they apply, and the adjustment values are described below:

1. Normal newborn DRG codes: 1.55
2. Neonates DRG codes: 1.10
3. Obstetrics DRG codes: 1.55
4. Psychiatric DRG codes: 1.65
5. Rehabilitation DRG codes: 1.65
6. Claims for patients under age 19 assigned DRG codes other than those described in items 1 through 5 above and with severity of illness level 1 or 2: 1.25
7. Claims for patients under age 19 assigned DRG codes other than those described in items 1 through 5 above and with severity of illness level 3 or 4: 1.945
