# Welcome & Introductions

PACIFIC DENTAL SERVICES® FOUNDATION

# Overview

- About Us
- What makes us different
- Opportunity

# About us

- Opened up in March of 2019
- Non-profit
- AHCCCS provider
- Pediatric Dentist
- EPIC

Our team is our number one difference between our office and general population offices. Our team is trained in behavioral techniques to help patients relax and create a positive patient experience. Dr. David Jourabchi, our full time clinician, is a pediatric dentist who also completed a fellowship with Ohio State University where he trained in caring for those with special needs. Our team strives to get to know each patient and create an individualized treatment plan that at times is more in depth than a typical general population office.

One-on-one visits, the patient and team get acquainted and comfortable

Sensory-integrated rooms with televisions on the ceiling

Wheelchair accessible

Room with two chairs to provide space for modeling

Private operatories with a door on each room to allow for an individualized experience

Our team's goal is to fit in the patient's theoretical box and ensure they never feel confined to one that isn't the right fit

# Opportunities

- Increase access to care
- Improved home care
- Bring visibility to the need
- More funding for this group
