Our group homes are all for medically fragile children. We have a couple of adults. None of our clients are capable of leaving home alone. The majority are non-verbal, non-ambulatory and under the age of 18. Our staff cannot leave the home unless at least 3 clients are away at school or an appointment. We are required to have 1 caregiver for every 3 clients.

Please use the back of this page for additional comments.
We must have a nurse on duty 24/7. These rules are going to be quite difficult to follow in our unique setting. Will there be any exceptions for our homes? We don’t have any clients able to work or be independent in the community. If we have a client who is able to make these sort of choices OBD moves them to a CHT or ADT.

A: Documentation on Plan to show N/A rights members can be engaged in. As long as documented, OK.

If improves will move client so it never applies; still need to incl.

A: Yes.

Many programs will not accept members who
need a 1:1 staff or members with behaviors.
This is very discriminatory. What will these absent
members do on a day to day basis?

How will AHCDS ensure that members and
families are included in workgroups?

Unless developmental homes are run
as a business, the rules for members
living in a home must follow the home
rules. If an allegation of abuse is
reported, the member/s members must leave
unlike a group home, where staff is removed.

Developmental homes are self-monitor.

People under guardianship do not have
the luxury of making many decisions. How
will you deal with a guardian who does
not allow the many choices in the plan?

Q: Minimum wage?

A: Part of discussion but DOL
will oversee, see plan to plan.

Comments/Questions: As a parent, I understand the need for rules to protect our son in the group home setting. The challenge is seeing the amount of time, energy, and money that goes into all the paperwork and documenting that everyone is following the "rules." But the hands-on caregivers working directly with our son are so minimally paid there is very little motivation to provide quality care, and no hope of ever being rewarded if they do provide exceptional care.

✓ Under the new framework for non-residential services - where does the ability to retire become possible, not all our senior's desire to work or volunteer in the community. This also applies to the PCP requirement to have an employment related goal. If a senior has worked for 20 years + wants to retire - will they be allowed to and continue to receive HCBS services.

My daughter started a process to help him get ahead after his doctor is out of high school and he was accepted into the program, but in the meantime, there was no communication from the social worker - so my daughter wanted to find out why there was no feedback and found out that my grandson’s care was about to close without notice. Is this due to the absence of the person in charge or ignorance of this person helping to provide this service? My daughter still wants to hear from them. She attended all these conferences and is a hell for her trying to get services for my grandson. It is a joke. My grandson will require these services for the rest of his life.

Current practice requires ISP meetings to occur in family homes unless compelling info exists to do otherwise. In most contact w/ family members of members living in family homes, there has been no indication that the member or responsible person has first choice in this decision.

A lot of focus on emphasizing member rights, but there is nothing to balance this with the responsibilities of the members.

It seems to be creating more of a system that cannot realistically be staffed by qualified people.

Note: When deciding to de-qualify Beh. Health Residential it was noted that this is different in that it is clinical, aim is to move to a less restricted setting. I find this framing interesting as I would suggest all setting should strive to provide clinical support to teach skills, increase independence and allow for a move to less restricted setting. I would suggest that this may not be the best way to differentiate the settings.

Comments/Questions: How is AHCCCS addressing the concept of settings that have the effect of isolating individuals receiving HCBS from the broader community - e.g., related to Assisted Living, Directed Care, etc. or for residents with secure perimeters, delayed egress - esp for wandering dementia care, memory care. CMS has specifically denied these facilities in California. Need to include 1915-C-Directed Care Svcs and 364010-definition of Directed Care Services (2401.A/L4)

- [ ] Long term care providers - will there be more funding from state to help elderly receive more adequate care?
- [ ] Currently elderly living in assisted living homes don't seem to have option to live with peers who can't communicate (communicating non-verbally) - private pay only
- [ ] Assisted living homes seem to have more caregivers on site than ALTCS contracted homes and have more adequate care.

Virginia Roundtree (Geary) - AHCOS
New Rules from CMS -
Dara Johnson - Prog. Dev. Officer
LTC Care AHCOS
Interesting that Coolidge is being excepted in this state and that is truly a violation of Olmstead!!!

Have you thought about the Law of Intended Consequences?

My daughter will never be able to earn minimum wage and work in the community on her own. What will happen is that she will not have any employment and that's criminal!!!

I am not against having disabled persons working in the community. Indeed, I fought for my daughter to be integrated into the school setting when she was 5. She was the first disabled person integrated into the regular kindergarten in TUSD.

Also 14(c) of the Fair Labor Standards Act is essential for persons like my [redacted]. She will never be able to do the work that a normal person does and therefore, no employer will hire her. If a person is qualified even tho they have a disability of course they should be paid minimum wage or more.

If you think that people like my Jennifer are being exploited then please come to Beacon Group in Phoenix or Tucson. You will quickly see, as did the Governor Doug Ducey, that we are providing a wonderful service; our employees are doing meaningful work and are being paid according to their ability. For my [redacted] that means below minimum wage.
I am [redacted]. I am a parent of a mentally retarded daughter. I am also an attorney.

I QUESTION THE RULE THAT SAYS THAT CENTER BASED EMPLOYMENT SHOULD BE LIMITED. WHY? WHAT IF I AS THE PARENTS WANT CENTER-BASED EMPLOYMENT FOR MY DAUGHTER?

AS HER GUARDIAN I HAVE TOTAL CONTROL OVER DECISIONS THAT ARE MADE FOR HER. THAT'S WHAT BEING A GUARDIAN MEANS. THE PERSON IS NOT CAPABLE OF MAKING THESE DECISIONS FOR HIM/HERSELF

WHERE ARE THESE NEW RULES COMING FROM? WHY?

TOTAL MISREADING AND MISINTERPRETATION OR MISUNDERSTANDING OF OLMSTEAD

THE CASE WAS ABOUT INSTITUTIONALIZATION, I.E. COOLIDGE TYPE FACILITY

RUTH BADER GINSBURG – 'states are required to place persons with mental disabilities in community settings rather than in institutions when the State’s treatment professionals have determined that community placement is appropriate, the transfer from institutional care to a less restrictive setting is not opposed by the affected individual, and the placement can be reasonably accommodated, taking into account the resources available to the State and the needs of others with mental disabilities.'

This case is not about employment and THE FACT THAT it’s being relied on to push community based employment and close center based employment is a gross misuse of this case.

No where in the case does it mandate integration in employment.
On January 16, 2016, the Centers for Medicare and Medicaid Services (CMS) released that the HCBS Rules regarding requirements for home and community-based services (HCBS) providers, as set out in section 1115 of the Social Security Act (SSA), The rules expand requirements for both residential and non-residential settings. The purpose of the rule is to ensure that individuals receiving services are integrated into their communities and have access to the benefits of community living. The rule places broad services that are provided in a members home such as attending care, personal care, homemaking and habilitation services via requiring compliance for all State long-term Care home and community-based settings including programs operated under section 1115 of the SSA (Arizona operates its Medicaid program under an 1115 waiver authority). To that end, AHCCCS has established a plan to comply with the rule on a timeline consistent with its 1116 waiver renewal submission (effective October 31, 2015).

In Arizona, those requirements impact Arizona Long Term Care Services (ALTCS) program members receiving services in the following settings:

- Residential
  - Assisted Living Facilities
  - Group Homes
  - Adult and Child Development Homes
  - Behavioral Health Residential Facilities
- Non-Residential
  - Adult Day Health Programs
  - Case Management and Therapy Programs
  - Center-based Employment Programs
  - Group Supported Employment Programs

For more information on the Home and Community-based Settings Rule and the requirements for State Medicaid Programs please visit the Arizona's Systemic Assessment and Transition Plan.

Arizona's Systemic Assessment and Transition Plan
AHCCCS conducted a preliminary assessment of Arizona’s HCBS settings to determine its level of compliance, provide recommendations for identified variances and outline a process for continuous monitoring. The assessment process included a review of policies, rules policies and contract language. AHCCCS has published its draft assessment of Arizona’s HCBS settings and the draft transition plan is open for public comment. The draft of Arizona’s Systemic Assessment and Transition Plan is linked below

Visit the HCBS Rules website to:

Comments/Questions: The more choices that are available to each member (which I totally support) will require additional staff/resources to facilitate the additional resources that may be required. Will these additional funds be available? There seems to be a significant amount of focus on volunteer positions vs. paid positions - isn't it better for members to be paid for their work and isn't it illegal to have someone do volunteer work.

In lieu of someone who would be paid for the same service. The at Beacon already are spend a significant amount of time working with our members to give them the choices that are available to anyone and to help them work on the barriers that would make it a challenge to work in competitive employment.

If they don't have the $ are the goals attainable?

We are concerned about lack of funding. Will facilities fail or be non-compliant?

ALF's & AFC's may need increase in rates to succeed.

Should we focus on supervisory & personal care for employment in ALF & AFC.

The important thing to consider, through all of this, is that the individual should be able to choose their future — if that is integrated employment and an integrated residential setting, then great; but if someone chooses to work in a center-based, group-supported or individually supported environment, then they should have that option.

1. Can a person choose not to be pressured into transitioning to an integrated work environment? If not, will they be forced into a DTA program?

2. Is there going to be a time limit for a person to be in Center-Based Employment?

3. If the majority of the PCP team decides that the individual should transition to an integrated work environment, but the member and/or guardian wants to remain in Center-Based Employment, will their wishes be considered? Will they matter?

4. If the transition to an integrated work environment is not successful, can the individual immediately return to Center-Based Employment?

5. Who will make up the “cadre” of volunteer certified PCP facilitators? It cannot be a person-centered process if the certified PCP facilitator has predetermined outcomes in mind.

6. Individual rights can be disregarded by the PCP team for health and safety concerns. Will parent concerns regarding their child’s health and safety be given the same weight?

7. Is there going to be a ratio/percentage of an acceptable number of non-disabled individuals working alongside those individuals in Center-Based Employment? If so, can organizations continue to make decisions based upon sound business practices or will we be forced to make decisions based upon arbitrarily defined ratios/percentages? What about background checks and fingerprint clearances for non-disabled individuals?

8. Will the choice of Center-Based Employment or the proposed new “Pre-Employment Service” be limited to certain activities?

I would love to be a volunteer. You need help on an application.

You will face an employee to have community goals whether they can handle it or not. What if they are low functioning?

Your focus is on following rules not serving the needs of the individual.

No one should be in your position unless they have a disabled child.

We did not need to know how to invent the wheel—just there is a wheel! For a forum related to employment, I have spent 15 minutes so far, and now I need to apply the same subject. I look around the room, and all I see is everyone in those faces that are not asleep. 

Please use the back of this page for additional comments.
Finally after one hour, we hear about employment. And the operative word is could---. That leaves a big door that could go either way. This whole subject could have been summed up with---those who can perform in a public environment will be helped, trained, and otherwise assisted to obtain that work. Those who choose not to leave their existing environment or cannot leave will not be forced to leave. Pity the people who enter the system after 2021.

Educating potential employers and peers that are not disabled to work with disabled people. Most disabled people cannot compete with able-bodied workers at the same pay. CBE's have structure, limited destruction. Which makes the disabled able to work and succeed. Would this be available in an integrated work area?
