

AMPM Exhibit 300-1 is **NOT** an all-inclusive list of Covered Services and only addresses services that **DO NOT** have a specific Policy addressing that service. In order to be covered, services shall be medically necessary, cost effective, and federally and state reimbursable as stated in A.A.C. R9, Chapter 22, 28 and 31.

In addition, Title XIX members under the age of 21 are entitled to services provided under the Early and Periodic Screening, Diagnostic and Treatment (EPSDT) Program which includes comprehensive treatment and preventive health care services for both physical and behavioral health conditions and illnesses. For persons eligible for EPSDT, federal law requires coverage of all Medicaid services listed in federal law 42 USC 1396d(a) when the services are medically necessary and cost effective- even if the services are not listed as covered services in the AHCCCS State Plan, AHCCCS statutes, rules, or policies.

Refer to the AMPM Chapter Table of Contents for additional Policies of Covered Services.

HOSPITAL OUTPATIENT -		X	X	X
NEGATIVE PRESSURE WOUND THERAPY		X	X	X
NEUROPSYCHOLOGICAL TESTING		X*	X*	X*
*	A neuropsychological evaluation is not a covered service when: 1. The objective of evaluation is educational planning. The school district is responsible for the cost of evaluation to evaluate conditions such as learning disabilities, 2. The individual has permanent, persistent, and static organic brain dysfunction, and it is unlikely that evaluation results would provide new information that would be utilized to alter the course of treatment or treatment planning, 3. The current condition of the member may render evaluation results invalid due to such conditions as: a. Present substance use or withdrawal, b. Medication regimen that may affect evaluation performance, or c. The primary purpose of evaluation is not related to a treatment plan.			
Neuropsychological evaluation is not a covered service under the physical health condition category when a member has behavioral health disorders that are				

	<p>primarily attributable to organic brain damage that results in higher-level mental organic brain dysfunction. Examples include Mood Disorder, depression with psychosis secondary to traumatic brain injury; Mood Disorder due to Cerebrovascular Accident (CVA) with Major Depressive-Like episode; Inhalant-Induced Persisting Dementia. The service is not reimbursable by Acute Care Contractors. However, ALTCS Contractors or the AHCCCS Administration for FFS members as noted in B (1) may be financially responsible if it is determined that the neuropsychological service is medically necessary and covered under behavioral health.</p> <p>Neuropsychological evaluation is not a covered service under the behavioral health condition category when Organic brain damage or dysfunction is not suspected of contributing to the member's behavioral health disorder, or Behavioral health treatment is not expected to change due to results of neuropsychological testing.</p>
