

May 21, 2024

The Honorable Katie Hobbs
Governor of Arizona
1700 W Washington
Phoenix, Arizona 85007

The Honorable Warren Petersen, President
Arizona State Senate
1700 W Washington
Phoenix, Arizona 85007

The Honorable Ben Toma, Speaker
Arizona House of Representatives
1700 W Washington
Phoenix, Arizona 85007

Dear Governor Hobbs, President Petersen, and Speaker Toma:

Pursuant to A.R.S. 36-2023(C)(6), AHCCCS is required to submit an annual report on its Substance Use Disorder (SUD) treatment programs. This report for 2023's annual reporting includes the names and locations of each program, the amount and sources of funding for each program, the number of clients who received services during the preceding fiscal year, the demographic descriptions of clients served, and a population description of client problems addressed by the programs, including the types of substances used. This report also includes a summary of the numbers and types of services available and provided during the preceding fiscal year and an evaluation of the results achieved by the programs.

If you have any questions regarding this report, please feel free to contact me at (602) 417-4711.

Sincerely,

Carmen Heredia
Cabinet Executive Officer and Executive Deputy Director

Cc: Sarah Brown, Director, Governor's Office of Strategic Planning and Budgeting
Richard Stavneak, Director, Joint Legislative Budget Committee
Zaida Dedolph Picoro, Health Policy Advisor, Office of the Governor

**Annual Report:
Substance Use Treatment Programs
State Fiscal Year 2023**

July 1, 2022 to June 30, 2023

**May 2024
Carmen Heredia, Cabinet Executive Officer
and Executive Deputy Director**

Substance Use Treatment Programs

State Fiscal Year 2023

Background

The Arizona Health Care Cost Containment System (AHCCCS) is the single state Medicaid agency for the State of Arizona. In that capacity, it is responsible for operating the Title XIX and Title XXI programs through the State's 1115 Research and Demonstration Waiver, which was granted by the Centers for Medicare and Medicaid Services (CMS), U.S. Department of Health and Human Services (HHS). As of November 2023, AHCCCS provides coverage to approximately 2.2 million members in Arizona. AHCCCS also administers several Non-Title XIX programs through federal grant funds received from the Substance Abuse and Mental Health Services Administration (SAMHSA) under HHS.

AHCCCS has conducted an assessment of its Substance Use Disorder (SUD) treatment programs and services in accordance with the requirements outlined in Arizona Revised Statutes (A.R.S) §36-2023(C)(6):

Prepare an annual report on drug abuse treatment programs in this state that receive monies from the administration to be submitted by January 1 of each year to the governor, the president of the senate, and the speaker of the house of representatives and to be made available to the general public through the Arizona drug and gang prevention resource center. The report shall include:

- (a) The name and location of each program.*
- (b) The amount and sources of funding for each program.*
- (c) The number of clients who received services during the preceding fiscal year.*
- (d) A description of the demographic characteristics of the client population served by each program, including age groups, gender and ethnicity.*
- (e) A description of client problems addressed by the programs, including the types of substances abused.*
- (f) A summary of the numbers and types of services available and provided during the preceding fiscal year.*
- (g) An evaluation of the results achieved by the programs.*

In preparation of this report, AHCCCS receives updated information on substance use treatment programs and the services they provided within the report period from AHCCCS Complete Care (ACC) Plans, including AHCCCS Complete Care Plans with Regional Behavioral Health Agreements (ACC-RBHAs), and Tribal Regional Behavioral Health Authorities (TRBHAs). Updated information includes but is not limited to provider name and basic information (address, phone number, etc.), levels of care offered (detoxification, residential, outpatient, Medication-Assisted Treatment (MAT), etc.), and funding sources received.

While Title XIX/XXI funds provide for most of the treatment services, several Non-Title XIX/XXI funding sources are utilized to increase and expand services to individuals in need across the state. Funds are used to increase behavioral health services to Medicaid members and provide treatment services to individuals who otherwise would not have access to such care (i.e., uninsured or underinsured). Additionally, they fund critical efforts that remove barriers and create pathways to treatment (e.g., outreach), support retention and success in treatment

Substance Use Treatment Programs State Fiscal Year 2023

(e.g., gender-specific and family and peer support efforts), and prevent overdose deaths through education, access to naloxone, and fentanyl test strips.

In State Fiscal Year 2023, AHCCCS identified significant increases in Medicaid billing for outpatient behavioral health services. The AHCCCS Office of Inspector General and the Arizona Attorney General’s Office launched a multiagency review and investigation of potential fraud, waste, and abuse among behavioral health residential and outpatient behavioral health services. This led AHCCCS to connect the irregular billing patterns of these services with alleged criminal activity targeting Indigenous peoples and other vulnerable Arizonans.

On May 16, 2023, AHCCCS announced payment suspensions due to credible allegations of fraud against more than 100 registered behavioral health providers. Credible evidence established that individuals were targeted and aggressively recruited with false promises of food, SUD treatment services, and housing, only to be taken to locations where providers billed for services that were not provided or were not appropriate or necessary. Hundreds more providers were suspended¹ over the following months and investigations continue.

Utilization data used in this report are for dates of service in State Fiscal Year (SFY) 2023 from July 1, 2022, through June 30, 2023 and were extracted in November 2023. Due to the four-month lag from the last date of service, data may be slightly under-reported. AHCCCS ascertained that system-wide fraud cases impact the data presented in this report.

Location of Substance Use Disorder Treatment Programs

The locations of the state’s SUD treatment programs are divided into three distinct geographic service areas (GSAs) throughout the state with oversight provided by Managed Care Organizations (MCOs), including ACC-RBHAs and TRBHAs. The GSA served by each ACC, ACC-RBHA, and TRBHA are indicated below.

ACC, ACC-RHBA and TRBHA	GSA
Arizona Complete Health - ACC-RHBA	Central & South
Banner University Family Care - ACC	Central & South
Care1st - ACC	Central & North
Gila River Indian Community - TRBHA	Central & South
Health Choice Arizona - ACC	Central & North
Mercy Care - ACC-RHBA	Central
Molina Healthcare - ACC	Central
Pascua Yaqui Tribe - TRBHA	South

¹ See <https://www.azahcccs.gov/Fraud/Providers/actions.html> for a listing of current suspended providers.

Substance Use Treatment Programs State Fiscal Year 2023

UnitedHealthcare - ACC	Central & South
White Mountain Apache Tribe - TRBHA	North & South

The MCOs are required to maintain a comprehensive network of behavioral health providers to deliver intervention, treatment, and/or recovery services to members enrolled in the AHCCCS system. This structure allows communities to provide services in a manner appropriate to meet the unique needs of members and families residing within their local areas. Appendix A lists the names and locations of providers throughout the state who operated an AHCCCS funded Substance Use Treatment Program during SFY 2023. There were approximately 2,415² SUD programs in the State of Arizona, as summarized below.

ACC, ACC-RHBA and TRBHA	Number of Programs
Arizona Complete Health - ACC-RBHA	279
Banner University Family Care - ACC	195
Care1st - ACC	59
Gila River Indian Community - TRBHA	5
Health Choice Arizona - ACC	330
Mercy Care - ACC-RBHA	2,029
Molina Healthcare - ACC	89
Pascua Yaqui Tribe - TRBHA	122
UnitedHealthcare - ACC	63
White Mountain Apache Tribe - TRBHA	3

Program Funding

During SFY 2023, AHCCCS expended more than \$2.2 billion³ for members and families with SUD. Medicaid was the largest source of funding for SUD treatment. Other major sources of funding include the SUBG and federal discretionary funds allocated to the agency.

² As reported by MCOs, ACC-RBHAs, and TRBHAs. There are SUD programs that serve more than one MCO, ACC-RBHA, or TRBHA thus the data in the table will exceed the total number of SUD programs.

³ This number does not include treatment services funded under the SUBG supplemental funds from the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) (period of performance 03/15/2021-03/14/2024) or American Rescue Plan Act (ARPA) (period of performance 09/01/2021-09/30/2025). These funds supported predominantly non-encounterable services and activities supporting SUD treatment and recovery, and are reimbursed through a cost reimbursement mechanism outside of the AHCCCS claims and encounters system.

Substance Use Treatment Programs State Fiscal Year 2023

**Table I: Substance Use Disorder Treatment Funding Summary
SFY 2023 - July 1, 2022 to June 30, 2023**

Fund Source ⁴	Dollar Amount	Percentage
Medicaid Funding (State Match and Title XIX)	\$2,201,890,825	96.8%
Federal: Substance Use Block Grant (SUBG)	\$32,177,625	1.4%
Federal: Other (Discretionary Funds)	\$34,176,469	1.5%
State Appropriated	\$2,796,207	0.1%
Substance Use Disorder Services Fund	\$2,223,752	0.1%
Intergovernmental Agreements: Maricopa County; City of Phoenix Central City Addiction Recovery Center	\$1,489,871	0.1%
Liquor Fees	\$73,575	0.0%
Total Funding:	\$2,274,828,324	100.0%

Enrolled and Served Demographics

AHCCCS policy requires that members with behavioral health needs undergo a clinical assessment, which is to be reviewed by a clinician through a mental health or substance use treatment program. The information gathered during this assessment process includes several identifiable factors, such as race and ethnicity, gender, and reasons for seeking treatment. Members identified in this report include those with a SUD who were enrolled in AHCCCS and received service from a SUD program (Appendix A) during SFY 2023.

The tables below detail the demographics of these members by GSA and provide statewide totals. In SFY 2023, there were 214,070 members enrolled in AHCCCS who received at least one service from a SUD program. The Central GSA has the largest AHCCCS population in the state and consistent with its overall AHCCCS membership, represents 56% of those receiving SUD treatment services.

⁴ Funding in Table I represents grant, state appropriated and local funding through TRBHAs/ACC-RBHAs as well as Medicaid funding for all AHCCCS programs including ACC-RBHA, ALTCS-EPD, ACUTE, CRS, and the AIHPI. Funding includes administrative components and other amounts that will not be reflected in the provider level substance abuse utilization data in this report (Table VI) which is specific to the total claims associated with a provider. Federal discretionary funds include, but are not limited to, the SOR II and SOR III grants and the State Pilot Grant Program for Treatment of Pregnant and Postpartum Women (PPW-PLT). The State Appropriated line represents crisis services for individuals with a SUD which includes behavioral health services.

Substance Use Treatment Programs State Fiscal Year 2023

**Table II: Members Served with a Substance Use Disorder by GSA
SFY 2023 - July 1, 2022 to June 30, 2023**

GSAs	Count	Percentage
North	30,614	14.3%
South	49,670	23.2 %
Central	133,786	62.5%
Statewide	214,070	100.0%

Gender

The percentage of males versus females served is consistent between GSAs and statewide, with the SUD treatment population comprising more men than women—55.7% versus 44.3%, respectively. This statistic remains consistent with the data reported for the prior year.

**Table III: Gender of Members Served with a Substance Use Disorder by GSA
SFY 2023 - July 1, 2022 to June 30, 2023**

Gender ⁵	North		South		Central		Statewide	
	Count	Percentage	Count	Percentage	Count	Percentage	Count	Percentage
Male	16,846	55.0%	27,863	56.1%	74,460	55.7%	119,169	55.7%
Female	13,768	45.0%	21,807	43.9%	59,326	44.3%	94,901	44.3%
Totals	30,614	100.0%	49,670	100.0%	133,786	100.0%	214,070	100.0%

Race and Ethnicity

The majority (50.77%) of members who were enrolled and received a SUD treatment service in SFY 2023 identified as White. As the table illustrates, about 8% of members enrolled and served were African American, 10.53% were American Indian, less than 1% were Asian, and less than 1% were Native Hawaiian/Pacific Islander. Statewide, about 1% of members enrolled and served identified as Hispanic. However, with 28.14% of race/ethnicity data unavailable, the data likely does not represent accurate race/ethnicity data. In addition, some providers suspended for credible allegations of fraud coerced members to falsely identify themselves as American Indian to enroll in the American Indian Health Program which can impact the numbers represented in this report.

⁵ Data Source: AHCCCS enrollment data set

Substance Use Treatment Programs State Fiscal Year 2023

**Table IV: Race/Ethnicity of Members Served with a Substance Use Disorder by GSA
SFY 2023 - July 1, 2022 to June 30, 2023**

Race/ Ethnicity ⁶	North		South		Central		Statewide	
	Count	Percentage	Count	Percentage	Count	Percentage	Count	Percentage

Totals	30,614	100.0%	49,670	100.00%	133,786	100.00%	214,070	100.00%

Age

An aggregate review of the data detailing members' age indicates most members with a SUD and served in SFY 2023 were adults over age 18, with those between the ages of 25- 44 accounting for almost half of all members (50.9%). Additionally, 31.3% of members enrolled and served were between the ages of 45 – 64.

Although this report indicates that approximately 3% of members served were under the age of 18, this includes 135 members aged birth (0) to 4 years and 144 in the age group 5 to 11 years, totaling 279 members age 11 and under for whom a SUD diagnosis is not applicable. The earliest a SUD diagnosis can be given to a person under the age of 18 is age 12, rendering data for members between birth and age 11 as invalid as it relates to true and appropriate services related to SUD treatment.

Eighty-One members between ages of birth (0) to 11 in this report were served by providers who were suspended as AHCCCS providers between December 2022 and November 2023 due to credible allegations of fraud. Other members may have been misdiagnosed with SUD when the use of a different code, such as a Z code⁷, should have been used (e.g., children living with health conditions due to exposure in utero or from their living environment).

⁶ Data Source: AHCCCS enrollment data set. Per Federal law, members are not required to provide race or ethnicity in order to be eligible for Medicaid.

⁷ Z codes refer to factors influencing health status or reasons for contact with health services that are not classifiable elsewhere as diseases, injuries, or external causes.

Substance Use Treatment Programs State Fiscal Year 2023

The inclusion of members aged 11 and under in the dataset for this report raises further concerns which AHCCCS will continue to investigate and address.

**Table V: Age of Members Served with a Substance Use Disorder by GSA

Substance Use Disorders Addressed by the Programs

Table VI below illustrates the number of substance types used, as reported by members, for data collection purposes, in the AHCCCS portal, Unique Member Characteristics. This portal allows members to report up to three types of substances used. Alcohol and opiates were the most commonly reported substances used statewide by those in treatment in SFY 2023 at about 10% each, followed by methamphetamine at 8%. The most common substance used varied by GSA. In the North GSA it was alcohol (25%) and opiates in the South GSA (9%) and Central GSA (11%). However, a significant portion of the data reflects the category “None/No Use,” which may under-represent the various substance use types.

⁸ Data Source: AHCCCS enrollment data set.

Summary of Services

AHCCCS maintains a comprehensive service delivery network providing behavioral health prevention, intervention, treatment, and recovery programs to members with general mental health conditions, a designation of Serious Emotional Disturbances (SED) (among children and adolescents), Serious Mental Illness (SMI) (among adults), and/or SUD. AHCCCS covers a variety of age-appropriate SUD screening services.

With respect to SUD treatment, AHCCCS works with Contractors and TRBHAs to ensure the service delivery network presents individuals with a choice of multiple, highly qualified providers, each offering varying levels of care spanning multiple treatment modalities.

⁹ Data Source: AHCCCS Online Portal, Unique Member Characteristics (UMC). Not all members selected for this report had data in UMC. AHCCCS continues to work on streamlining the data and data collection process to improve data submissions. Data collection of UMC data started in October 2018 and is self-reported: In February 2020, a new requirement was implemented which requires providers to submit a written consent from the member to submit SUD data to the portal. As a result of this requirement, there continues to be an increase in 'None' data.

Substance Use Treatment Programs State Fiscal Year 2023

Services are grouped into eight major categories: inpatient, support, medical/pharmacy, residential services, treatment, crisis, behavioral health day programs, and rehabilitation. Table VII details the array of SUD services offered.

Table VII: Services Available to Members
SFY 2023 - July 1, 2022 to June 30, 2023

Service Category ¹⁰	Description
1. Inpatient Services	Inpatient detoxification and treatment services delivered in hospitals and sub-acute facilities, including Level I residential treatment centers that provide 24-hour supervision, an intensive treatment program, and on-site medical services.
2. Support Services	Case management, personal care services, home care training, family support, self-help/peer support and recovery coaching services, therapeutic foster care (TFC), unskilled respite care, permanent supportive housing, and transportation.
3. Medical and Pharmacy	Medications and medical procedures which relieve symptoms of addiction and/or promote or enhance recovery from addiction. Medication, laboratory/radiology and medical imaging, medical management, and electro-convulsive therapy (ECT).
4. Residential Services	Residential treatment with 24-hour supervision. Skills training and development; psychosocial rehabilitation living in skills training, cognitive rehabilitation, health promotion, psychoeducational services.
5. Behavioral Health Day Programs	Skills training and ongoing support to improve the individual's ability to function within the community. Specialized outpatient substance abuse programs provided to a person, group of persons, and/or families in a variety of settings.
6. Treatment Services	Assessment, evaluation (non-court ordered), and screening services; behavioral health counseling and therapy; psychophysiological therapy and biofeedback, intensive outpatient behavioral health services
7. Crisis Intervention	Stabilization services provided in the community, hospitals, and residential treatment facilities (examples include but are not limited to crisis call centers, crisis mobile teams, crisis observation and stabilization)
8. Rehabilitation Services	Living skills training, cognitive rehabilitation, health promotion, and ongoing support to maintain employment.

¹⁰[AHCCCS Medical Policy Manual \(AMPM\) 310-B Title XIX/XXI Behavioral Health Services Benefit](#) and AHCCCS list of behavioral health service codes

Substance Use Treatment Programs State Fiscal Year 2023

The services listed in Table VII are available to all AHCCCS members. Restrictions may apply to grant-funded services and are delivered based on need per each members' individualized treatment plan. Additional Non-Title XIX/XXI covered behavioral health services for members with SUD are outlined in the AHCCCS Medical Policy Manual (AMPM) 300-2B.¹¹

Table VIII shows utilization of these service categories via the number of claims, and amounts paid to providers, for AHCCCS members served with a SUD. It should be noted that the data in Table VI represents all services included in Table V provided to members with a SUD diagnosis who received at least one paid service from any of the providers in Appendix A.

As indicated in Table VIII on a statewide basis, support services were utilized the most at 1,878,825 counts and \$197,546,066, followed by treatment services at 1,272,009 counts and \$180,596,486.

Service utilization data was impacted by fraudulent billing practices. For example, providers suspended for credible allegations of fraud billed for:

- Excessive hours of services in a 24-hour period for individual members,
- Multiple services for the same member at the same time,
- AHCCCS members who were not physically present,
- Services after a member's date of death, and
- Services that were not medically necessary.

**Table VIII: Utilization by Service Category (Based on Number of Claims and Paid Amount)
SFY 2023 - July 1, 2022 to June 30, 2023¹²**

Service Category	North		South		Central		Statewide

Summary of Medication-Assisted Treatment Services

Medication-Assisted Treatment Services (MAT) is defined in AHCCCS Medical Policy Manual (AMPM) 660¹³ as “The use of medications in combination with counseling and behavioral therapies for the treatment of substance use disorder.” MAT is considered a gold standard and evidence-based treatment modality for SUD. According to SAMHSA,¹⁴ research shows that this combination of medication and therapy can successfully treat SUD, help sustain recovery, and prevent or reduce opioid overdose. AHCCCS maintains a comprehensive network of MAT providers throughout the state. In line with the evidence-based practice, these treatment providers use a combination of counseling and ancillary support services with medications for the treatment of SUD. While MAT services are often focused on the medications for OUD (MOUD) such as Methadone, Buprenorphine (Suboxone and/or Subutex), or Naltrexone, it is important to recognize that MAT may also refer to medications Alcohol Use Disorder (MAUD). AHCCCS covers MAT medications and services to ensure the availability of necessary, safe, and cost-effective medications for the treatment of applicable SUDs.

Through AHCCCS’ response to the opioid epidemic, efforts have been focused toward enhancing the state’s multi-sector strategic plan to address the gaps in prevention, treatment, and recovery support. These specific initiatives include increasing access to OUD treatment through, expanding access to OUD specific MAT, increasing public awareness through stigma reduction and education, enlisting new OUD specific MAT providers, ensuring 24/7 access to care points, increasing access to peer support services, and increasing recovery support options. AHCCCS maintains the [Opioid Services Locator](#), a real time, public-facing resource designed to provide available resources to include MOUD availability, points of naloxone distribution, and bed availability. Individuals may filter by services, zip code, agency, and/or population that a provider may serve.

Medical Services	1,676	6,189	13,970	21,480
Treatment Services	3,135	8,541	19,455	30,288
Crisis Intervention Services	339	525	1,538	2,341
Behavioral Health Day Programs	9	282	141	248

¹⁵ Data Source: AHCCCS Encounter and Claims Data.

¹⁶ Utilization data used in this report are for dates of service in State Fiscal Year (SFY) 2023 from July 1, 2022, through June 30, 2023 and were extracted in November 2023. Due to the four-month lag from the last date of service, data may be slightly understated.

¹⁷ Medication Assisted Treatment (MAT) in this report refers to members diagnosed with Opiate Use Disorder (OUD) (diagnosed within 90 days of the MAT) who are receiving medication to treat opioid dependence and addiction.

¹⁸ Members can and do move from one category, (i.e., GSA, to another within the reporting period). Each row represents an unduplicated count of members, and the summary line is distinct in total across the entire table.

Distinct Member Count Summary	3,463	9,364	21,954	33,553

In addition to MAT services, another key component of Arizona’s strategy for preventing overdose deaths from opioids is through increasing community-based access to naloxone, an opioid overdose reversal medication. AHCCCS continues to partner with contracted network providers and first responders to enhance statewide naloxone distribution and accessibility. SOR and SUBG funds have supported this effort through partnerships with the Arizona Department of Health Services (ADHS) as well as Sonoran Prevention Works (SPW), who each have acted as key figures in the distribution of naloxone to a number of entities.

ADHS supplies naloxone to a variety of community organizations: county health departments, community health centers, coalitions, harm reduction organizations, colleges and high schools, faith-based organizations, other organizations/agencies reaching populations at high risk of overdose. ADHS also supplies naloxone to first responders and hospital emergency departments who encounter particularly vulnerable or overdose-susceptible populations. From November 2022 through September 2023 ADHS distributed 111,010 (222,020 doses) naloxone kits to these groups using AHCCCS grant funding. ADHS 2023 naloxone administration data as of November 2023 has recorded 5,291 overdose reversals reported by community partners, 76% of suspected non-fatal overdoses response with naloxone administered and 1.7 average naloxone doses administered per suspected non-fatal opioid overdose response.¹⁹

SPW supplements this effort but focuses on street-based naloxone distribution, directly to people who use drugs, as well as SUD treatment partner agencies. SPW published a 2022 impact report noting 168,291 doses of naloxone distributed, 33,324 participant engagements, 3,012 community members training on naloxone administration and 4,697 overdose reversals reported back to the SPW staff.²⁰ Additionally, AHCCCS has developed policies and contract language for ACC-RBHAs and their network providers to ensure implementation of a direct service, community naloxone distribution network to meet the needs of the population. Providers focus specifically on the most vulnerable populations for opioid overdose, which includes those living in poverty, transitioning out of the criminal justice system, and those with true and perceived barriers to obtaining a prescription for the medication.

Summary of Substance Use Disorder Services (SUDS) Fund

The \$10 million Substance Use Disorder Services (SUDS) fund appropriation supplied 62,766 services to 35,241 under and uninsured distinct, unduplicated individuals with OUD in Arizona between February 1, 2018, and May 31, 2021. SUDS funding allows for additional direct service options including, treatment, rehabilitation, medical services, medication-assisted treatment, peer and family supports, case management, crisis intervention,

¹⁹ <https://www.azdhs.gov/opioid/#dashboards-naloxone>

²⁰ <https://spwaz.org/2022-annual-report/>

Substance Use Treatment Programs State Fiscal Year 2023

inpatient services, detoxification, residential services, day program services, transportation, and assistance with high co-pays or deductibles, which often serve as a barrier to accessing treatment and other support services. In SFY23, the five most utilized services covered included: medical services (i.e., medication services, medical management, laboratory, radiology, and medical imaging), methadone for medication-assisted treatment, case management services, treatment services (i.e., behavioral health counseling and therapy; assessment, evaluation, and screening services), and transportation services. The SFY 2022 Executive Budget supported a \$6 million transfer from the Medical Marijuana Fund into the SUDS Fund to continue providing treatment services to underinsured or uninsured Arizonans seeking substance use treatment services.

Evaluation of Results

Medicaid funded SUDS

To increase access to care for persons utilizing MAT, AHCCCS has engaged in several initiatives to enhance and expand access to services available within the community, which have been identified as meeting the specific service intensity and acuity needs of the individual. This includes:

1. Policy and contract language updates to expedite admission to Behavioral Health Residential Facilities (BHRF) focusing on the treatment of SUD;
2. Requiring Contractors to allow for the use of the American Society of Addiction Medicine (ASAM) Continuum level of care assessment tool to demonstrate sufficient necessity for admission to the indicated level of care without requiring additional prior authorization for a period of not less than 30 days;
3. Requiring BHRF providers to ensure members prescribed MAT are not excluded from admission and are able to receive the specific type of MAT and dosage prescribed by the member's opioid treatment provider or office based opioid treatment provider, without requiring them to change providers or medications to be admitted to the BHRF; and
4. AHCCCS engaging contractors and providers to pilot the ASAM Continuum tool to evaluate the possibility of system wide implementation of this tool to foster and ensure appropriate treatment of substance use disorder.

AHCCCS also identifies and requires calculation and reporting of performance measures (quality measures) to monitor the compliance of its Contractors in meeting contractual requirements related to the delivery of care and services provided to its members, including National Committee for Quality Assurance (NCQA) Healthcare Effectiveness Data and Information Set (HEDIS)[®] measures and measures within the CMS Core Set of Adult Health Care Quality Measures for Medicaid (Adult Core Set). Adult Core Set measures tracked and evaluated for the treatment of substance use disorder include, but are not limited to:

- Use of Pharmacotherapy for Opioid Use Disorder (OUD-AD),
- Follow-Up After Emergency Department Visit for Substance Use: Age 18 and Older (FUA-AD), and
- Initiation and Engagement of Substance Use Disorder Treatment (IET-AD)

Substance Use Treatment Programs State Fiscal Year 2023

The Use of Pharmacotherapy for Opioid Use Disorder (OUD-AD) measure examines the use of medication-assisted treatment for opioid use disorders to improve understanding of the quality of care across the continuum of care for SUDs. The measure assesses the percentage of beneficiaries ages 18-64 with an OUD who filled a prescription for or were administered or dispensed a Food and Drug Administration (FDA) approved medication for the disorder during the measurement year. The measure includes a total rate capturing any medication used in the medication-assisted treatment of opioid dependence and addiction, as well as four separate rates representing the following types of FDA-approved drug products: (1) buprenorphine, (2) oral naltrexone, (3) long-acting, injectable naltrexone, and (4) methadone. The CMS national Medicaid median rate for this measure for FFY 2022²¹ was 56.2%.

Table XI: Use of Pharmacotherapy for Opioid Use Disorder (OUD-AD), Statewide²²

Measure	CY 2022 Rate
Use of Pharmacotherapy for Opioid Use Disorder: Buprenorphine	23.9%

The Follow-up After Emergency Department Visit for Substance Use (FUA-AD) measure examines the percentage of emergency department (ED) visits for beneficiaries age 18 and older with a principal diagnosis of SUD, or any diagnosis of drug overdose, for which there was follow-up. The measure includes two rates: (1) follow-up within 30 days of the ED visit, and (2) follow-up within 7 days of the ED visit, displayed in Tables XIII and XIV below. The CMS national Medicaid median rate for this measure for FFY 2022²⁵ was 15.5% for 7 Day Follow-Up, and 23.8% for 30 Day Follow-Up.

Payment System Improvements

To address and eliminate fraudulent billing, AHCCCS made holistic, system-wide improvements to the Medicaid payment system including:

1. Hired a forensic auditor to review all claims since 2019,
2. Reviewed all existing claims edits which differ from national standards,
3. Set a specific rate for H0015 (Intensive Outpatient Treatment) as it previously paid a percentage of the total billed amount instead of a standard rate,
4. Created a trend report of all providers registering for the at-risk provider types and closely monitored for billing anomalies,

³⁵ N/A due to Contractor change, and less than a full year of data to evaluate the performance measure

³⁶ ACC-RBHA Aggregate Rates include only individuals who have an SMI designation

Substance Use Treatment Programs State Fiscal Year 2023

5. Created system reporting to flag concerning claims (volume, services per day, services for minors) for review prior to payment, and
6. Set billing thresholds to deny claims for multiple services that should not be billed on the same day,
7. Limited the ability to bill over date ranges,
8. Eliminated the ability for providers to bill on behalf of others,
9. Imposed pre-payment review for various scenarios,
10. Implemented Federal authority to impose a moratorium on new provider registrations for all Behavioral Health Outpatients Clinics, Integrated Clinics, Behavioral Health Residential Facilities, Community Service Agencies, and Non-Emergency Transportation Providers,
11. Ended approval of retroactive provider registrations without good cause,
12. Implemented emergency rules to enhance and expand AHCCCS authority to exclude providers affiliated with bad actors,
13. Revised the Provider Participation Agreement (PPA) to explicitly require that if a provider stops providing services to AHCCCS members during an ongoing investigation, they must help the member transition to a new provider for care. Similarly, they are required to provide to AHCCCS a member census and, upon request, any other information needed to assist in care coordination. If they do not comply, AHCCCS has the right to file an injunction to require the provider comply with the PPA,
14. Moved three behavioral health provider types to the high-risk category for new applicants and revalidating providers, which requires on-site visits, fingerprinting, background checks, a registration fee, and additional disclosures,
15. Revised AHCCCS policy to address conflicts of interest.

AHCCCS will implement additional measures to strengthen the agency's ability to detect and prevent potentially fraudulent activity. AHCCCS will continue to work closely with the Arizona Attorney General's Healthcare Fraud and Abuse Section, the Federal Bureau of Investigation (FBI), the U.S. Department of Health and Human Services (HHS), the U.S. Attorney's Office, the Internal Revenue Service (IRS), and local and tribal law enforcement to disrupt organized bad actors, apprehend them, and prosecute them to the full extent allowed by law.

Substance Use Block Grant (SUBG)

A full application/plan for the SUBG funds is due to SAMHSA every two years, in which the state sets goals and objectives for each grant priority for the planning period, establishing 1-year and 2-year targets. Progress is then reported on each year in the required SUBG report due to SAMHSA. The 2023 SUBG Report provided the following progress toward the following objectives:

- Increase the percent of tuberculosis screenings documented for members entering substance use treatment services from 57% (SFY2020) to 60% by (SFY2021). This objective was not achieved. Potential contributors to not meeting the goal include the impact of the COVID-19 pandemic on the usual behavioral health service delivery. However, ACC-RBHAs and their contracted providers for the block grant focus efforts to increase TB screenings, documentation and interventions such as development and distribution of educational material in both English and Spanish, review of TB documentation expectations in provider meetings, targeted outreach and testing of infectious disease among the SUD population,

Substance Use Treatment Programs State Fiscal Year 2023

including TB screening as part of the intake process, requiring TB screening prior to admission into a treatment facility.

- Increase the percentage of minors in the behavioral health system with a diagnosis of substance use disorder who received a treatment service from 41.44% (SFY2021) to 44% (SFY2022). This objective was achieved at 46.3%.
- Increase the number of Oxford Houses operating in the state of Arizona from 41 houses (SFY2021) to 44 houses (SFY2022). This objective was achieved.
- Increase the number of non-Title XIX childcare claims coded T1009 and/or funded alternatively through SABG (SUBG). This objective was not achieved. Potential contributors to not meeting the goal include system challenges related to child care licensing, staffing and space costs, as well as child care program administrative requirements that are not possible within the structure and purpose of substance use disorder treatment programs. However, other efforts for providing childcare so that parents can enter treatment were implemented and include the promotion of education and training that will seek to improve the billing of T1009 code for childcare services, residential treatment facilities offering child care directly, paying for childcare staff salary rather than billing services as a claim to the health plan.
- Increase the percentage of pregnant women enrolled in an SUD treatment program who accessed outpatient primary medical care within 3 months prior to delivery of a baby from 11.58% (SFY2021) to 15% (SFY2022). This objective was not achieved. Potential contributors include the COVID-19 pandemic on the usual health service delivery as well as stigma associated with substance use, particularly during pregnancy and for parents of dependent children, and the fear of medical practitioners notifying the Department of Child Safety (DCS), including fear of child removal. However, efforts toward this goal include targeted outreach positions to ensure these individuals receive priority access to care, engaging the family unit in treatment services, data reporting mechanisms to identify pregnant members along with risk factors such as substance use, comprehensive clinical and social need assessments, strategic partnerships among ACC-RBHAs and providers and hospitals and learning collaboratives on the topic of pregnant and parenting women, workforce development and capacity efforts to improve services for this population, and the promotion of prenatal and postnatal care.
- Increase the percentage of pregnant women admitted to SUD treatment service who accessed outpatient care within three months after the delivery of the baby from 92.75% (SFY2021) to 94% (SFY2022). This objective was not achieved. The potential contributors and efforts toward the objective are consistent with those reported for the previous objective.
- Increase the percent of individuals receiving an SUD treatment service to continue to receive a SUD service every month for at least three consecutive months after enrollment in a SUD treatment program from 10.38% (SFY2021) to 12% (SFY2022). This objective was achieved at 52%.
- Increase the percentage of member case files that include documentation of natural supports (inclusion of family or other supports in treatment planning) from 14% (SFY2020) to 18% (SFY2022). This objective was not achieved. Although behavioral health system partners recognize natural supports as a positive component to treatment services, barriers reported to engaging natural supports in treatment services include: the inability for a provider to bill for services and supports provided to family members, discomfort among members to include anyone else in their treatment, and members not wanting to be a

Substance Use Treatment Programs State Fiscal Year 2023

burden to others.

- Increase the percent of member case files that document that peer or family support was offered as part of the treatment plan from 36% (SFY2020) to 45% (SFY2022). This objective was not achieved. The potential contributors and efforts toward the objective are consistent with those reported for the previous objective.
- Increase the percentage of member case files for women which include evidence that gender-specific treatment was offered from 28% (SFY2021) to 35% (SFY2022). This objective was not achieved. However, efforts toward the objective include outreach including education to provider agencies, marketing materials to target pregnant women and women with dependent children about information on services, learning collaboratives, funded positions to outreach and engage women into treatment services, implementation of Extension for Community Healthcare Outcomes (ECHO) on best practices in gender-specific treatment services, family court efforts for family reunification with clinical collaboration, education on the SAMHSA Treatment Improvement Protocol (TIP) on addressing the specific needs of women, ACC-RBHA and provider trainings in the Relias platform on gender-sensitive treatment to women with SUD, etc.
- Increase the engagement of persons who inject drugs in harm reduction program services from 0 (data was not collected previously). Though a target number was not outlined in the plan/application, the statewide harm reduction program recorded in calendar year 2022: 8,647 individuals were served via syringe disposal and 22,770 were served via syringe distribution. These numbers may include duplication.

These goals and objectives were updated for the FY24-25 grant year. Changes were made according to recent needs assessments, updating according to state and federal priorities for the grant with input ACC-RBHA partners, and to correct identified limitations in the current goals, objectives, and indicators.

Arizona's State Pilot Project for the Treatment of Pregnant and Postpartum Women with Substance Use Disorder (PPW-PLT)

Arizona was one of five states to be awarded a grant to implement the PPW-PLT project, awarded in 2020. Arizona's pilot project included the following components: direct service to the priority population of pregnant or postpartum women diagnosed with a SUD, statewide needs assessment, PPW-PLT learning collaborative, workforce development, as well as Government Performance and Results Act (GPRA) measures and program evaluation.

Direct services reaching women who were AHCCCS-covered, pregnant or postpartum (defined as having been pregnant within the previous 12-months, regardless of the outcome of the pregnancy), and diagnosed with SUD began in February 2022. Over the course of the project, a total of 25 women were served. Ninety-six percent (96%) of the 25 clients were screened for a co-occurring disorder with 76% having a positive result indicating a co-occurring disorder. With a mean age of 30.2, 100% of the clients were female. Most clients identified as White (76%) and non-Hispanic (60%), 40% identified as Hispanic, and 12.5% identified as Black. Sixty-four (64%) of clients identified as heterosexual, and 26% identified as bisexual. Thirty-six percent (36%) of participants completed grade 12 with a high school diploma or a GED equivalent, 27% attended college or university with 9% completing the first year. All participants had children; seven participants were pregnant. The average number of

Substance Use Treatment Programs State Fiscal Year 2023

children per client is 1.8. The AHCCCS PPW Pilot project served the specified target population. There was a total of 25 participants, and 10 individuals (40%) completed/graduated from the program, and 15 individuals (60%) closed with termination discharges, and 33% of those discharged were involuntarily discharged due to violation of rules. Twenty percent (20%) involuntarily discharged due to nonparticipation. Another 20% were discharged at the end of the grant period and are continuing to be involved in the full set of PPW components. Two individuals (13%) left against staff advice without satisfactory progress. One individual passed away during the program.

There was a 575% change among the 13 clients that were unemployed at intake and employed at discharge. There were decreases in the number of clients reporting being unemployed at discharge. Of participants who completed both intake and discharge, there was a 32.6% decrease in reports of serious depression, 25.8% decrease in having trouble understanding, concentrating, or remembering, 46.7% decrease in the number of participants prescribed medication for a psychological or emotional problem, and quality of life ratings improved from 4.31 to 4.38 (scale of 1 to 5 - mean 5.0 preferred). Ratings of experiencing psychological or emotional problems decreased from 1.91 to 1.85 (on a scale of 1 to 5, mean 1.0 preferred). No participants reported using alcohol or illegal substances, and no criminal activity or recidivism was reported by participants completing discharge interviews.

The PPW-PLT Needs Assessment was completed in August of 2021 utilizing qualitative and quantitative data, key informant interviews of providers and women with lived experience, stakeholder and PPW survey responses, focus groups of providers from rural and urban locations, claims analysis, case studies, and a robust literature review. The needs assessment resulted in a set of system- and sector-level recommendations that drove the development of the PPW-PLT Learning Collaborative and refined the topic progression ultimately reaching 213 individual partners over 26 learning collaborative meetings. Workforce development needs identified through the PPW-PLT stakeholder survey included Best Practices for Treating Substance Exposed Newborns (SEN)/Neonatal Abstinence Syndrome (NAS) and the Eat, Sleep, Console Model of newborn care for neonates exposed to opioids prenatally and experiencing withdrawal symptoms. A set of virtual webinars were developed, presented live for training hours if attendees needed them, and recorded to be available via YouTube on a variety of topics related to evidence-based methods and models of treatment for women engaged in SUD treatment and recovery, and on infants diagnosed with SEN/NAS/Neonatal Opioid Withdrawal Syndrome (NOWS). These resources are intended to reach paraprofessionals and others who directly support families engaged in SUD treatment and recovery services. A total of 8 recorded webinars are currently available, with more soon to be uploaded and are available as an online training resource.
