

December 28, 2017

The Honorable Douglas A. Ducey
Office of the Governor
1700 West Washington
Phoenix, Arizona 85007

The Honorable Steve Yarbrough
Arizona State Senate
1700 West Washington
Phoenix, Arizona 85007

The Honorable J.D. Mesnard
Arizona House of Representatives
1700 West Washington
Phoenix, Arizona 85007

Dear Governor Ducey, President Yarbrough, and Speaker Mesnard:

In accordance with A.R.S. §36-2023, please find the enclosed report pertaining to substance use treatment programs. Do not hesitate to contact me at (602) 417-4111, if you have any questions or would like additional information.

Sincerely,

Thomas J. Betlach
Director

**Annual Report:
Substance Use Treatment Programs
State Fiscal Year 2017**

July 1, 2016 to June 30, 2017

**January 2018
Tom Betlach, Director**

Background

The Arizona Health Care Cost Containment System, Division of Healthcare Management (AHCCCS/DHCM) has conducted an assessment of its Substance Use Disorder (SUD) treatment programs in accordance with the requirements outlined in Arizona Revised Statutes (A.R.S) §36-2023(C)(6).

Prepare an annual report on drug abuse treatment programs in this state that receive monies from the administration to be submitted by January 1 of each year to the governor, the president of the senate and the speaker of the house of representatives and to be made available to the general public through the Arizona drug and gang prevention resource center. The report shall include:

- (a) The name and location of each program.*
- (b) The amount and sources of funding for each program.*
- (c) The number of clients who received services during the preceding fiscal year.*
- (d) A description of the demographic characteristics of the client population served by each program, including age groups, gender and ethnicity.*
- (e) A description of client problems addressed by the programs, including the types of substances abused.*
- (f) A summary of the numbers and types of services available and provided during the preceding fiscal year.*
- (g) An evaluation of the results achieved by the programs.*

As a result of administrative simplification, the merger of AHCCCS and the Arizona Department of Health Services/Division of Behavioral Health Services (ADHS/DBHS) effective July 1, 2016, AHCCCS acquired responsibility for the Annual Report: Substance Use Treatment Programs. AHCCCS reviewed the reports previously prepared by DBHS and the legislative requirements for this report, and have updated the methodologies and data sources utilized to better align with the legislative requirements. This 2017 Report reflects those changes. Utilization data used in this Report is for dates of service from July 1, 2016 through June 30, 2017, and was extracted in November 2017. Due to the short four month lag from the last date of service, data may be slightly understated.

During the fiscal year, the state implemented several concentrated steps aimed at addressing the opioid epidemic in Arizona through the Governor's Goal Council 3 Breakthrough Project: Reducing Opioid Deaths. These include prevention measures to change opioid prescribing; efforts to increase access to naloxone and reduce opioid overdose; action to increase timely access to treatment for Opioid Use Disorder; real-time data collection and monitoring; and statewide strategic planning.

Highlighted efforts of the Council include Governor Ducey's Executive Order to limit the quantity of first opioid prescriptions to no more than seven days for state insurance payers in October, 2016 and the Governor's emergency declaration to address the growing number of deaths in Arizona in June, 2017. As a result of the emergency declaration, the Arizona Department of Health Services enacted an emergency surveillance system to track and monitor real-time opioid-related data, including suspected fatal and non-fatal overdose, naloxone administration and dispensing and cases of neonatal abstinence syndrome. In addition, several stakeholder

meetings were held to develop recommended action items to further combat the epidemic across prevention, enforcement and treatment. The surveillance data and the Opioid Action Report can be accessed on the ADHS website: <http://www.azdhs.gov/prevention/womens-childrens-health/injury-prevention/opioid-prevention/index.php>

On May 1, 2017, AHCCCS also received an Opioid State Targeted Response grant from the Substance Abuse and Mental Health Services Administration for prevention and treatment activities in the amount of \$24.3 million over the course of two years. The objectives of the grant are to reduce the number of individuals with Opioid Use Disorder and the number of opioid-related deaths. State partners include the Governor’s Office of Youth, Faith and Family, ADHS, and the Department of Child Safety. Prevention activities include conducting Screening, Brief Intervention and Referral to Treatment models; increased access to naloxone for law enforcement; education and outreach to older adults; and implementation of community-based awareness and education activities. Treatment activities are centered around increasing access, participation and retention in Medication Assisted Treatment and recovery support services. Activities include 24/7 access to care sites for Opioid Use Disorder treatment; increasing peer support networks; incarceration alternative projects; care coordination for individuals re-entering the community from correctional settings; and expanded options for residential services. More information on the grant can be found on the AHCCCS website: <https://www.azahcccs.gov/Resources/Grants/STR/>

Location of Substance Use Disorder Treatment Programs

The locations of the state’s SUD treatment programs are divided in three distinct geographic service areas (GSAs) throughout the state with oversight provided by three Integrated Managed Care Organizations (MCO)/Regional Behavioral Health Authorities (RBHA).

| RBHA | GSA |
|--------------------------------|---------|
| Health Choice Integrated Care | North |
| Mercy Maricopa Integrated Care | Central |
| Cenpatico Integrated Care | South |

The RBHAs are required to maintain a comprehensive network of behavioral health providers to deliver prevention, intervention, treatment and rehabilitative services to members enrolled in the AHCCCS system. This structure allows communities to provide services in a manner appropriate to meet the unique needs of members and families residing within their local areas. Appendix A lists the names and locations of providers throughout the state who have a Substance Use Treatment Program. There are approximately 400 SUD programs in the State of Arizona, as summarized below.

| RBHA | Number of Programs |
|--------------------------------|--------------------|
| Health Choice Integrated Care | 84 |
| Mercy Maricopa Integrated Care | 160 |
| Cenpatico Integrated Care | 146 |

Program Funding

During state fiscal year 2017, AHCCCS expended \$236,316,548 in service funding for members and families with substance use disorders. The single largest source of SUD treatment funding was Medicaid funding as reflected in Table I, followed by Federal Substance Abuse Block Grant (SABG) funds. Additional funding included State appropriated monies, other federal discretionary funds, funds from Maricopa County for local detoxification services, funds available through intergovernmental agreements (IGA) with the City of Phoenix, and liquor services fees.

**Table I: Substance Use Disorder Treatment Funding Summary
SFY 2017 - July 1, 2016 to June 30, 2017**

| Fund Source ¹ | Dollar Amount | Percentage |
|---|----------------------|----------------|
| Medicaid Funding (State Match and Title XIX) | \$190,740,044 | 80.71% |
| Federal: Substance Abuse Block Grant (SABG) | \$38,888,651 | 16.46% |
| Federal: Other (Discretionary Funds) | \$1,229,705 | 0.52% |
| State Appropriated | \$3,700,902 | 1.57% |
| Intergovernmental Agreements: Maricopa County; City of Phoenix Central City Addiction Recovery Center | \$1,689,871 | 0.72% |
| Liquor Fees | \$67,375 | 0.03% |
| Total Funding: | \$236,316,548 | 100.00% |

Note: The State Appropriated line represents Crisis Services which includes behavioral health services.

¹ Funding represents payments to RBHAs specifically related to Substance Abuse services and includes administrative components and other amounts that will not be reflected in the provider level substance abuse utilization data in this report (Table VI).

Enrolled and Served Demographics

AHCCCS policy requires that members with behavioral health needs undergo a clinical assessment, administered by a clinician through a mental health or substance use treatment program. The information gathered during this assessment process includes several identifiable factors, such as race and ethnicity, gender, and reasons for seeking treatment. Members identified in this report include those with a SUD who were enrolled in AHCCCS and received a service from a SUD program (Appendix A) during State Fiscal Year 2017 (SFY 2017).

Tables II and III below detail the demographics of these members by GSA and provide statewide totals. In SFY 2017, there were 66,804 members enrolled in AHCCCS who received at least one service from a SUD program. Of these members receiving treatment for a Substance Use Disorder, 51.4 percent were enrolled in the Central GSA.

**Table II: Members Served with a Substance Use Disorder by GSA
SFY 2017 - July 1, 2016 to June 30, 2017**

| GSA | Count | Percent |
|------------------|---------------|---------------|
| North | 10,980 | 16.4% |
| South | 21,512 | 32.2% |
| Central | 34,312 | 51.4% |
| Statewide | 66,804 | 100.0% |

**Table III: Demographics of Members Served with a Substance Use Disorder by GSA
SFY 2017 - July 1, 2016 to June 30, 2017**

Gender

The percentage of males versus females served is consistent between GSAs and statewide, with the SUD treatment population comprised of more men than women—58.0 percent versus 42.0 percent, respectively.

| Gender ² | North | | South | | Central | | Statewide | |
|---------------------|---------------|---------------|---------------|---------------|---------------|---------------|---------------|---------------|
| | Count | Percentage | Count | Percentage | Count | Percentage | Count | Percentage |
| Male | 6,233 | 56.8% | 12,461 | 57.9% | 20,051 | 58.4% | 38,745 | 58.0% |
| Female | 4,747 | 43.2% | 9,051 | 42.1% | 14,261 | 41.6% | 28,059 | 42.0% |
| Totals | 10,980 | 100.0% | 21,512 | 100.0% | 34,312 | 100.0% | 66,804 | 100.0% |

² Data Source: AHCCCS enrollment data set

Race and Ethnicity

The majority (60.9 percent) of members who were enrolled and received a SUD treatment service in SFY 2017 were White. As the table illustrates, 4.3 percent of members enrolled and served were African American, 4.3 percent were American Indian, 1.2 percent were of multi-race backgrounds, 0.3 percent were Asian and 0.3 percent were Native Hawaiian/Pacific Islander. Statewide, 20.3 percent of members enrolled and served identified as Hispanic/Latino.

| Race/Ethnicity ³ | North | | South | | Central | | Statewide | |
|----------------------------------|---------------|-------------|---------------|-------------|---------------|-------------|---------------|-------------|
| | Count | Percentage | Count | Percentage | Count | Percentage | Count | Percentage |
| American Indian | 1,099 | 10.0% | 895 | 4.2% | 902 | 2.6% | 2,896 | 4.3% |
| Asian | 19 | 0.2% | 75 | 0.3% | 89 | 0.3% | 183 | 0.3% |
| African American | 113 | 1.0% | 954 | 4.4% | 1,816 | 5.3% | 2,883 | 4.3% |
| Native Hawaiian/Pacific Islander | 10 | 0.1% | 55 | 0.3% | 105 | 0.3% | 170 | 0.3% |
| White | 7,380 | 67.2% | 17,167 | 79.8% | 16,163 | 47.1% | 40,710 | 60.9% |
| Multi-Racial | 172 | 1.6% | 410 | 1.9% | 198 | 0.6% | 780 | 1.2% |
| Data Unavailable | 985 | 9.0% | 1,450 | 6.7% | 14,216 | 41.4% | 16,651 | 24.9% |
| No DUG Data | 1,202 | 10.9% | 506 | 2.4% | 823 | 2.4% | 2,531 | 3.8% |
| Totals | 10,980 | 100% | 21,512 | 100% | 34,312 | 100% | 66,804 | 100% |
| Hispanic | 1,036 | 9.4% | 7,900 | 36.7% | 4,656 | 13.6% | 13,592 | 20.3% |
| Not Hispanic | 7,757 | 70.6% | 11,656 | 54.2% | 14,617 | 42.6% | 34,030 | 50.9% |
| Data Unavailable | 985 | 9.0% | 1,450 | 6.7% | 14,216 | 41.4% | 16,651 | 24.9% |
| No DUG Data | 1,202 | 10.9% | 506 | 2.4% | 823 | 2.4% | 2,531 | 3.8% |
| Totals | 10,980 | 100% | 21,512 | 100% | 34,312 | 100% | 66,804 | 100% |

Age

An aggregate review of the data detailing members' age indicates the vast majority of members with a SUD and served in SFY 2017 were adults, with those between the ages of 25 and 44 accounting for more than half of all members (56.3 percent). Additionally, 26.1 percent of members enrolled and served were between the ages of 45 – 64. Approximately 3.3 percent of members were under the age of 18.

³ Data Source: AHCCCS Behavioral Health Demographics & Outcomes data set (DUG data set). Not all members selected for this Report had BH Demographics data: there were also some members with BH Demographic data, but had no race/ethnicity available. AHCCCS is working on streamlining the data and data collection process to improve data submissions.

| Age Distribution ⁴ | North | | South | | Central | | Statewide | |
|-------------------------------|---------------|---------------|---------------|---------------|---------------|---------------|---------------|---------------|
| | Count | Percentage | Count | Percentage | Count | Percentage | Count | Percentage |
| Birth – 4 | 1 | 0.0% | 0 | 0.0% | 9 | 0.0% | 10 | 0.0% |
| 5 – 11 | 2 | 0.0% | 10 | 0.0% | 15 | 0.0% | 27 | 0.0% |
| 12 – 14 | 43 | 0.4% | 119 | 0.6% | 163 | 0.5% | 325 | 0.5% |
| 15 – 17 | 261 | 2.4% | 679 | 3.2% | 962 | 2.8% | 1,902 | 2.8% |
| 18 – 20 | 452 | 4.1% | 828 | 3.8% | 1,250 | 3.6% | 2,530 | 3.8% |
| 21 – 24 | 1,050 | 9.6% | 1,873 | 8.7% | 3,331 | 9.7% | 6,254 | 9.4% |
| 25 – 44 | 5,673 | 51.7% | 12,077 | 56.1% | 19,862 | 57.9% | 37,612 | 56.3% |
| 45 – 64 | 3,327 | 30.3% | 5,718 | 26.6% | 8,366 | 24.4% | 17,411 | 26.1% |
| 65+ | 171 | 1.6% | 208 | 1.0% | 354 | 1.0% | 733 | 1.1% |
| Totals | 10,980 | 100.0% | 21,512 | 100.0% | 34,312 | 100.0% | 66,804 | 100.0% |

Substance Use Disorders Addressed by the Programs

Opiates were the most common substance used statewide by those in treatment in SFY 2017 at 16.9 percent, followed by alcohol at 16.1 percent, and marijuana/hashish at 15.5 percent. The least common substance reported was other sedatives/tranquilizers (0.1%).

The most common substance reported by GSA varied. While alcohol was most prevalent substance used in the North GSA (28.9%), opiates were the most common in the South GSA (24.2%), and in the Central GSA (12.6%).

⁴ Data Source: AHCCCS Behavioral Health Demographics & Outcomes data set (DUG data set). Not all members selected for this Report have BH Demographics data available, AHCCCS have been working on streamlining the data and data collection process to improve data submissions.

**Table IV: Substance Use Type by GSA
SFY 2017 - July 1, 2016 to June 30, 2017**

| Substance Type ⁵ | North | | South | | Central | | Statewide | |
|-------------------------------|---------------|---------------|---------------|---------------|---------------|---------------|----------------|---------------|
| | Count | Percent age | Count | Percent age | Count | Percent age | Count | Percent age |
| Opiates | 2,813 | 17.5% | 7,538 | 24.2% | 7,056 | 12.6% | 17,407 | 16.9% |
| Alcohol | 4,657 | 28.9% | 6,458 | 20.7% | 5,466 | 9.8% | 16,581 | 16.1% |
| Marijuana/ Hashish | 3,327 | 20.7% | 6,715 | 21.5% | 6,006 | 10.7% | 16,048 | 15.5% |
| Methamphetamine | 3,319 | 20.6% | 5,800 | 18.6% | 6,789 | 12.1% | 15,908 | 15.4% |
| Cocaine/Crack | 459 | 2.9% | 2,402 | 7.7% | 1,373 | 2.5% | 4,234 | 4.1% |
| Other Stimulants | 59 | 0.4% | 120 | 0.4% | 99 | 0.2% | 278 | 0.3% |

| Totals⁶ | 16,094 | 100.0% | 31,195 | 100.0% | 55,986 | 100.0% | 103,275 | 100.0% |

Summary of Services

AHCCCS maintains a comprehensive service delivery network providing primary prevention, treatment and rehabilitation programs to children and adolescents, as well as adults with General Mental Health Disorders (GMH) and/or Substance Use Disorders (SUD), and adults determined to have a Serious Mental Illness (SMI).

With respect to Substance Use Disorder treatment, AHCCCS works diligently with its Contractors to ensure the service delivery network presents individuals with a choice of multiple, highly-qualified providers, each offering varying levels of care spanning multiple treatment modalities.

Services can primarily be grouped into eight major categories: Inpatient, Support, Medical/Pharmacy, Residential Services, Treatment, Crisis, Behavioral Health Day Programs, and Rehabilitation. Table V (below) details the array of SUD services offered.

⁵ Data Source: Data Source: AHCCCS Behavioral Health Demographics & Outcomes data set (DUG data set). Not all members selected for this report had BH Demographics data and there were also members with a BH Demographic, but had no substance use type available. AHCCCS is working on streamlining the data and data collection process to improve data submissions.

⁶ Members are allowed to report more than one Substance Use Type.

**Table V: Services Available to Members
SFY 2017 - July 1, 2016 to June 30, 2017**

| Service Category | Description |
|--------------------------------|--|
| Inpatient Services | Inpatient detoxification and treatment services delivered in hospitals and sub-acute facilities, including Level I residential treatment centers that provide 24-hour supervision, an intensive treatment program, and on-site medical services. |
| Support Services | Case management, self-help/peer support services and transportation. |
| Medical and Pharmacy | Medications and medical procedures which relieve symptoms of addiction and/or promote or enhance recovery from addiction. |
| Residential Services | Residential treatment with 24-hour supervision |
| Behavioral Health Day Programs | Skills training and ongoing support to improve the individual's ability to function within the community. Specialized outpatient substance abuse programs provided to a person, group of persons and/or families in a variety of settings. |
| Treatment Services | Individual and group counseling, therapy, assessment, evaluation, screening, and other professional services. |
| Crisis Intervention | Stabilization services provided in the community, hospitals and residential treatment facilities. |
| Rehabilitation Services | Living skills training, cognitive rehabilitation, health promotion, and ongoing support to maintain employment. |

The services listed in Table V are available to AHCCCS members and are delivered based on need per each member's individualized treatment plan.

As indicated in Figure I (below) Inpatient Services were utilized at the highest percentage (36.21%), whereas Rehabilitation services were used the least (0.01%). Utilization by service category was consistent across GSAs. Table VI shows utilization of these service categories via the number of claims, and amounts paid to providers, for AHCCCS members served with a SUD. It should be noted that the data in both Figure I and Table VI represents all services included in Table V provided to members with a SUD diagnosis who received at least one paid service from any of the providers in Appendix A. . This may include services that were or were not directly related to the SUD treatment and for which a diagnosis was not present on a claim.

Figure I: Member Utilization by Service Category

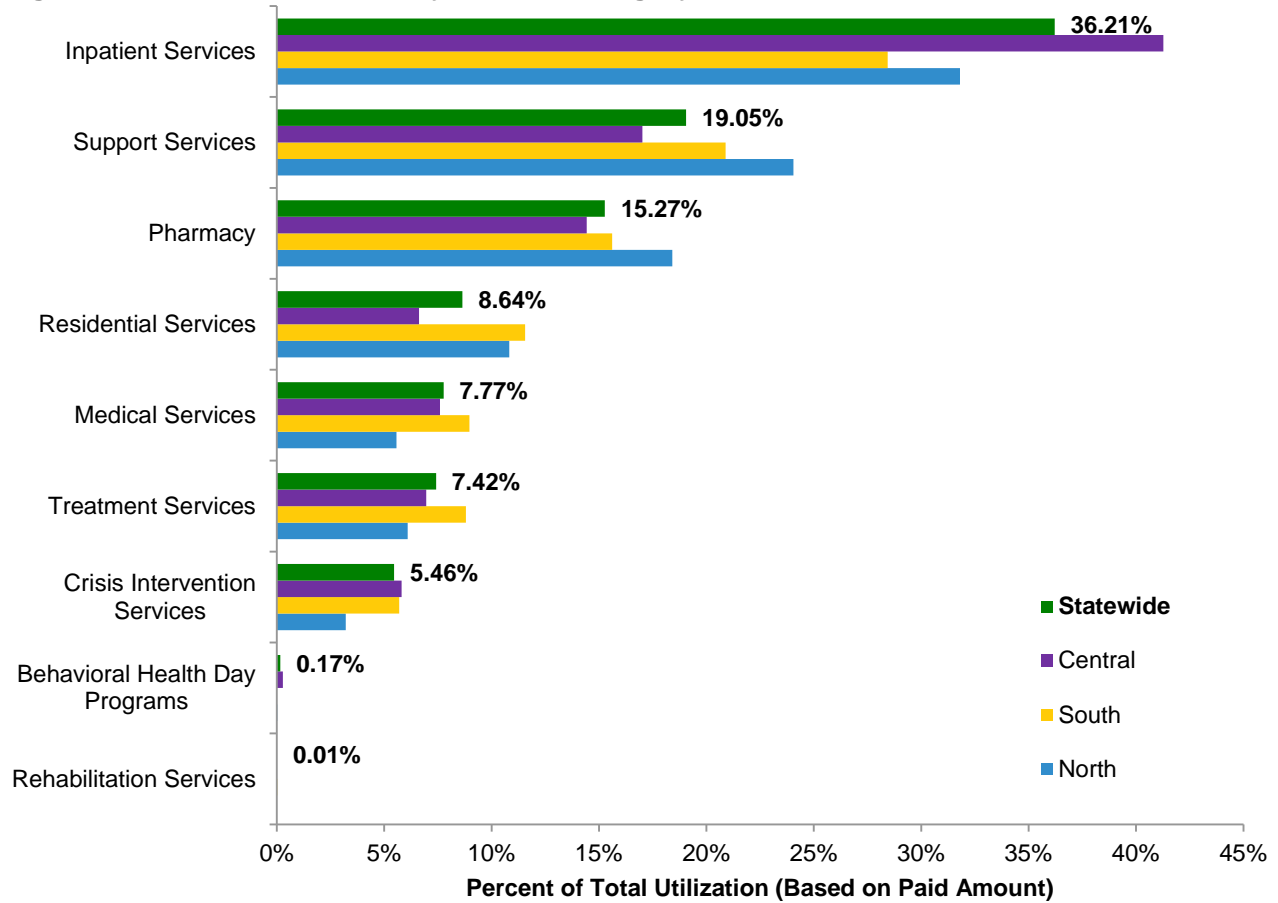

Table VI: Utilization by Service Category (Based on Number of Claims and Paid Amount) SFY 2017 - July 1, 2016 to June 30, 2017

| Service Category ⁷ | North | | South | | Central | | Statewide | |
|--------------------------------|---------|---------------------|---------|----------------------|-----------|----------------------|-----------|----------------------|

⁷ Data Source: AHCCCS Encounter data

Treatment Outcomes

AHCCCS employs a variety of mechanisms to measure the effectiveness of treatment, including assessing the change in numerous functional outcome indicators for members receiving behavioral health services. The Substance Abuse and Mental Health Services Administration (SAMHSA) has established a set of National Outcome Measures (NOMs) to capture an individual’s improvement in the areas of employment, educational participation, abstinence from alcohol or other drugs, criminal activity and homelessness.

Table VII (below) delineates the percentages at admission and discharge and corresponding change in each of the outcome domains for those receiving treatment for a SUD. For example, the number of members reducing or abstaining from alcohol at discharge from treatment programs in State Fiscal Year 2017 was 22.9 percent greater in relation to those abstaining from alcohol at the time of admission to the program.

Participation in self-help programs at discharge was 96.9 percent greater than at admission. Although this was a significant increase, only a small number of members were participating in self-help programs at the time of admission, resulting in this relative change.

The table illustrates a negative 9.3 percent change for individuals having recent involvement with the Criminal Justice System at discharge compared to the time of admission, indicating a reduction in recidivism throughout treatment. Through the RBHA’s, AHCCCS continues its efforts to provide behavioral health services, housing and employment supports to members to improve their stability in the community and positively impact recidivism. In addition, Reach In activities are conducted for individuals prior to release for the purpose of care coordination and timely access to services after release.

Table VII: Treatment Outcomes
SFY 2017 - July 1, 2016 to June 30, 2017

| Outcomes ⁸ | How has participating in the behavioral health system impacted the lives of our members? | | |
|---|--|----------------------|----------------|
| | Percent at Admission | Percent at Discharge | Percent Change |
| Members with Substance Use: | | | |
| No Alcohol Use | 28.9% | 35.5% | +22.9% |
| No (Other) Drug Use | 25.7% | 31.8% | +23.6% |
| Participate in Self-Help Programs During Treatment | 1.7% | 3.4% | +96.9% |
| Are Not Homeless | 90.1% | 92.0% | +2.0% |
| Are Competitively Employed Full or Part-Time | 24.3% | 27.6% | +13.7% |
| Recent Involvement with the Criminal Justice System | 11.5% | 10.5% | -9.3% |
