6. **An agency’s justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:**

AHCCCS Differential Adjusted Payment (DAP) initiatives are strategically designed to reward quality outcomes and reduce growth in the cost of health care. The objective of DAP delineated in this proposed rulemaking is to reward hospital providers that have taken designated actions to improve patients’ care experience, improve members’ health, and reduce the growth of the cost of care. Hospitals which satisfy the requirements delineated in rule will receive increased payments from the AHCCCS Administration and Contractors for inpatient and outpatient services. The proposed DAP rules represent the AHCCCS Administration’s expanding efforts to enhance accountability of the health care delivery system. The proposed rulemaking will amend and clarify rules specifying requirements for receipt of DAP for qualifying hospitals for both inpatient and outpatient services for the time period of October 1, 2019 through September 30, 2020. This rulemaking expands qualification for DAP payments to additional categories of hospitals that provide outpatient if they meet certain reporting requirements. The proposed rulemaking will authorize AHCCCS to continue rewarding innovative activities and broaden the reach of the present model, emphasizing improved patient care and reduced growth in the cost of care.

7. **A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

A study was not referenced or relied upon when revising these regulations.

8. **A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision:**

This rulemaking does not diminish a previous grant of authority of a political subdivision.

9. **A summary of the economic, small business, and consumer impact:**

The Administration anticipates that the DAP rulemaking will result in approximately $76 million of additional payments for the contract year October 1, 2019 through September 30, 2020 to 98 hospitals.

10. **A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:**

One typographical error in the text of the rule was changed. R9-22-712.35(E)(3)(a) “By May 15, 2019, a hospital which did not receive Differential Adjusted Payments from October 1, 2018 through September 30, 2019, submits a Letter of Intent to AHCCCS and a qualifying HIE organization in which the hospital agrees to achieve all of the following” (emphasis added). The not added to the sentence above is necessary and was clearly needed based on
the context of the rule, therefore AHCCCS is not concerned that members of the public will misconstrue this as a substantive instead of typographical change.

11. **An agency’s summary of the public or stakeholder comments made about the rule making and the agency response to the comments:** No comments were made by the public.

12. **Other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules.**
   There are no other matters prescribed by statute applicable to rulemaking specific to this agency, to this specific rule, or to this class of rules.

   a. **Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**
   The rule does not require the provider to obtain a permit or a general permit.

   b. **Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**
   The rule must comply with 42 CFR 438.6 and is not more stringent than federal law.

   c. **Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:**
   No such analysis was submitted.

13. **A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:**
   The rule does not include any incorporation by reference of materials as specified in statute.

14. **Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:**
   The rule was not previously made, amended or repealed as an emergency rule.
